WR 22-653 is now overclaimed by 1.5 acs.
I brought this up with Larry Hill & he relates the following

John Nelson had all the original property & 300 inches of water with a G-01-1887 priority

Mr. Hill's family have been on his farm since 1915 & his recollection of the division of the above right 22-653 is that;

a/ Allreds had about 70-75 acres & 200" of said water

b/ Mr. Hill has 35 acres & 75" of said water.

c/ Beer would get the old Nelson home place of which there was only 13-15 acres & 25" of said water right.

Beer would may have also bought some omitted lands from the BLM which could account for their 47 acre claim. I would recommend checking with BLM.

Re: EVIDENCE OF WATER RIGHT OWNERSHIP 22-00653C.

Dear Mr. Hill:

The Idaho Department of Water Resources is reviewing water right claims filed in the Snake River Basin Adjudication (SRBA) in the Teton River drainage, Basin 22. You have filed on the above referenced water right with an 1887 priority date from South Fork Snake River and delivered through the Nelson-Cory ditch.

This water right was not decreed under Rexburg vs Teton, 1910 to the lands you claim and there is no recorded water right transfers filed with the department. **Please provide some evidence that you own any portion of this historic decreed water right.** Often a deed or property conveyance instrument will discuss water right conveyances with the property transaction. I have enclosed a copy of your claim for your perusal and reference. Your response to this request is required by November 29, 2005

All current information indicates ownership of this water right is held in-part by Bear World LTD and Allred Brothers Partnership.

Thank you for your timely attention and consideration in this matter. If you have questions please feel free to contact this office.

Respectfully submitted,
