In 1989 I was made responsible for correlating the records and maps of the A & B Irrigation District which showed places of use as farm units to correspond to the Idaho Department of Water Resources record system that details the places of use by 40 acre tracts, Sections, and Township and Range.

This required contact with Virgil Temple, Manager of the A & B Irrigation District, and Diana Warburton, Office Manager of the District, to interpret some of the records they supplied and to explain changes that have occurred over time. These changes included some changes in points of diversion as well as places of use.

The places of use also correspond to aerial photos of the irrigation areas taken in 1976 and infrared aerial photos taken in 1987.

I have some knowledge of the historical operation of the A & B Irrigation District through intermittent (during 1967 to 1970) contacts with the people of the District through my employment with the Agricultural Research Service of the U.S. Department of Agriculture at Kimberly, ID.

Re: Sec. 9 & 10 - T 10 S R 22 E Farm Unit J, Tract J; Sec. 10 Farm
Units K & L
To whom it may concern

In the summer of 1969, I Darryl C. Call moved on the Alta Thorn place. (1050 W 400 S. of ^{Paul} Rupert). The place then owned by John Clay Co of Ogden, Utah.

We did a lot of leveling that summer, built a pond about middle of east side of place. John Clay Co. then filed on the tail water from the Donald Dean MacRae and Mike Hernandez places, for the pond to be pumped out of.

In the spring of 1970 we finished the sprinkling system and sprinkled the whole place, with the exception of a small pasture on the north east and a 20 acre piece on the north west of 1050 W 400 S., which we used tubes on.

At that time we watered the whole place.
