MEMORANDUM

File: 22-193A, 22-325A, 22-325G- Jardine
Date: October 10, 2008
Subject: Objection Resolution

Jardine's provided death certificates for Belle and Donald Jardine and NCAP's removing them from the above referenced WR's were sent to the court.

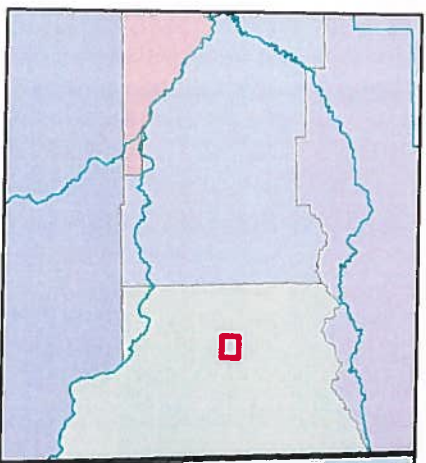

Jardine's provided evidence that the Teton County Taxlot information was incorrect. The evidence can be found in the file for 22-193A. The acreage that was omitted due to the taxlot information was added and a new recommendation was created. Condition code E56 was updated to show the added acreage. While updating ArcMap, three acres was removed in T05N R44E Sec 9 SESENE, B.M. from the above water rights because a domestic water right (22-12123 Jardine) covers the acreage. The shapefile was updated to reflect the acreage irrigated in T05N R44E Sec 9 NENWNW and NWNENW, B.M. The acreage removed includes a home and areas with terrain that shows a low possibility of irrigation.

New layouts and SF5's were drafted and will be sent to the Jardine's for approval.

Re: Proposed SF5 for water rights 22-193A, 22-326A, 22-326G

Dear Mr. and Mrs. Jardine,

I have been working on your water rights and have created a proposed SF5 for your review. I included the acres that were omitted in the first recommendations. While reviewing the water rights, I notice two areas that needed adjusting. If you refer to the maps I included, I reduced the acres in the SESENE corner of Section 9 due to the domestic water right 22-12123 which covers three acres. The second area (4 acres) is in the NENWNW corner of Section 9 due to the house and also terrain that I couldn't find evidence that it had ever been irrigated. The SF5's show the reduction of the seven acres due to no irrigation but the quantity (cfs) remains the same.

I would like you to look both maps and SF5's over to see if it is acceptable. Please let me know if you have any questions.

Thanks,

Denise Kidman

MEMORANDUM to FILE

Date: July 23, 2008
To: Claims 22-193A, 22-325A, and 22-326G
From: Joseph Larsen of Idaho Department of Water Resources
Re: Recommended PPU for Claims in the SRBA

The GIS Tax-lot Data provided to this Department contains errors in ownership by incorrectly dividing property owned by Garry and Meadene Jardine. Property is located in T05N R44E Sec. 9 NENW, NWNW, SWNW, and SENW was incorrectly divided and labeled with other owners. Because of this Department took proportionate shares of the three rights and recommended those values. The Jardines Objected to Recommendation 22-325A but not stacked rights 22-193A and 22-326G.

The Jardines have supplied this Department with documentation that these properties are still owned by them and were erroneously divided to other individuals. Based on the evidence this Department can move forward with recommending Claim 22-325A with corrected acres.

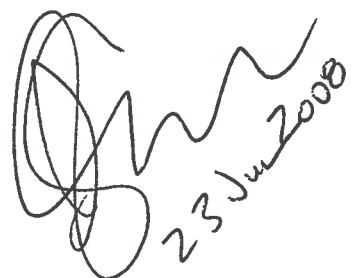

However, because Objections were never filed for Claims 22-193A and 22-326G the proportionate shares that were initially removed reduce the allowable acres per right making the new Recommendation limited to less acres than should be allowed to be irrigated on the property.

Because the entire property has historically been irrigated and because the homeowners which to continue to irrigate their entire property, the Jardines must file Standard Form 1 Objections for both 22-193A and 22-326G. If these Late Objections are accepted by the SRBA court then the rights' PPU should be adjusted to read as is found on the Amended Recommendation for 22-325A which is listed below:

------	---------	----------------

	Claimant claims 339 ac. However, he does not own all of the property. Recommended PPL with three rights from Park saddle Creek for 282 ac. The remaining acres which he farms would have to be under an enlargement only if the property owners had a lease agreement w/ Jarline. Did not contact claimant at this time. If he wishes to make some changes, then he can do it through the NOEs.	
--	---	--

	In response to NOE, reviewed all recommendations. Discovered that 22-325A was recommended for the whole right, but Jarline does not own all of the right. Changed according to ownership: limited all to 260 ac, the sum of acres from all decreed rights that Jarline owns. Reduced 27-325A to 1.2 ac. Not sure what the third comment means on NOE.
