RE: City of Victor SRBA Water Right Claim 22-566A

Dear Mr. Ruberry,

In response to your letter regarding evidence of the priority date of June 1, 1896 as claimed by the City of Victor I am submitting an affidavit and a copy of an "ORDER GRANTING CHANGE OF POINT OF DIVERSION" as granted to the City of Victor on October 4th, 1956.

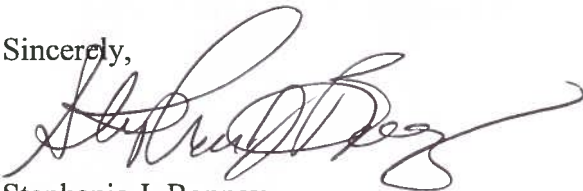

Within the Certificate of the Change of Diversion, the Department of Reclamation acknowledges that the city has a priority date of June 1, 1896 as verified by a District Court Decree that was decreed on December 16, 1910.

The Certificate also references that the City of Victor (referred to as the Village of Victor) is the owner of the water right and was using such water right.

The Court Decree is entered into the records of the Department of Reclamation in Volume 3 of Decrees, beginning at page 450 thereof.

If you require any additional documentation, please don't hesitate to contact me.

Sincerely,

Stephanie J. Bonney
Victor City Attorney

said decree bearing date of December 16, 1910, said water to be used for domestic and municipal purposes.

That said decree has been entered in the records of the State Department of Reclamation in Volume 3 of Decrees, beginning at page 450 thereof.

And that now, upon the application of the Village of Victor, Teton County, Idaho, for a Certificate for Change of Point of Diversion of One cubic foot per second of the waters of Trail Creek (Teton River), made before the State Reclamation Engineer of the State of Idaho, and said application having been granted, the right to change the point of diversion is HEREBY GRANTED.

That such change of point of diversion shall not modify in effect said decreed water right or place of use.

Said water is to be limited at any given time to an amount actually needed and beneficially used, and shall not exceed the following amount, to-wit:

One cubic foot per second, with
priority of June 1, 1896.

That the water right hereby described has heretofore been conducted to the place of use through the Town Canal, with point of diversion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 13, Township 3 North, Range 45 East, B. M.

RE: EVIDENCE OF PRIORITY FOR SRBA WATER RIGHT CLAIM 22-566A

Dear Claimant (s):

The Idaho Department of Water Resources is nearing the end of water rights review in Basin 22, the Teton River drainage. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

Your claim, as referenced above, claims a Priority Date of JUNE 1 1896 from SPRINGS.

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence which are acceptable and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**". **PLEASE READ THE ENCLOSED PAMPHLET.**

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other elements of the Notice of Claim have been or soon will be conducted by Department personnel.

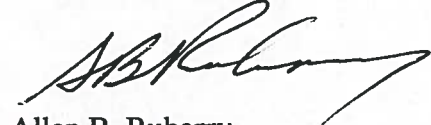

SCANNED

AUG 09 2007

.....
The Department will not recommend the Notice of Claim be decreed by the court if evidence of a priority date is not submitted. The Notice of Claim will be disallowed.
.....

Please submit documentation supporting the priority date within 30 days of the date of this letter, referencing all documents with the corresponding claim number. If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact this office.

Respectfully submitted,

Allen B. Ruberry

Gentlemen:

Our records show you have filed your adjudication claim(s) in the Snake River Basin Adjudication. Our records do not, however, include a clear map of your service area. Would it be possible for us to get a map of your customer service area for your municipal water system, both to supplement the record of your claim(s) and for use as described below?

In our review and investigation phase of the Snake River Basin Adjudication, the map would be helpful for us to have this information in verifying individual claims to water rights for domestic purposes. We will be happy to discuss with you the most convenient way for you to provide this information to us. I can be reached at 327-7931 or you may contact my assistant, Anita Warntjes at 327-7986.

Your assistance in this matter is greatly appreciated.

Sincerely,
