Hi Jessica,

Thanks for the email response. Yes, I would recommend sending in the ownership change information so we can add you on to the claim as additional owner. This will ensure that you, as well as your parents, will receive notifications from us. We will be sending out "Notice of Error" letters to every claimant in the near future. This is a form that allows the claimants to review our claim recommendations and correct any errors. Also, after errors are corrected and the decree is issued for your water use, it will have your name included along with your parents.

Feel free to contact me if you have any questions.

Linda

Subject: Water right # 95-15021

Hi Linda,

Sorry about all the phone tag! I decided I would just email you.

I received your notice in the mail about the ownership change. Ownership of the parcel and water rights has not actually changed, as my parents (Don and Jean Geiger) own the property, but they also quit claimed me on to the property so now we are all three owners. Shall I still fill out this form and return it to you?

Thank you so much,

Jessica Geiger
