NOTICE OF CLAIM
TO A
WATER RIGHT
ACQUIRED UNDER STATE LAW

Please type or print clearly

1. Name of Claimant (s) Raymond G. Knudsen Phone () 587-3989
Mailing Address HC 87 Box 10 Mountain Home Idaho Zip 83647

2. Date of Priority (Only one (1) per claim) 5/1/1890

3. Source of water supply (a) Rattlesnake Creek
which is tributary to (b) Snake River

4. a. Location of existing point of diversion is: Township 35 Range 7E Section 3,
SE 1/4 of NW 1/4 of SE 1/4, Govt. Lot, _____ B.M., County of _____

Additional points of diversion if any: _____

b. If instream flow, beginning point of claimed instream flow is:

Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____ 1/4,

Govt. Lot _____ B.M., County of _____

ending point is: Township _____ Range _____ Section _____, _____ 1/4 of _____ 1/4 of _____ 1/4,

_____ 1/4, Govt. Lot _____ B.M., County of _____

5. Description of existing diversion works (Dams, Reservoirs, Ditches, Wells, Pumps, Pipelines, Headgates, Etc),
including the dates of any changes or enlargements in use, the dimensions of the diversion works as
constructed and as enlarged and the depth of each well. Headgate and laterals
to flood irrigate.

MICROFILME

AUG 11 1992

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For Irrigation purposes from 4/1 to 11/1 amount .60 or _____
 For _____ purposes from _____ to _____ amount _____ or _____
 For _____ purposes from _____ to _____ amount _____ or _____
 For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) .60 (cfs) and/or (b) _____ (acre feet)

8. Total consumptive use claimed is 90 acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) NA

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TRIB: SNAKE RIVER

SYSTEM DESCRIPTION: DESCRIBED BELOW (), SEE LICENSE FILE (), OR SEE ATTACHMENT ()

POINT OF DIVERSION REVIEW
A61-00273

The point of diversion for this water right is precisely described in the Rattlesnake Creek Decree. The point described is in T03S, R07E, section 2, on the northeast edge of the NWNE (see computer-generated plat, attached). Rattlesnake Creek is not in this area, but the unnamed stream from Frenchman Springs does drain right past the point described. This unnamed stream has been mistakenly called Rattlesnake Creek by others (see field exam for 61-02205).

Based on field exams conducted in the area, it would be possible to bring the water from the unnamed stream to the decreed place of use. The diversion point described in the decree is close to the area where old diversion works were found during an exam on the Hunt property. A ditch runs to the west along the base of the hill in the S $\frac{1}{2}$ N $\frac{1}{2}$ NWNE and SWNENW. The ditch appears to then hook up with an unnamed drainage and run to the southwest, then to the south around the lava outcropping in T03S, R07E, section 3, W $\frac{1}{2}$ SE $\frac{1}{4}$. There is currently a ditch on the west side of the hill which runs under the highway to the decreed place of use. The NAPP (Z14NW) seems to indicate that this route is possible, but the route is not as clear on the OQ (1974). The question arises of how the water was carried from the north side of Rattlesnake Creek to the south side of the creek without either a culvert/pipe across the creek. The ditch may have dumped into the creek and then water rediverted near or at the present point of diversion.

If the decree misrepresents the source of this water right, then the claimed source is not the source which should have been decreed. However, the point of diversion found during field exams is on the decreed source.

The first issue to be addressed is the change in point of diversion from the decreed point to the claimed point. Correspondence to date has not addressed this issue; claimant contact is necessary to request information regarding the date of change. Once the date of change is established an injury analysis can be conducted.

NO RIGHTS WITH SAME POU BUT NOT USED FOR IRRIGATION

D. ARE OTHER WATER RIGHTS USED FOR THE SAME PURPOSE?

Y() N(X)

* IF YES, COMPLETE OVERLAP REVIEW:

OTHER RIGHTS LISTED IN CLAIM: 61-02021 AND 61-02203

E. IS THE CLAIMED POU THE SAME AS DESCRIBED IN THE WATER RIGHT FILE?

N/A() Y() N(X)

* IF NO, AND IF THE CHANGE IS VERIFIED AS AN ACCOMPLISHED CHANGE IN POU, DESCRIBE THE INJURY ANALYSIS PERFORMED AND ENTER FLAG "C" WITH THE APPROPRIATE EXPLANATORY CODE.

F. CAN THE CLAIMED POU BE VERIFIED USING THE WATER RIGHT FILE AND AVAILABLE AERIAL PHOTOS?

N/A() Y() N(X)

G. SHOULD THE CLAIMED POU BE VERIFIED BY FIELD EXAM?

Y(X) N()

H. IS THERE ANY INDICATION THAT THERE HAS BEEN A FIVE YEAR PERIOD OF CONTINUOUS NONUSE OF THIS RIGHT, OR ANY PORTION OF THIS RIGHT?

Y(X) N()

CHECK DOCUMENTS USED TO VERIFY POU: (X) ORTHOPHOTOQUAD, IDWR NO. 214; (X) TOPOGRAPHIC QUAD, IDWR NO. 214;

(X) NAPP, IDWR NO. 214SW; (X) ASCS PHOTO; () OTHER

NOTES: 02/06/1997: Claimed place of use on the north side of creek irviable to verify on NAPP or during field exams. The 1987 ASCS map identifies these fields as nos. 1, 2, & 3. No viable delivery system was found to any of these fields. Diversion works are minimal but NAPP shows middle fields (ASCS nos. 4 & 5) as lightly irrigated. It is unknown how ASCS fields 2 & 3 were ever irrigated - No hint of a delivery mechanism was found.

Surface water is not used on the "upper" fields - that is the fields irrigated with ground water. Water would have to run uphill to get there - see also correspondence from claimant dated 02/11/1995. n

In May 1972 a field exam was conducted at the time 75 acres were recommended. The claimants claimed this as a PPU and am recommending this as a PPU. Pattermaker Co. does not have any other area not delineated it because it does not have any more.

9/18/98 5 yds. 8/24/98 5B
9/18/98 4 yds. and myself not with Mr. Knudson 8/27/98

RECOMMENDATIONS:

TOTAL ACRES: 75 N/A ()

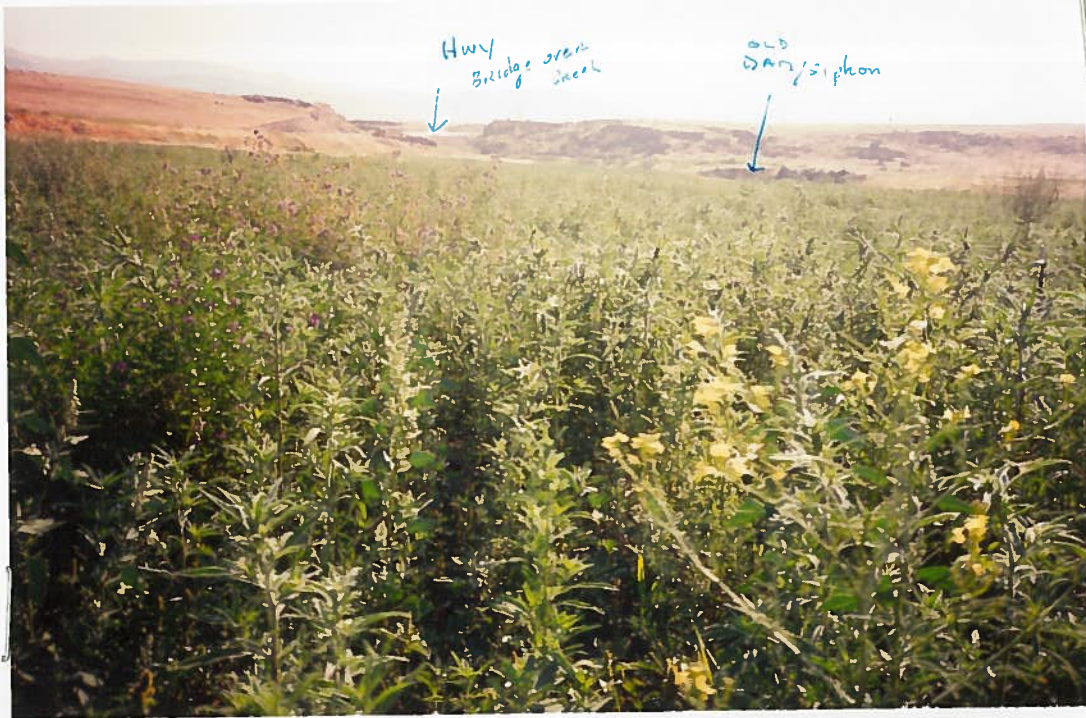

REVIEWED BY: David B. B. DATE: 02/24/98

at that time he shows in one NAPP photo the lands he can irrigate as Pattermaker Co. & as G.W. Pattermaker Co. does not have cover the same area as G.W. recommending 40.5 acres as Mr. Knudson stated he irrigated

1b. CALCULATIONS
check as limited
to 0.37 CFS

NOTES:

M.M. did original field exam + in for opinion the fence did not look like a ditch even in ill repair. However because Rattle Snake Co. has goats with no water, and a field exam in 72 found 75 air acres, I am recommending as described under a 88N, 8/24/98 D.C.

9/18/98 K.W. and I talked to Mr. Knudsen 8/27/98. On a VAP he drew out his suggested acreage which amounted to 40.5 acres.

MANNING EQUATION CHANNEL CAPACITY RESULTS

07-05-1995

File Number: A61-00273

Claimant: KNUDSON

Channel measured: DIVERSION DITCH

Date of measurement: 06/29/1995

Measurement location:

DOWNSTREAM EDGE OF OWL WOODS

Calculation prepared by: M MINICUCC

Comments about the measurement:

NO WATER IN DITCH THIS SEASON - DITCH OVERGROWN WITH VEGETATION.

MEASUREMENTS WERE TAKEN AT BEST EST. OF HIGH WATER MARK.

The results of the calculation are:

The length of the channel measured is 180 feet.

The upstream and downstream rod readings are 5.32 and 6.16 feet.

The channel cross section is 0.84 ft-sq.

The wetted perimeter is 3.20 feet.

The hydraulic radius is 0.26 feet.

The slope is 0.0047

The roughness coefficient is 0.0900

The flow velocity is 0.463 ft/sec.

The rate of flow is 0.39 cfs.

CROSS SECTION NUMBER 1

10/02/1994

Arrival 7:45am Greeted by two barking dogs - one which escorted me down last way of driveway (from shed) Knocked on door of largest house - no answer. Dogs happy - Dog bones. No one evident @ any of 3 houses. Walked to field on NE side of houses - found cement ditch + went back to truck for equip (camera, maps, etc). Walked ditch to old dam site then up to where RC crosses road.

Heard truck start up @ house, but did not see anyone. Walked middle ditch - truck (loaded logging) left + turned toward M.H.

WATER RESOURCES
WESTERN REGION

Jan 11, 1995

Dear Maria —

In reference to the North field, I have a concrete flume under rattle snake Creek to get the water on the west side of rattle snake Creek. I ran water through it this year a little. The creek did not run any water so all I had is a little waste water, from my Deep well.

These fields are ready to seed back to Alfalfa when we have Creek water. As you know we have had one year with water 92 & 7 years of No water

I have cement ditches
on the west side so
They are there for a reason.

You should have let me
know when you were
coming & I could have
shown you everything -

The upper Siel is
watered by a Deep well!

Sincerely

Dry Knicker

Re. The ASCS has crop
reports of every year
on all of this
ground, That should be
good evidence. If this
5 year Deal is the way it
is - Every Gandy on Rattle Snake
Creek lost their rights, because
The creek is Dry.

RESPONSE DATE: JANUARY 13, 1995

RE: Notice of Claim to a Water Right No. A61-00273

Dear Mr. Knudson:

This letter is a result of the field exams conducted October 7th, 10th and 12th, 1994, for the above-referenced claim. Information gathered during those field exams indicates that irrigation has not taken place on the field located in the Twp. 03S, Rge. 07E, section 3, SESW, as indicated as field number "1" on the enclosed map. This is the northeastern-most field on your property - that is, that field between the highway and Rattlesnake Creek, north of the houses on the property. No means of diversion were found to get water to this field for irrigation.

The field exam also found no evidence that water from Rattlesnake Creek is used on the southern fields on your property, located in Twp. 03s, Rge. 07E, section 10. It is unclear how the water is moved up-gradient to serve the acres as indicated as number "2" on the enclosed map.

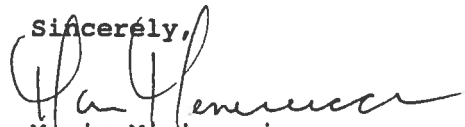

Under Idaho law, a portion of a water right may be forfeited by five years continuous nonuse. Before IDWR may recommend the portion of the claim appurtenant to the described acres, you must submit some evidence showing use of the water on the acres in question during the period of 1987 to 1994. This evidence can be in the form of an affidavit from a person who has personal knowledge of the use of Rattlesnake Creek water on the acres in question.

Your response must be received by this office by the response date noted at the top of this letter. If no response is received, then the portion of your claim which is appurtenant to the described acres will not be recommended to the court to be decreed.

RESPONSE DATE: OCTOBER 31, 1994

RE: Notices of Claim To a Water Right Nos. A61-00273, A61-02203

Dear Mr. Knudson:

IDWR's initial investigation of the above-referenced claims indicates that there have been changes in the use of the water rights.

A61-00273:

It appears that this decreed water right is now used on lands not originally decreed as the place of use. An increased rate of diversion has also been claimed for this water right.

As of May 20, 1971, a right to surface water can be obtained only by compliance with the application for permit procedures established by statute. At this time you must provide IDWR with the date that additional water was first diverted from Rattlesnake Creek, the date the water was used on the new acres, and some evidence to support those dates. If the date additional water was diverted is previous to May 20, 1971, a beneficial use claim for the additional water is required. If the date is on or after May 20, 1971, an application for permit for the additional water is required.

An IDWR pamphlet is enclosed which explains why evidence is needed and suggests sources for evidence. This evidence will help determine the priority date of the water right for the water diverted in excess of your decreed right.

Please submit this evidence by the response date at the top of this letter. If no response is received the additional water will not be recommended to be decreed.

A61-02203:

It appears that this water right is used on acres which are not the same acres for which the water right was licensed. Enclosed are reports which summarize the water right, both as licensed and as claimed.

A water right owner who has made a change in use of a water right prior to commencement of the Snake River Basin Adjudication (SRBA) without obtaining IDWR approval may claim the change in the SRBA, as you have done. IDWR may recommend a right as changed, however, only if the change meets certain requirements. One of those requirements is that the change not result in injury to other water rights.

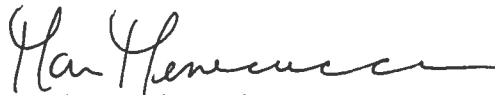

Before IDWR may recommend your claim, you must provide IDWR with the date the change in place of use was made and submit some evidence tending to support that date. An information sheet is enclosed that describes the types of evidence that can be submitted for showing the date of change.

Your response must be received by this office by the response date shown at the top of this letter. If no response is received, then the new place of use may not be recommended to the court to be decreed.

I will be conducting a verification exam on your claims on Friday, October 7, 1994. I plan to be on site by 7:30 - it would be best if you were able to assist me in reviewing your delivery system and the place of use. I will look forward to meeting with you then.

If you have any questions or need additional information, please contact this office.

Sincerely,

Maria Minicucci

RE: Claims filed in the Snake River Basin Adjudication

Dear Claimants:

We are now conducting water right claim verification examinations in your area. These exams are a result of the claims that you filed in the Snake River Basin Adjudication. An examination is needed to verify your water use in order to issue a water right license and/or decree. Information on your claims which may need to be verified include source of water, type of usage, amount of water used and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations which must be completed this summer, please contact me at (208) 334-2190 to make an appointment at your earliest convenience. Although it is not mandatory that you are present during the exam, your assistance will help insure that an accurate description of your system will be made.

If you have any questions in regard to the claim verification exam process, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Maria Minicucci', written over the typed name.

Re: Snake River Basin Adjudication (SRBA)
Elmore County - Domestic Claim

Dear Mr. Knudson,

We are returning your Notice of Claim to a Water Right filed for your property in Elmore County. We have noted some problems with this claim which require your attention.

A critical item of the water right, the month and day, on your date of priority, was left off your claim in Item #2. This is the date that the water was first placed to beneficial use to the best of your knowledge. If you do not complete a month and day, we will enter it into the computer as December 31, 1918.

At Item #6, you have omitted the amount of water you actually use. Please refer to the instruction booklet for the Department's recommendations for cfs of use. (I have enclosed a copy for your use.) Item #7 is the total diversion capacity or total of the lines for cfs from Item #6, whichever is less.

Please correct the document and return it to my attention. If you will make these corrections before February 17, 1992, you will not be assessed a late filing fee. Do not hesitate to contact this office if you have any questions.

Sincerely,

Roxanne McCarthy
Sr. Water Resource Agent

Elmore County - Receipt #W006987, \$25.00

Dear Mr. Knudson:

In our letter to you of January 16, 1992, you were offered some options to record your water right. Since we have not received anything further from you, the refund process has been initiated with the State Auditor's Office for the fees you paid. You should receive your check in the near future.

If you later decide to refile, a new claim must be completed within three months with filing fees and appropriate late fees included at the time of submittal.

Sincerely,

Donald V. Shaff
Manager, Adjudication Section
