RE: OWNERSHIP CHANGE FOR ADJUDICATION CLAIMS A37-13204

Dear Claimant:

Thank you for returning the NOTICE OF CHANGE OF WATER RIGHT OWNERSHIP form. Our records, however, cannot be updated without the required information listed under item 2., A. of the ownership change form. Specifically, we need a copy of your DEED, TITLE POLICY, CONTRACT OF SALE WITH ATTACHED LEGAL DESCRIPTION.

Enclosed is your original ownership change form. Please attach the required information to the form and return the entire packet in the enclosed self-addressed envelope. As soon as this information is received, our records will be updated and you will be notified by mail that the change has been completed.

Thank you for your **prompt attention** to this matter and should you have any questions please feel free to contact me.

Sincerely,

Cheryl E. Timm
SRBA Records Clerk

RE: Domestic and/or Stockwater Rights in Reporting Area 16, Basin 37
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your domestic and/or stockwater water right(s) in basin 37 (the Big Wood River drainage area). We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended domestic and stockwater right(s) in your area. Water rights for irrigation and other purposes in basin 37 will be recommended in a later process.

Note that you have 180 days in which to file any objection to our recommendation and to review the domestic and stockwater water rights of other claimants, including those of the United States. Information on the other water rights can be found at the county courthouses in Hailey, Fairfield, Gooding, Shoshone, Mountain Home, and all of the Idaho Department of Water Resources offices (see addresses in enclosure).

If the Court does not receive an objection from you about our recommendation, and no other party objects to your water right, your water right will be decreed as recommended after the 180-day objection period. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions that you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher
Director

**NOTICE OF DIRECTOR'S REPORT
REPORTING AREA 16, BASIN 37
FOR SMALL DOMESTIC AND STOCK WATER RIGHTS**

INTRODUCTION

This is the Idaho Department of Water Resources' (IDWR) Director's Report for your small domestic and/or stock water right claimed in the Snake River Basin Adjudication (SRBA). The quantity allowed for each small domestic or stock water right is up to 13,000 gallons per day. An additional Director's Report for irrigation and all other state law based claims in your reporting area will be filed with the court at a later date.

IDWR is providing individual reports like this one to all claimants of small domestic and stock water rights in your area. A complete copy of the Director's Report, listing all of these small domestic and stock water rights claimed under both state and federal law, is available at the SRBA courthouse in Twin Falls and the locations listed on the third page of this notice. Copies of the report can be made, but you may be charged for copying and mailing.

The following instructions and definitions are designed to help you understand this report.

INSTRUCTIONS FOR REVIEWING YOUR OWN WATER RIGHT

The description of your right which is enclosed is only the Director's recommendation to the SRBA Court on your water right. The Court will decide how it will decree your water right. You are free to agree or disagree with the Director's recommendation. If you agree with the Director's recommendation you do not need to do anything, pending further notice as described below. If you disagree with the Director's recommendation, you need to file an objection as described below.

INSTRUCTIONS FOR REVIEWING THE WATER RIGHTS OF OTHERS

The complete Director's Report contains recommendations to the SRBA Court on your water right and all other small domestic and stock water rights in your area. The Court will decide how it will decree all water rights. The Director's recommendations in the full report are listed in two sections of the report:

- 1) **List of Recommended Water Rights** -- Water right recommendations are listed alphabetically by source and then chronologically by priority date within each source.
- 2) **List of Claims Recommended to Be Disallowed** -- Water rights recommended to be disallowed are listed numerically by water right number. A short statement of the reason for IDWR's recommendation for disallowance is provided.

Also included in the complete Director's Report are descriptions of the United States' claims for domestic and stockwater under federal law. The Director does not investigate these claims and

makes no recommendation whether they should be granted or not. Sometimes the United States claims one right under both federal and state law. These are called "dual based" claims.

If you want to review someone else's water right you need to look at the complete Director's Report, which is available at the SRBA courthouse in Twin Falls and the locations listed on the third page of this notice. Copies of the report can be made, but you may be charged for copying and mailing.

INSTRUCTIONS FOR TAKING A WATER RIGHT CLAIM TO COURT

What do I do if I disagree with a recommendation or a federal water right claim?

If you disagree with any element of the recommendation for your water right or anyone else's water right and want to be heard in court, file an objection with the SRBA Court. Objections must be made on the standard objection form available from any IDWR office or from the SRBA Court.

Your objection must be received by the SRBA Court on or before **September 10, 1999**.

What do I do if someone else objects to my water right recommendation?

If someone files an objection to your water right, or anyone else's water right, you may file a response to that objection. Responses to objections must be made on the standard response form available from any IDWR office or from the SRBA Court.

Your response must be received by the SRBA Court on or before **January 10, 2000**.

What do I do if I want to participate in the court case on someone else's water right?

If you want to be involved in the court case on any water right in the Director's Report, you must file either an objection or a response by the dates listed above.

What happens if there are no objections to a water right?

After the deadline for filing objections, IDWR will file a list of all water right recommendations with no objections. The SRBA Court will hear the uncontested recommendations on **November 12, 1999**, at **10:00 A.M.** at the **SRBA Courthouse**. Partial decrees will be issued following this hearing.

How will I know about the proceedings on water right recommendations to which objections were filed?

A notice will be mailed to you for court dates on your water right or for those where you filed an objection or a response. You will not receive notice of court dates on any other water right recommendations. Additional information regarding domestic and stockwater claims in your area can be found on the SRBA Web Site at www.srba.state.id.us.

Note: The SRBA Court publishes a monthly Docket Sheet listing all objections and responses filed. It does not list court dates for individual water right cases, but provides general information helpful to all participants in the SRBA. The Docket Sheet is available at your county courthouse and all IDWR offices, or you may subscribe by contacting the SRBA Court or IDWR. The annual subscription fee is \$7.50. The Docket Sheet is also available on the SRBA Web Site at www.srba.state.id.us.

CHANGES OF ADDRESS OR OWNERSHIP DURING THE SRBA COURT CASE

You must contact your regional IDWR office with your address change or if the ownership of your water right changes. Failure to notify IDWR may result in the loss of your water rights.

ADDITIONAL INFORMATION

If you have questions about the SRBA, public information brochures are available at any IDWR office. Maps and aerial photography of this reporting area, as well as assistance in using the maps and the photography, are available at the IDWR's state office in Boise. You are also welcome to call IDWR at any of its offices or the SRBA Court. You may also want to consider contacting an attorney to assist you.

DEFINITIONS OF THE ELEMENTS OF YOUR WATER RIGHT

RIGHT NUMBER: Your water right is identified by a number assigned by IDWR. The first two digits identify IDWR's administrative basin number; for example, 67, 69, 77, 78, or 79.

NAME AND ADDRESS: Your name and address should appear here. IDWR will use the most recent name and address in their records for the water right.

SOURCE: The name and/or type of the source where you divert your water. For example: "groundwater," "unnamed spring," "Common Creek."

QUANTITY: The amount of water recommended in either cubic feet per second (cfs) and/or the volume of water in acre feet per year (AFY). Each of these small domestic and/or stock water claims is not to exceed 13,000 gallons per day.

PRIORITY DATE: The date used to determine the priority of your right in relation to other rights using water from the same source.

POINT OF DIVERSION: The legal location where you divert water from its source; generally described as 1/4 1/4 sections down to a 40-acre tract, or smaller. Other legal descriptions that might be used are: government lots, block, subdivision, parcel numbers, townsite names, mining claim information, homestead entry surveys and other survey information.

Legal locations for instream flow claims are marked with a beginning point and an ending point.

PURPOSE OF USE: This report only deals with claims for small domestic and/or stock water uses, such as yours.

"Domestic right" means a right to the use of water for homes, organization camps, public campgrounds, livestock, and for any other purpose in connection with these uses, including irrigation of up to one-half acre of land.

"Stock water right" means a right to the use of water solely for livestock or wildlife.

PERIOD OF USE: The period of time during the year when you can use the water for your right.

PLACE OF USE: The legal location where you use your water right; generally described as 1/4 1/4 sections down to a 40-acre tract. Other legal descriptions that might be used are: government lots, block, subdivision, parcel numbers, townsite names, mining claim information, homestead entry surveys and other survey information.

BASIS OF CLAIM: The method that was used to establish your claim. Examples include prior decree, posted notice, beneficial use (historical) method, license, permit.

DUAL BASED CLAIMS: In some cases, the federal government has claimed one right under two theories: a state basis and a federal law basis. Both theories will be reported on one form for that single water right. In most cases, the priority dates are different and will be listed separately. The federal law basis is separately indicated in a box such as this:

```
*****
*                                     *
*                                     *
*****
```

IDWR does not investigate or make recommendations regarding federal law based claims.
