RE: Snake River Basin Adjudication (SRBA) claim 67-2048B

Dear Mr. and Ms. Gallant,

The Idaho Department of Water Resources is currently in the process of reviewing SRBA claims in your area.

Claim 67-2048A is claimed for a portion of a historical license 67-2048. I looked at the aerial photography and there does not appear to be much if any irrigation. In addition, I am not clear how the water makes it from the claimed point of diversion to the claimed place of use.

Note that what makes a water right a water right is that the water is being put to beneficial use. Idaho code 42-222 states 5 years of continuous non-use makes your water right subject to forfeiture. I am not saying that this is necessarily the case at this point. But in order to recommend the claim I will need to confirm that water has been put to beneficial use and when, as well as see the diversion system showing how the water is diverted from Goodrich Creek and make it to the place of use claimed.

As there was no map submitted when the claim was filed, I am enclosing some maps of the area, the original license and map, as well as a copy of the claim you filed in 1989. Please take a look at them and then let me know if you feel this is still a valid water right. If you do, please draw in the location of the point of diversion, the ditch to the place of use, and draw in the irrigated ground. Please return the maps with a brief narrative accompanying the map describing how your irrigation system works by September 2, 2005.

Please feel free to contact me if you have any questions.

Respectfully submitted,

Craig L. Saxton
