In Re SRBA) SPECIAL MASTER'S REPORT
Case No. 39576)
) FINDINGS OF FACT AND
) CONCLUSIONS OF LAW
)
) FOR WATER RIGHT 63-15746

A notice of claim was filed for the above-captioned water right pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources (IDWR) examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of this water right.

On June 13, 2007, the Ada County Drainage District No. 2, through its attorney S. Bryce Farris, filed an objection to the *Director's Report*, asserting that the water right should not exist. On July 19, 2007, the Ada County Drainage District No. 2 filed a *Withdrawal of Objection*.

On June 19, 2007, the Riverside Irrigation District, through its attorney Albert P. Barker, filed an objection to the *Director's Report*, asserting that the source of water should be described as wastewater. On June 17, 2008, the Riverside Irrigation District filed a *Notice of Withdrawal of Objection*. Accordingly, there are no outstanding objections to this water right claim.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein IT IS RECOMMENDED that water right 63-15746 be decreed with the elements as set forth in the attached *Recommendation for Partial Decree Pursuant to I.R.C.P. 54(b)*.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.

This right remains subject to the right of the original appropriator, in good faith and in compliance with state laws governing changes in use and/or expansion of water rights, to cease wasting water, to change the place or manner of wasting it, or to recapture it.

THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE ENTRY OF A FINAL UNIFIED DECREE. I.C. SECTION 42-1412(6).

RULE 54(b) CERTIFICATE

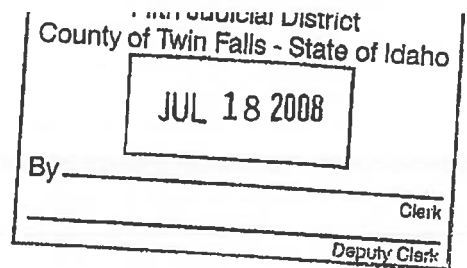

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

Re: Claim to a Water Right No. 63-15746

Dear Mr. Barats:

Enclosed is a copy of the above referenced water right, which reflects the change in ownership of the land and appurtenant water rights, covered under the original filing. Also enclosed is a copy of the Notice of Completed Administrative Proceedings, which has been sent to the Snake River Basin Adjudication (SRBA) Court as notification of the change.

Please note that I searched our data base for any other water rights that may be on the property you purchased and found Rt. 63-15747. Rt. 63-15747 (copy included) has been finalized in the SRBA Court and you will need to submit a Notice of Change in Water Right Ownership form (enclosed), along with a \$25.00 fee in order to change the name on that right. We can use the deed you submitted previously (for Claim 63-15746) if you wish. I also noticed that the property is within the boundaries of Middleton Mill Ditch Company and the Middleton Irrigation District. If there are shares of water on this property from either of these entities then you should notify them of the change in ownership so they can update their records and show you as the current owners.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you need more information. Thank you for your attention to these matters.

Sincerely,

A handwritten signature in black ink that reads "Kay Walker". The signature is fluid and cursive, with the first name "Kay" and last name "Walker" clearly distinguishable.

RE: Notice of Claim to a Water Right No. 63-15746 (John K. Olsen)

Dear Mr. Barats:

We are in receipt of a letter you submitted to the Snake River Basin Adjudication (SRBA) Court in response to an objection of the above referenced claim.

Your letter states that the property under this claim is now owned by Can-Ada Properties LLC and any correspondence regarding this claim should be sent to them. Please be advised that we cannot change the ownership of any claim pending in the SRBA without a Notice of Change in Water Right Ownership form. Enclosed, for your convenience, is the form with instructions. Please complete the form and attach the required documentation and return it to this office at your earliest convenience. As long as this claim is pending at the SRBA Court there will be no filing fee for submitting the ownership change form. Once the claim has been partially decreed there will be a fee associated with a change in ownership.

If you have any questions in regard to this matter, or in regard to the claim referenced above, please do not hesitate to contact me at 334-2190. I have been assigned this claim in the adjudication and would be happy to discuss the file or process with you.

Sincerely,

I am responding to a letter I just received concerning an objection filed by:

Riverside Irrigation District
PO Box 1080
Parma, ID 83660

I am a member of Can-Ada Properties LLC. which purchased the subject property last fall. The paperwork for the objection was incorrectly mailed to the former owner:

Mr. John K Olsen
5190 Hubler Lane
Caldwell, ID 83605

Can-Ada Properties LLC. understandably received this paperwork late and I have missed the targeted response date. However, Mr. Olsen did receive and resolve a similar objection filed by Ada County Drainage District No. 2 (Withdrawal of Objection attached). Ada County Drainage District has withdrawn their objection for the following reasons:

- Mr. Olsen diverts his irrigation water into the drainage ditch approximately 1/4 mile upstream and re-pumps when the drainage ditch crosses State street and reaches the head ditch of the subject parcel.
- In this way less water is wasted and used.

Can-Ada Properties requests the withdrawal of your objection.

Sincerely,

Kurt Barats

☐ This water right Should not exist.

☐ This water right was not recommended, but Should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTIONS(S): There has been no lawful appropriation of this right. The description of the source should have been waste water. The waste waters belong to the Riverside Irrigation District and are not available for private development and appropriation. Further, any attempted development of this right constitutes a trespass against the drains of the Riverside Irrigation District. Proposed waste water remark does not sufficiently protect original appropriator.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Use of this right is combined with water from Middleton Mill Irrigation District.

Use of this right is combined with water from Flake Irrigation District.

Stockwater use is for 50 range cattle.

Use of this right is combined with water from Middleton Irrigation Association.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

the Point of Diversion for Middleton mill, Middleton & Flake ditch water is spilled over the over flow from the ditch on the NE corner of the SE quarter section, on Canada Road, which mixes with the Lawrence Kennedy drain and is pumped from the diversion point south of Hwy 49.

2. Describe the changes you wish to make in the proposed recommendation:

Due to Divorce Jo Olsen is NOT a Property owner on the water or the Land in question

3. Give a brief explanation as to why you disagree with these portions:

I AGREE with this proposed recommendation: no changes need to be made.

Amended Claim**

June 8, 2006

Since I have not received the signed Amended Claim back that was sent on April 7, 2006; I called #866-8364 and spoke with John Olsen. Mr. Olsen verified that he had received the Amended Claim in April, but informed me that he was in California at the moment and would be returning home in a few days.

I requested that he send me the signed Amended Claim within 1 week or give me a call if that would not work with his schedule.

RE: Amended Claim for Snake River Basin Adjudication (SRBA) Claim #A63-15746

Dear Mr. and Mrs. Olsen,

The enclosed *Amended Claim* has been created, essentially, to add the stockwater use that was not claimed on the original *Notice of Claim* you filed in 1989.

In addition, I also used this *Amended Claim* to officially:

- correct the spelling of your last name from OLSON to OLSEN,
- change your address from 1133 Martin St.. 83706 to 5190 Hubler Lane, 83605,
- and change your telephone number from #343-4193 to #454-1070.

Lastly, based on ArcView calculations, your irrigated acres total 17.0 acres; not the 24.0 acres that you claimed or the 22.8 acres that 2005 Canyon County tax lot information shows you actually own. The 17.0 acres of irrigated land that I am amending your claim to is based on place of use boundaries I created on 1987, 1994, 2000, and 2004 aerial photographs; all of which equal 17.0 acres of irrigation (please refer to the enclosed 1987 aerial photo with the place of use boundary as an example).

If you find that any further corrections need to be made that I may have overlooked, please make them on the *Amended Claim*. Then, please sign the *Amended Claim* in front of a notary and send it to me, ATTN: Kimberly Brown, at the address above.

Please contact me if you have any questions.

Respectfully submitted,

Kimberly Brown

NARRATIVE/REMARKS/COMMENTS

Supplemental surface water source is from the Middleton Mill + Flake Lateral. Both sources run at the same time down the same ditch. This water is taken from the center ditch, flows west under CanAda Lane, then south on the west side of CanAda Lane, turning west at Hwy 44/State St to headgate #1 to cross under Hwy 44 + also at headgate #2 to cross under Hwy 44 to assist in irrigating 22.8 acres.

The run-off/waste water from the Middleton mill/Flake Lateral, + the Lawrence Kennedy Drain merge + run into the Lawrence Kennedy Canal.

John Olson said the normal flow level in the cement ditches are within $\frac{3}{8}$ " from the top. The sections in the ditch are 9' long 52" wide, with the ditch being 24" deep. ~~to~~

FOR: A63-15746 Olsen

FROM: Sandy Hemenway, Field Examiner

I spoke with Frank Rowe (208) 286-7616 today, and he indicated that he was born in 1932 at the property next to the Olsen property. Frank said that at that time, Dan Kennedy owned the Olsen property and used it during the winter months for lodging his cattle. Kennedy sold the property to a Mr. Larson either in 1949 or 1950. At that time, Mr. Larson put a pump in the ditch to irrigate the pasture, and some livestock (he was not sure of the exact date).

I called the Canyon County Assessors and Records Office (Alice 454-7431/454-7556), and they have switched to a new system, and without additional research they can only go back 10 years on their computers unless the information was saved under that file. They indicated that it is additionally difficult to find property when there is no physical address.

Season: 01/01 - 12/31 for horses (365 days); 3/15 - 11/15 for cattle (246 days)

Required V.i.r. = (#head x gallons/day/head x days of use per year) / 325,850 =

for horses: $[(3 \times 12 \times 365) / 325850] = 13140/325850 = 0.0403 = \mathbf{0.04 \text{ afa}}$

for cattle: $(75 \times 12 \times 246) / 325850 = 221400/325850 = 0.67945 = \mathbf{0.70 \text{ afa}}$

Potential V.d.r. = Max. allowable cfs x permit season number of days x 1.9835 =

for horses: $0.02 \text{ cfs} \times 365 \times 1.9835 = 14.479 = \mathbf{14.5 \text{ afa}}$

for cattle: $0.03 \text{ cfs} \times 246 \times 1.9835 = 14.638 = \mathbf{14.64 \text{ afa}}$

Irrigation:

Confirmed acres irrigated: 22.8 acres x 0.02cfs = 0.456 cfs

Season 3/15 - 11/15 = 246 days

Required V.i.r = allowable acres under permit x requirement IDWR chart (figure 2)=

22.8 acres x 3.5 = **79.8 afa**

Potential V.d.r. = max. allowable cfs x permit season x 1.9835 =

$0.456 \times 246 \times 1.9835 = \mathbf{222.50 \text{ afa}}$

Requests:

*Please verify **all the elements** of this right.

In addition, please verify:

- GPS the location of the POD.
- Is **Middleton or Canyon County Irrigation District** water used to supplement this right? *Middleton Mill + Flake (both canals water runs down the same ditch)*
- Verify that this is **wastewater**, tributary to the **Lawrence-Kennedy Canal**. *Yes*
- **IMPORTANT:** Mr. Olsen claimed 24.0 acres of irrigation, but the tax lot information states that there are only a total of **22.8 acres** in this parcel. In addition, according to the 1987 aerial photo, some of the claimed 24.0 acres do not show signs of irrigation (for instance, the canal and the land south of the canal that runs through the property). Therefore, I will probably be **reducing** the claimed amount of acres by a few acres. Please broach this subject with the Olsen's, if they accompany you on the field exam. *He agreed that 22.8 acres is actually irrigated due to barn and ditches + ditch banks (road).*
- **1987 Aerial Photo:** Please draw the **24.0 acres** that were irrigated from the wastewater in 1987 on the enclosed **1987 aerial photograph**. Draw the **diversion works** on the 1987 aerial photo also; along with the **point of diversion**.
- **Capacity of System:** Calculate the **capacity** of this system. Verify that the claimed **0.48 cfs** is possible/applicable.
- **Priority Date:** I received Frank Rowe's signed statement as evidence of priority. Mr. Rowe is only able to go back to "**the early**" 1950s. Please speak to the Olsen's regarding my inclination to recommend **1955** as the year of priority, since Mr. Rowe did not specify an exact year. *referred to as "Bent Lane Place"*

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-15746

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by March 27, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you will be receiving a call from us in order to set-up an appointment for a field exam.
