Comments:

1. mcase 4/22/2004 POD

Comment: There are two licensed PODs and two claimed PODs, but they are both in the same QQ. I created a shape for one, but did not know what to do about the other.

2. mcase 4/22/2004 Period of Use

Comment: No licensed Period Of Use. I recommended the standard Season of Use.

3. mcase 4/22/2004 Quantity

Comment: No licensed annual diversion. Could not determine recommended annual diversion.

4. jdean 11/7/2006 Licensing Exam

Comment: The licensing exam for this claim indicates an additional well that was not licensed as part of this water right. The unlicensed well was filed on for 2 acres which were originally part of this POU (claim 67-12328).

5. jdean 11/7/2006 Reduction in acres

Comment: This claim was recommended with 2 acres less than what was originally licensed. The diversion rate remained unchanged. This will give a higher diversion rate per acre than what was licensed. The other 2 acres are recommended as 67-12328 according to a new claim and claimant. Claim 67-12328 is for a well that was recorded, but not licensed at the time of the exam for this license.

6. jdean 11/7/2006 Quantity

Comment: The diversion rate for this claim is recommended as licensed. The diversion volume is recommended according to the standard (4.5 afy/acre * 78 acres = 351 afy).

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsit e or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

To: File A67-02217
Smedley Irrigation Claim

From: Roxanne McCarthy

Re: Conflicting Claims

Date: January 21, 1993

=====

The Department received an irrigation claim from Mr. Smedley on January 6, 1993. The claim appeared to be in conflict with the permit statute (priority date 1969) and the land was also claimed by Johnson-Bryant Equipment under licensed right 67-02217. I called Mr. Smedley this date for additional information.

Mr. Smedley, in turn, called Johnson-Bryant and determined that his two acres is indeed a portion of the 40-acre tract originally farmed by J.F. Clabby and licensed under 67-02217. In addition, he was told that the land was originally developed in 1950 and not licensed until later. Mr. Smedley wishes to file a beneficial use claim for his land with a 1950 priority date. I am sending him a new claim form and affidavit form to be filed as evidence of priority.
