Re: 95-16400

Dear Mr. Keigley:

We are returning your Notice of Claim. The date of priority is listed as April 25, 2010. When a new diversion of surface water is started after May 20, 1971, an appropriation permit had to be obtained first. The date of priority is the date the water was first used regardless of who owned the property. It appears that the date of priority should be 1947, according to the statement in the remarks on page 2. If the priority date of your claim is incorrect then you can correct the date and return the claim to our office. If the use of water was started after May 20, 1971, then an application for a permit to use the water needs to be filed.

Domestic use is defined as household use and ½ acre of irrigation for lawn and garden. If this describes your use then just delete irrigation from the purposes. The standard amount of water for domestic use is 0.04 cfs.

Please make any corrections you feel necessary on the claim and return it to our office.

Thank you,

Kenneth Knoblock
Water Right Supervisor
