

22-163D renumbered to 22-163A

je

9-22-04

22-163D was not in the database.

Don, After looking at the file I agree with your assessment that the right should be 22-163A. I will have Jennifer renumber the file and complete the data entry under 22-163A.
Ernie

Good morning,
You'll probably have to start at the bottom to get a grasp of the nature of the question rather than me repeating the background here. Your read of the numbering is critical to moving off this dime.

Thanks,
Don Shaff

Don, do you know if we ever got an answer to this? Thanks.

Thanks for checking, Jenn. We'll wait until Ernie's return Tuesday to get to the answer.

Sorry Don. Allen has the files in no particular order so I can't find them, and he is gone. I really don't know the answer to this. Jen

Hi Jennifer,
Ernie's Out of Office bounce convinced me to defer the message below to you to get to explore the question of numbering before Tuesday.
Thanks,
Don Shaff

Hi Ernie,
I think I'll have to get your help directly to make this call on the name and numbering for a scanned file to go in PowerDocs. The pdf is named now 22-163D because the claim for Canyon Creek Lateral in the image has that number. In our data we have 22-163A in Water Rights with only a Claim for B for Siddoway. I'm thinking the pdf should be numbered 22-163A despite what's in the pdf because that's the way the right should be numbered. But I want to get your read and what's in the claim file on the shelf. You can get directly back to Sheila, if you reach a definitive conclusion. You can see the pdf in the a012 backfile at \\a012\backfile\adjudication\claims\backfile basins PDF\basin 22 PDF Upload to Docs\idwr 20 -- vol 1\22-0163D.pdf
Thanks,
Don Shaff
