IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

This right is subject to all prior and intervening water rights which would otherwise be injured by the approval of transfer 1985.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Decreed

The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).

Water is delivered through Canyon Creek Canal, P Stevens pump, G Crapo pump, Canyon Creek Lateral pumps, and an unnamed pump.

Right includes accomplished change in point of diversion pursuant to Section 42-1425, Idaho Code.

Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 1.

The right holder shall install a permanent measuring device in Canyon Creek at the point of diversion located in T5N R43E S6 Lot 4. The right holder shall install a permanent measuring device in Canyon Creek Canal and at each additional point of diversion.

Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.

RE: Amended Notice of Claim for Canyon Creek Canal Co.

Dear Mrs. Little:

I have finally been able to get the Canyon Creek Canal Company's notice amended to cover the land that they omitted in their original filing. Please review the enclosed notice to be sure it corrects the problem. Have an official of the Company sign and notarize the notice and then return it to our office to my attention.

It has been a pleasure working with you folks. As always, if you have any questions regarding this matter feel free to contact our office.

NOV 04 1992

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF:

Application for Transfer of Water Right
No. 22-0195/22-0196 in the name of
CANYON CREEK CANAL COMPANY

MEMORANDUM DECISION
AND ORDER

The Canyon Creek Canal Company holds decreed water rights from Canyon Creek for 16.0 cubic feet per second with priority of June 1, 1900, and 54.0 cubic feet per second with priority of June 1, 1902. The decree is silent as to the point of diversion, but these rights have historically been diverted at the Canyon Creek Canal heading which is located within Lot 4, Sec. 6, Twp. 5 N, Rge. 43 E, B.M., Madison County. The decree describes the lands irrigated by these rights as follows:

"Lands of stockholders of said company, situated in Township 5 North, Range 43 E., B.M., T. 6, N., R. 41 E., B.M., T. 6 N., R. 42 E, B.M., and in T. 7 N. R. 41 E., B.M., aggregating over 10,000 acres."

On April 6, 1976, the Canyon Creek Canal Company applied to the Department of Water Resources for a water right transfer which would add three additional points of diversion on Canyon Creek, downstream from the existing canal heading, and one proposed point of diversion on the Teton River. Notice of this application was published in the Rexburg Journal on May 13 and May 20, 1976.

The Director of the Department of Water Resources has reviewed the application and other files of the Department, and based upon his understanding of the law, makes the following Findings of Fact, Conclusions of Law and Order.

FINDINGS OF FACT

- 1) Assessment records indicate water users pay Canyon Creek Canal Company assessments on a total of only 1,385 acres of land.
- 2) Records of the Fremont-Madison Irrigation District indicate that as much as 2,547 acres may have been irrigated with water diverted from the Canyon Creek Canal.
- 3) The application for transfer describes lands claimed to have a water right from Canyon Creek totaling 10,615 acres.

SCANNED

JUL 19 2007

4) Section 42-232, Naho Code, provides that, "The Director of the Department of Water Resources shall examine all the evidence and available information and shall approve the change in whole, or in part, or upon conditions, provided no other water rights are injured thereby and the change does not constitute an enlargement in use of the original right."

5) There are several intervening rights to divert water from Canyon Creek downstream from the Canal Company's present point of diversion.

CONCLUSIONS OF LAW

1) The decreed water rights of the Canyon Creek Canal Company entitle it to divert up to 70.0 cubic feet per second from Canyon Creek if available under its priorities to irrigate "over 10,000 acres of land". While it is questionable that that much land has ever previously been irrigated due to availability of water supply and former surface methods of irrigation, the decreed right so provides.

2) Other water right holders who divert water from Canyon Creek under priorities subsequent to the Canyon Creek Canal Company rights are entitled to protection of their diversion and use of water under conditions which existed as their subsequent rights were established.

ORDER

IT IS, THEREFORE, ORDERED and Application for Transfer of Water Right No. 22-0195/22-0196 is hereby APPROVED subject to the following conditions:

1) The applicant shall install a permanent measuring device in Canyon Creek at the applicant's present point of diversion, in the Canyon Creek Canal, and at each new point of diversion.

2) No more water may be diverted from Canyon Creek and the Teton River under these rights than is actually available and could have been diverted by the Canal Company at its original point of diversion as demonstrated by the record of the measuring devices required in paragraph 1) above.

3) This approval is subject to all prior and intervening water rights which would otherwise be injured by such approval.

4) No more water may be diverted under this approval than the amount heretofore required to irrigate lands served by the Canyon Creek Canal Company.
