RE: Peoples, Wearyrick, and Watson Claims

Held a meeting today in my office to discuss the recommendations for the canal companies mentioned above. Meeting attendees included Alan Stander representing the Wearyrick, Merlin Morgan and Karl Williams representing the Watson Slough, Steve Murdock and Cliff Merrill representing the Peoples Canal, and Michael Holliday representing IDWR.

We talked briefly about the need for each company to get their map work completed. Then I showed them the spreadsheet I prepared comparing the claims with the water rights database. We also looked at the Water District 1 delivery records for these rights. The 1976 watermaster book has some notation regarding transfers from the Watson to the Peoples and to the Wearyrick, but records regarding these transfers are sketchy. The purpose of the meeting was to acquire additional data that might shed light on these unrecorded transfers and to come to a consensus about how the companies' claims should be recommended.

Merlin Morgan provided minutes from some of the old Watson Slough meetings and copies of a ledger showing stock shares which had been transferred to the Peoples Canal. Contained in the minutes were the names of several individuals who transferred water to the Peoples Canal, and W. W. Parson, who transferred 160 shares to the Wearyrick. The meeting attendees believed that the transfers described in the minutes were the owners of at least some of the unrecorded transfers. After a brief discussion of the evidence presented, all of the meeting attendees agreed that the recommendations should be made consistent with the Water District 1 delivery records.
