Morrison Estates Water:

Dear Mr. Saxton,

This is results myself and two Board members arrived at what we thought was the allotted yard, garden, trees for each parcel indicated on the map. Enclosed is a copy of the map with each lot numbered. Areas that are boxed in are the green spaces that are irrigated. Our results out of the 308 acres in Morrison Estates we arrived at a total of 63.5 acres that are irrigated. Several parcels could be questionable and we can discuss those. As you review our mapping please get back to us with the results of your analysis.

Sincerely,

Gary Berger, President
