I called yesterday. When you have a minute, let me know. I'm in hearings today until 4:00. What about a phone call tomorrow morning around 9:00?

Candice, I'm sending this in hopes that we can talk about it and others very soon as the next PDR deadline rapidly approaches. I have some specific questions that relate to Diversion/Rediversion(s) language as referenced by the many licenses.

I spoke to Kent Foster yesterday and explained the problem with the PPU acres and use of some 37 (now 39 rights) being diverted through all four rediversions (and/or diversions). This is one of those where there are 11 Exchange wells that support 1976+/- river rights, some old decrees and now some decreed rights leased from the City of Rexburg.... and two enlargement claims. Kent says they have used the system as permissible place of use since before the SRBA so the PPU acres is not the issue and he is OK with the PPU of (Q) rights..... Except that, certain licenses specifically reference certain rediversions and Quantities allowed to be diverted from that rediversion.

What I'm looking for is language that references Q at each of the respective rediversions while detailing the TOTAL combined diversion quantity from all four rediversions..... since that's how they use the system.

I enclose a recommendation for your perusal and discussion.

Re: Teton Pipeline Association, Inc. - SRBA Recommendations

Dear Ernie:

I do not know whether I should address this letter to you or to Allen Ruberry, but I trust that you will know who can best respond.

The Preliminary Recommendations for most of the rights of this company came out last June. After that, we amended one claim and filed another claim we had somehow omitted. Since then, we have heard nothing further.

I expect we will need to pay attention to these items again soon, and since I had occasion to recently review these rights again, I thought I would provide some thoughts and questions. If I count correctly, including the two enlargement claims and the one we filed after the Preliminary Recommendations were sent out, there are about 26 surface water claims and 11 groundwater claims. When I reviewed the points of diversion for the surface water rights and the points of re-diversion for the groundwater rights, I think I counted something like nine different quarter-quarter-quarter sections. As I recall, there are actually four pump stations on the river, and I wonder (1) if we shouldn't try to correct the erroneous quarter-quarter-quarters, and (2) if each right shouldn't show the same four (if that is the correct number of pump stations) quarter-quarter-quarters for the points of diversion of the surface water rights and points of re-diversion for the groundwater rights.

Ernest Carlsen
Idaho Department of Water Resources

Page 2 of 2

The 11 groundwater rights show seven quarter-quarter-quarters as points of "injection". I seem to recall there are eight wells, so perhaps we have the correct descriptions for all of them. Is the point of injection the same location as the well?

Now that spud harvest is over, I am expecting the members of the Teton Pipeline Association to be getting together with me soon to review these items, and of course, if we come up with any additional questions or thoughts, we will provide them to you as soon as possible. We will certainly look forward to hearing further from you and working to complete these matters. Thanks for your kind attention.

Yours very truly,

Kent W. Foster

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water rights(s) or claims(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use your water rights(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county.)
OR
If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former
Owner/Claimant Max H. and Denice K. Rammell and Merrill R. and Roberta L. Rammell
4. New Owner/Claimant(s) Teton Pipeline Association, Inc.

6. **If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7.** If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.
