MEMORANDUM

TO: Harold Jones, Water Rights Supervisor
FROM: Tony Olenichak, Deputy Watermaster
DATE: April 4, 2002
SUBJECT: Kennedy/Great Western Water Right Deliveries

I've reviewed the claims owned by Brad Reed, Gerald Yamasaki, Ladd Holmquist, Hansen Farms, and The Newman Trust who claim that their water rights, historically delivered to the Kennedy Canal by Water District #1, should instead be delivered to the Great Western Canal and distributed by New Sweden Irrigation District.

Ladd Holmquist's claims (A01-10106, A01-10107, and A01-10108) are for water rights listed in Transfers #331 and #486 that describe the point of diversion as the Great Western Canal and include the transferred place of use. The Water District #1 delivery records will be corrected for these claims.

Brad Reed's and Gerald Yamasaki's claims are for water rights listed for Sam Yamasaki, Katsuki Yamasaki, and Charles Reed in the Shattuck Irrigation Company Dissolution Decree, dated May 21, 1973 (*see attached summary sheet*). Apparently, the Great Western Canal served the place of use for these individuals but the new point of diversion was never recorded in the Water District #1 records. The water rights listed for Sam Yamasaki, Katsuki Yamasaki, and Charles Reed, as recorded in the Shattuck Irrigation Company Dissolution Decree will be moved from the Kennedy Canal to the Great Western Canal in the Water District #1 delivery records beginning the 2002 irrigation season.

Water right 01-00128 for 1.00 cfs, partially claimed by both Hansen Farms (A01-10153) and The Newman Trust (A01-10075), was included in the Shattuck Irrigation Company Dissolution Decree and proportioned among the 11 individuals in the decree. The places of use claimed by either Hansen Farms or The Newman Trust are not included within the place of use description for the 11 individuals in the dissolution decree. It appears their claims are based on Transfer #315, dated February 16, 1922, which occurred prior to the dissolution decree. There doesn't appear to be sufficient evidence to completely validate the claims. Therefore, I would recommend that the Hansen Farms claim (A01-10153) and The Newman Trust claim (A01-10075), for portions of water right 01-00128A, not be moved from the Kennedy Canal until it can be identified as to specifically which party described in the dissolution decree the claimed portions were derived from.

I've attached a comparison of the water rights delivered to the Kennedy and Great Western Canals in previous years and the water rights to be delivered in the upcoming season after the changes. Initially, I had thought that the Kennedy would be greatly affected by the changes, increasing their annual storage usage in the upcoming season. However, after my review, I discovered there were an additional 2.7 cfs of 6/1/1886 water right (01-00122A) that had previously been delivered to the Great Western Canal that should have been delivered to the Kennedy Canal according the Shattuck Irrigation Company Dissolution Decree. This additional 2.7 cfs compensates for all the other water rights senior to 7/10/1890 that were moved from the Kennedy to the Great Western Canal. Therefore, the storage usage for the Kennedy Canal shouldn't change compared to similar conditions that were experienced last year.
