

Splits of 95-447

11/6/2009 – A claim for 2 of the 3 homes described on Water Right 95-447 was filed by Thomas Norris. This claim was assigned identification number 95-11901. Also on 11/6/2009, Thomas Norris filed a claim for the 10 acres of irrigation described on Water Right 95-447. This claim was assigned identification number 95-11904. Claim 95-11904 also included stockwater as a claimed purpose of use. However, because stockwater was not included as a purpose of use on Water Right 95-447, and there was no reduction in the number of acres claimed which would have allowed for the recognition of an accomplished change in purpose of use, the claimed stockwater purpose of use would be an enlargement of the water right. Note: Stockwater use by Thomas Norris from this source and point of diversion is covered under water right/claim 95-648.
