Joseph Oler and Paul Searle

Paul came in last week to talk about the confusion. We had not sorted out this mess yet, and he could not provide any answers. As far as he was concerned, he had not made any agreements with anyone to give up his water. We reinstated his withdrawn claim to 1-115T and amended his claim to 1-94F to reflect the original claim.

In the past, Paul Searle and his brother Dean Seale owned adjacent property and farmed it together. When they bought the property, each received separate rights that were transferred to the pou in the 1940s. Paul has a deed that mentions certain water rights that he acquired with the property. Dean never could provide a deed. However, because Paul and Dean, or rather Dean's son Ron and nephew Allen farmed the land together, they also shared the water rights. When it came time for Dean and Paul to file their claims on the water rights, Paul filed his according to his deed, and Dean filed his according to their historical practice. In April of 2002, Paul, Ron, and Allen came in to sort out the overlapping water right claims. They came to an agreement shown on the attached pages. If Paul were to keep all of his rights, he would have had an excess of water and Dean would have been severely short of water. So Paul gave up his right to 1-115T and a portion of 1-94F to Dean. Paul and Ron signed the statement attached verifying this agreement.

After discovering the entire situation, I am basing my recommendations on the agreement made on April 18, 2002 between Paul, Ron, and Allen Searle.

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

RE: NOTICE OF CLAIMS

Dear Mr. Searle:

The Department has changed the identification number of Notice of Claims #A35-11328 and A35-12173. The new numbers are #A01-10246 and A01-00093G. We have also modified the receipt #E009317 to reflect the new numbers.

It has also come to our attention that a signed and notarized copy of your Notices are not in our files. Although the Notice of Claims to your water rights have been data entered in our computer system, it is necessary that we have a signed and notarized copy. Please sign the enclosed copies in the presence of a Notary Public and return them to our office.

Regarding Notice of Claim A35-04115 (Claim for well in Sec 2 T1S R36E). It appears from my review of the Claim that a portion of the place of use that is irrigated has not been included on the Notice of Claim. I have enclosed an aerial photo of the farm showing in "orange" the lands that have been included as the place of use and in "yellow" the lands that appear to be irrigated from the well, but have not been claimed. I would suggest you contact me to discuss what can be done to correct your claim if need be.

We would appreciate a response from you by November 23, 1992, so that we can complete our review of these claims. Your prompt attention is appreciated.

Respectfully Submitted,

Eric Verner
