In the early days
my folks were friends of the Victor
Aguirre family. I was about the
same age as the three Aguirre boys
and Wickey was just a little girl then.

I remember going to the Aguirre Ranch
with my Dad to help him with the
grain binder at harvest time.

The irrigation wells were in operation
then and along with the Mt. Home
irrigation water they were able to
raise bumper crops. To the best of
my knowledge I would estimate
that the wells have been in operation
for at least 55 years.

A61-00010, A61-00051A, A61-10196, A61-10197 & A61-10198.

Dear Victoria,

The Adjudication Staff of the Department of Water Resources will be conducting Snake River Basin Adjudication Claim Examinations for Elmore County from July through November 1994.

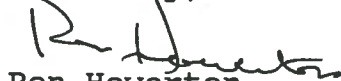

Information on your claim that may need to be verified includes, source(s) of water, uses and amounts, legal descriptions of point(s) of diversion, place of use and in some cases documentation verifying the date of priority as claimed in the Snake River Basin Adjudication.

Although it is not mandatory that you accompany me, should questions arise during the exam, it would be most helpful for yourself or a knowledgeable representative to be available during the field exam. This will help in the accuracy of collecting specific information about your water right and speed up our findings.

I would appreciate your call ASAP to set-up a field exam date. I may also be calling to help speed up the scheduling due to the short field season this year.

If you have other questions prior to scheduling a date or about the field examination, feel free to call me on that too. Please call today to set-up your exam!

Sincerely,

Ron Howerton

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area should be conducted this summer by Department personnel. Prior to conducting the field exams, we will contact you to discuss details and schedule a time convenient for you.

Please submit the required evidence supporting the priority date(s) by March 15, 1993, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the toll-free number listed on the back page of the pamphlet or the Western Region office shown above.
