Conditions of Approval:

1. 26A Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.

IDAHO DEPARTMENT OF WATER RESOURCES

Water Permit Report 67-14384

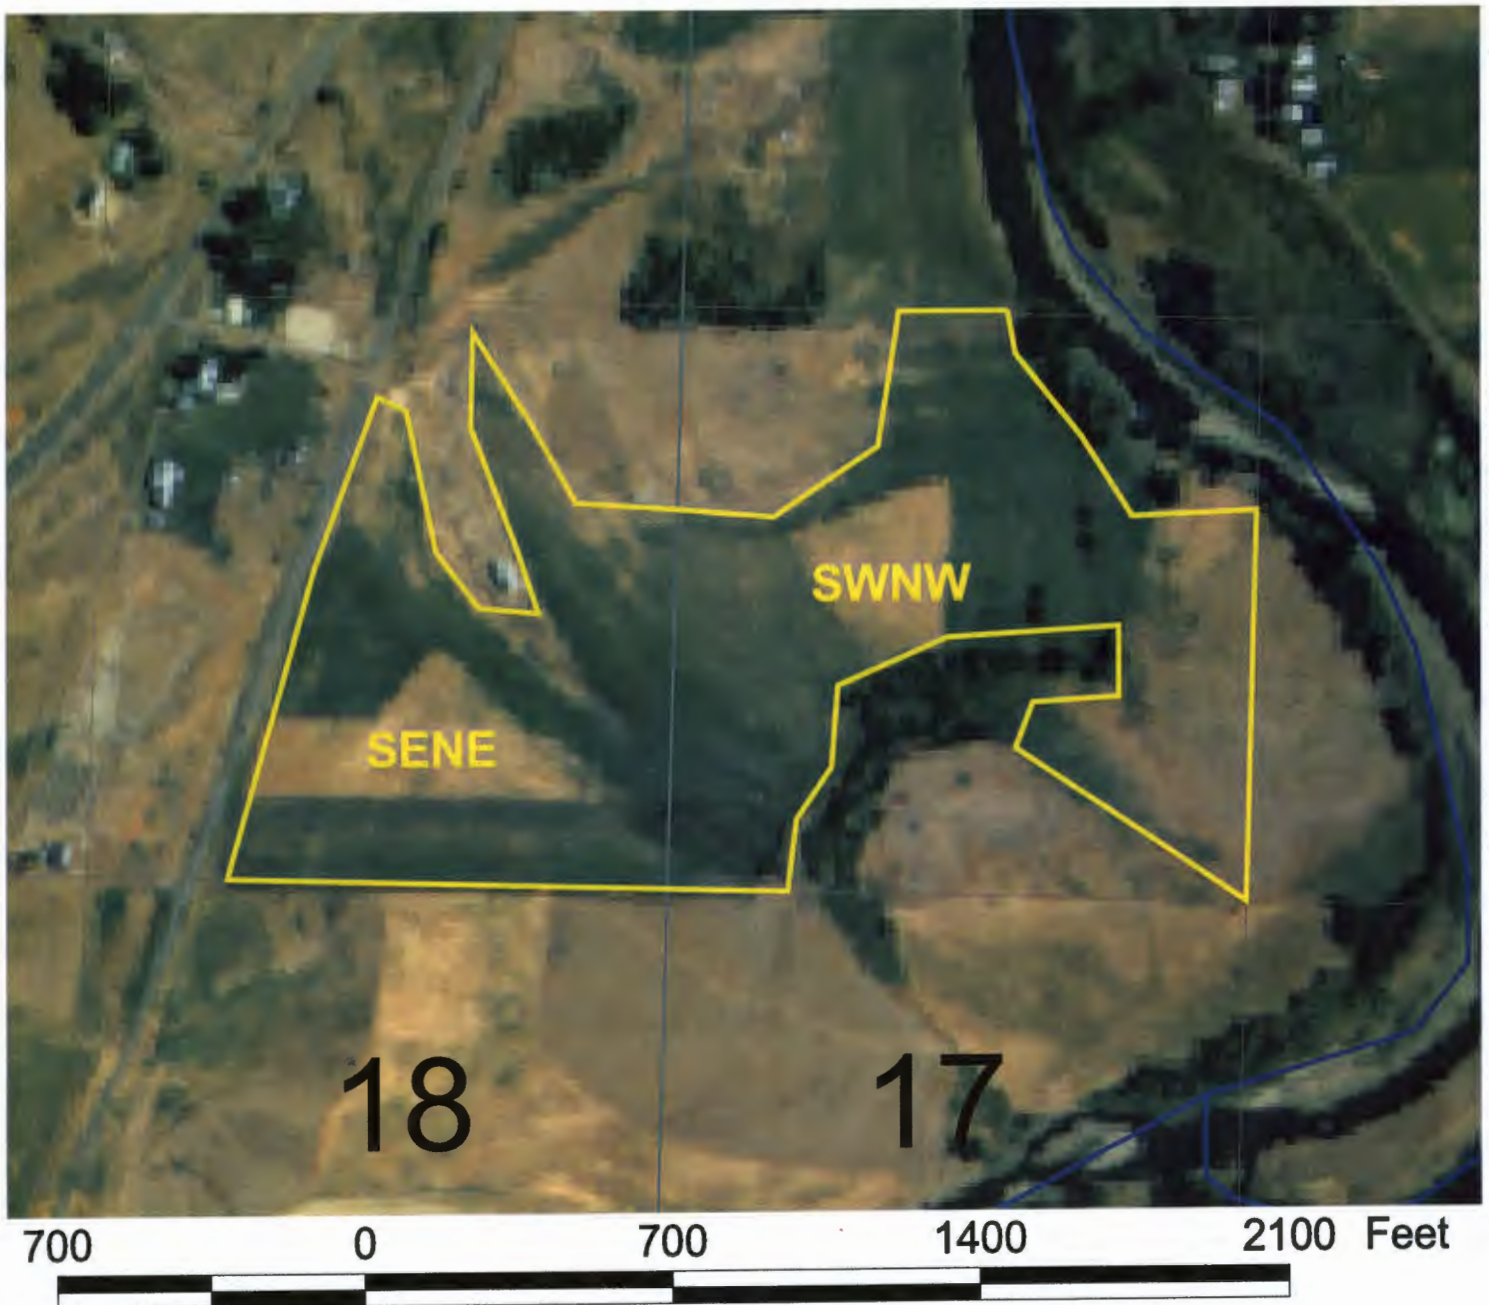

2. 121 The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
3. R64 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
4. 104 If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
5. The right holder shall not divert water under this right from the shallow subsurface water where diversion would impact the flow of the Weiser River.
6. 01M After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
7. 065 The right holder shall use the full allotment of appurtenant surface water rights in conjunction with ground water diverted under this right.
8. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.

Re: Notice of Claim to a Water Right No. 67-2250

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflects the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you again for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed claim(s), please feel free to contact this office.

Sincerely,

Adjudication Section
Western Region Office

State of Idaho License and Certificate of Water Right

Water License No. 25822

Amount .90 c.f.s.

Water District No.

Priority July 7, 1955.

THIS IS TO CERTIFY that EDWIN G. HORNING
of Midvale, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated July 7, 1955; that Permit No. 25822
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
1.5 second feet, was issued thereunder on June 19, 1958, showing that said works
were completed on the 14th day of June, 1958; and that on the 26th
day of June, 1961,

EDWIN G. HORNING

of Midvale, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of springs
in slough, a tributary of Weiser River, for the purpose of irrigation & stock
water, under Use Permit No. 25822 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume

12 of Licenses at page 7373, on the 3 day of August, 1962;

The right hereby confirmed dates from July 7, 1955;

The Point of Diversion is located

in the SW 1/4 NW 1/4, Sec. 17, Tp. 13 N., R. 3 W., B. M. County Washington

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed .90 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
13 N.	3 W.	17	SE 1/4 NW 1/4	20	10
			SW 1/4 NW 1/4	30	25
		18	SE 1/4 NE 1/4	30	30
			Total number of acres to be irrigated:		65

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

3rd day of August, 1962.

RALPH W. THOMAS
Deputy State Reclamation Engineer.

Edwin G. Horning
Midvale, Idaho

REPORT ON PROOF OF Beneficial Use

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

 Midvale
 Idaho

1. Name of Applicant: EDWIN G. HORNING

Postoffice address: Midvale

County: Washington

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation: None
 (b) Amount of capital stock: None
 (c) Amount paid in: None
 (d) Names and addresses of directors: None

II. The financial resources of the applicant are:

- (a) Cash on hand: \$2000.00
 (b) Treasury stock: None
 (c) Bonds to be issued: None
 (d) Other resources: None

2. Quantity of water claimed: one and one-half (1.5) cubic feet per second.

3. Source of water supply: springs in slough (un-named stream) which is a tributary of Weiser River, water never reaches River only in flood stage.

Beginning at the SE corner of NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 18

4. Location of point of diversion: South on E. line 920 feet distant from the SE of NE of NE

corner of Section 18, T. 13 N, R. 3 W, B.M., and is in the SW $\frac{1}{4}$ of NW $\frac{1}{4}$

of Section 17, T. 13 N, R. 3 W, B.M., County of Washington

5. Water is to be used for stock water & sprinkler irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section
 T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet
 distant from the corner of Section , T. , R. , B.M., in the
 of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 1500.00

8. Kind of works: Pipe line for sprinkler

9. Height of dam feet; length of dam at top feet; length of dam at bottom
 feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;
 dimensions of flume:

Diameter of pipe 4 inches; length of conduit 1200 feet miles.

Average grade per mile feet.

12. The time required for the completion of such work is 3 years years.

13. The time required for the complete application of the water to the proposed use is three additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

16. (a) Is reservoir to be used? No If so, fill in (b) and (c) below:
(b) Name of Reservoir and number of Storage Permit: None
(c) Date of filing of Application for Storage Permit and Name of Applicant: None

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

EDWIN G. HORNING

Applicant.

By

Agent.

Date of first receipt at Department of Reclamation:

9:00 A.M. July 7, 1955

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is 25822

Recorded in Book 91 Page 25822 Approved July 25, 1955

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ to be filed on or before

Work to begin on or before September 25, 1955 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before January 25, 1956

The whole of said work to be completed on or before July 25, 1958

Beneficial use of water appropriated in accordance herewith, to be made on or before July 25, 1961

WITNESS My hand this 25th day of July, 1955

MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, ROBERT E. SMYLLIE, Governor of the State of Idaho,

and IRA H. MASTERS, Secretary of State of the State of Idaho, have caused this instrument to

be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 25th

day of July, 1955.

STATE OF IDAHO

To Appropriate the Public Waters of the State of Idaho

APPLICATION NO. 33687
PERMIT NO. 25822
DISTRICT NO.

Edwin G. Horning
Midvale
Idaho

1. Name of Applicant: EDWIN G. HORNING

Postoffice address: Midvale

County: Washington

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation: None
(b) Amount of capital stock: None
(c) Amount paid in: None
(d) Names and addresses of directors: None

II. The financial resources of the applicant are:

- (b) Treasury stock: None
(d) Other resources: None

(a) Cash on hand: \$2000.00

(c) Bonds to be issued: None

2. Quantity of water claimed: one and one-half (1.5) cubic feet per second.

3. Source of water supply: springs in slough (un-named stream) which is a tributary of Weiser River, water never reaches River only in flood stage.

Beginning at the SE corner of NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 18

4. Location of point of diversion: South on E. line 920 feet distant from the SE of NE of NE

corner of Section 18, T. 13 N, R. 3 W, B.M., and is in the SW $\frac{1}{4}$ of NW $\frac{1}{4}$

of Section 17, T. 13 N, R. 3 W, B.M., County of Washington

5. Water is to be used for stock water & sprinkler irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 1500.00

8. Kind of works: Pipe line for sprinkler

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

Permit No. 25822

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. ✓ Edwin G. Horning Residence Midvale, Idaho Farmer Midvale, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 25822, dated July 7, 1955, date of priority July 7, 1955.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water supply is an unnamed slough. Location of Point of diversion SW 1/4 Section 17, Twp 13 N R 3 WBM

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Works of diversion are an electric motored pump, 15HP, able to throw 300 gal. of water per minute, carried to fields with 1440 ft. of 4" tubing, reduced to 120 feet of 3" tubing. 37 sprinkler heads are used with 3/16" x 3/32" nozzles.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation, irrigating about 75 acres of land. Improvement which is a direct result of the use of said water is an increased yield of crops raised, furnishing more hay and pasture for milk cows. Lands irrigated are a portion of the SE 1/4 Sec. 18, Twp 13 N R 3 WBM, a portion of SE 1/4 Sec. 17, and all of SW 1/4 Sec. 17, Township 13 N, R 3 WBM.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Natural springs and land drainage cause the water to be in the slough.

25822

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. _____

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water diverted under above mentioned permit has been used the past five years to the full extent during the summer months.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other waters

(Sign) Edwin J. Harning

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Cambridge, County of Washington, State of Idaho, on this 26th day of June, A. D. 1961.

DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Department of Reclamation

PERMIT NO. 25822**Proof of Application of Water to Beneficial Use**
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Claude F. Keithley Age 64 Residence Midvale, Idaho FarmingQues. 2. Are you acquainted with Ervin G. Horning, the holder of Permit No. 25822? How long have you known him and where does he reside?Ans. Have known him 47 years. He resides at Midvale, IdahoQues. 3. Have you read or heard read said Permit No. 25822, and are you familiar with its provisions and conditions?Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water is an unnamed slough. Place of diversion is at NW 1/4 Sec. 17, Twp. 13 N, R 3 WBM. Water is pumped from slough with an electric pump having 15 HP motor. Main pipe for sprinkler system is 4" main reducing to 3" and 37 sprinkler heads are being used.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1 1/2 cubic feet per second

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and stock water. 75 acres of cultivated and natural meadow is being irrigated. Improvement seen is increased production of crop and pasture for milk cows.

25822

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Dry natural pasture land and cultivated meadow were placed under irrigation.
Approximately 1½ cubic feet of water are needed for profitable cultivation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I live near the lands being irrigated and see the use of the water each day
the system is in operation and have witnessed its use each summer for five years.
I believe the full amount of water requested is being used.

(Signed) Charles F. Keithley

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Cambridge,
County of Washington, State of Idaho, on this 26th day of June,

PERMIT NO. 25822

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. V. H. Battershell Age 55 Midvale, Idaho Farmer

Ques. 2. Are you acquainted with Edwin G. Horning, the holder of Permit No. 25822? How long have you known him and where does he reside?

Ans. 30 years. He resides at Midvale, Idaho

Ques. 3. Have you read or heard read said Permit No. 25822, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Unnamed slough. SW 1/4 Sec. 17, Twp 13 N R 3 W. Pump placed in slough with sprinkler system for irrigation. Pump is 15 HP. electric motor. Pipe is 4" main line, reducing to 3". 37 sprinkler heads being used.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1 1/2 Cubic feet per second

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and stock water. Irrigates both cultivated and natural meadow. Improvement seen has been a second crop of hay being produced and late pasture for stock.

25822

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Ordinary dry land was placed under irrigation, and the amount of water required is approximately one and one-half cubic feet of water per second.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I live adjoining this land and see it in use every day that it is in operation, and it has been used to the full extent each summer for five years.

5. Date you acquired the property

12-30-99

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

INSTRUCTIONS

RECEIVED
2001 8 0 8 33
2001 8 0 8 33
WESTERN REGION
This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For Irrigation purposes from 5-15 to 10-15 amount 0.86 or _____

For Stockwater purposes from 1-1 to 12-31 amount 0.04 or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 0.86 (cfs) and/or (b) _____ (acre feet)

8. Total consumptive use claimed is 123 acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) Stockwater - 25 head of dairy cows or 60 head of cattle

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

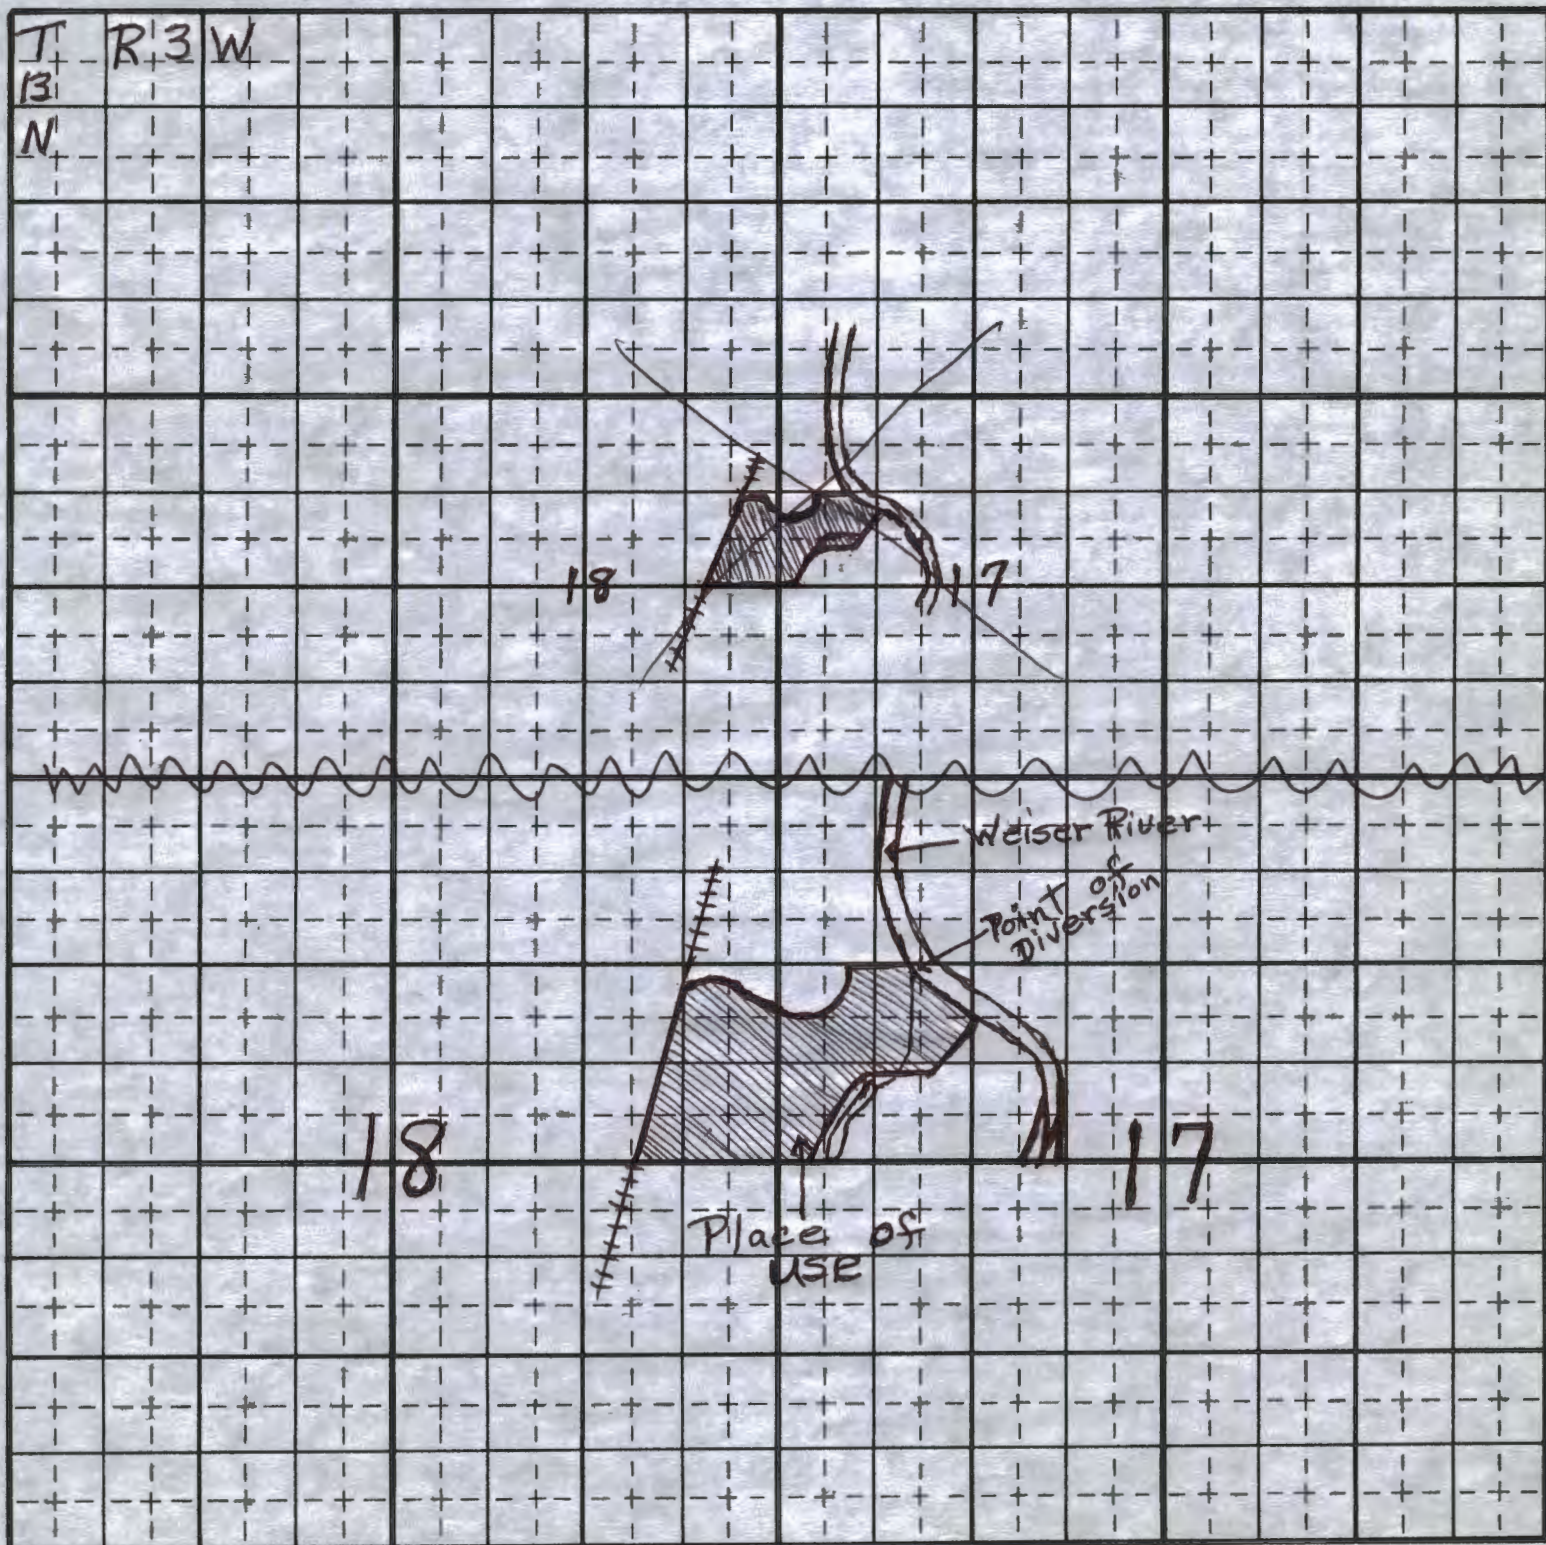

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Map of Project: show clearly the point of diversion, place of use, section number, township, and range number.

Scale: 2 inches equals 1 mile

State of Idaho

License and Certificate of Water Right

Water License No. 25822

Amount .90 c.f.s.

Water District No.

Priority July 7, 1955

THIS IS TO CERTIFY that

EDWIN G. HORNING

of Midvale, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated July 7, 1955; that Permit No. 25822 was issued under said application; that Certificate of Completion of works, with a carrying capacity of 1.5 second feet, was issued thereunder on June 19, 1958, showing that said works were completed on the 11th day of June, 1958; and that on the 26th day of June, 1961,

EDWIN G. HORNING

of Midvale, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of the right to use the waters of springs in slough, a tributary of Weiser River, for the purpose of irrigation & stock water, under Use Permit No. 25822 of the Department of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume 12 of Licenses at page 7373, on the 3 day of August, 1962:

The right hereby confirmed dates from July 7, 1955;

The Point of Diversion is located

in the NW 1/4 1/4, Sec. 17, Tp. 13 N., R. 3 W., B. M. County Washington

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed .90 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
13 N.	3 W.	17	SE 1/4 NW 1/4	20	10
			SW 1/4 NW 1/4	30	25
			SE 1/4 NE 1/4	30	30
Total number of acres to be irrigated:					65

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

3rd day of August, 1962.

RALEIGH W. THOMAS
Deputy State Reclamation Engineer.
