Remarks:Comments:

1. Igraves 11/27/2006 Uses

Comment: The right was licensed for irrigation and domestic uses and claimed for in stream stockwater use. Conditions N11 and N13 were added based on the \$25 fee.

2. Igraves 11/27/2006 History

Comment: The 1912 licensing report listed irrigation and domestic uses from a surface water source. Back then, domestic use probably described stockwater use, especially from a surface water source. The p/u claimed is within the licensed p/u. Accomplished transfer conditions appear to be n/a.

3. Igraves 11/27/2006 Source/Tributary

Comment: Source was clarified to unnamed stream tributary to Cow Creek per the topo map (see file). According to the license the source was aka Tooley Creek and according to the claim, the source is aka Kiwi Creek. Condition B01 has been added.

4. Igraves 11/27/2006 Flow Rate

Comment: The licensed/claimed flow rate was reduced to .02 cfs per basin wide issue no. 12.
