ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Transfer of Water Rights No. 67-0185/0186/4057/4063

And said application is hereby APPROVED, subject to the following limitations and conditions:

1. A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works. 2. No more water may be diverted at the new point of diversion than would have been available at the original points of diversion. 3. Approval of this transfer in no way confirms the rights claimed under 67-4057 & 67-4063. 4. Use of water under these rights is subject to control by the watermaster of State Water District No. 67, Weiser River.

Witness my hand this 31st day of July, 19 90.

6. If the water rights from Pine Creek and West Pine Creek are regulated and cut by the watermaster:

a. The owner of the water right must annually submit a detailed map to the watermaster of the Weiser River and to the Department depicting the lands that will be irrigated with water from each water right.

b. The watermaster will randomly investigate the places of use after later in time rights have been cut to verify that the correct acres are being irrigated.

c. The watermaster must randomly investigate at least three times after water has been cut.

d. The watermaster must be granted reasonable access to the place of use to investigate use of the water.

e. The owner of the water right must pay to the watermaster, as part of his annual assessment, the entire cost of the watermaster investigation and

reporting to the Department. The cost will be determined by the watermaster, and if disputed, will be set by the Department.

7. The Department retains jurisdiction to cancel or modify this transfer for failure to comply with the terms and conditions of the transfer.

8. The combined annual volume under these rights shall not exceed 500.0 acre-feet annually.

Total Acres: 169.3

Conditions of Approval:

1. E56 The rights listed below are limited to the irrigation of a combined total of 169.3 acres in a single irrigation season. Combined Right Nos.: 67-185B, 67-186B, 67-188, 67-189, 67-190, 67-4057, and 67-4058.
2. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

Remarks:

Comments:

1. csaxton 4/19/2006 Meeting w/claimant
Comment: Met with Norman Hansen on 8-26-05 to discuss his claims.

2. csaxton 4/19/2006 POD
Comment: Met with Norman Hansen on 8-26-05 to discuss his claims and he pinpointed the 4 points of diversion under this claim. There were two discrepancies. TR 3738 place a POD in 15N, 3W, S31, SESE, but actual location is in the SWNE. It is close to the line so recommend in SWNE. The other POD with issues was described as T14N, R3W, S4, NWSE in TR 3738 but Mr. Hansen located it in my office in the NWSW. I thought it might be a typo, but the map in the transfer application clearly shows the location of the new POD to be in the NWSE. TR 3738 was approved in 1990 so there is no chance of an accomplished change in POD. Claimant will need to file another transfer to move the POD.

3. csaxton 4/19/2006 TR numbering
Comment: In the backfile there appear to be two POD transfers 3738 and 3138 that do exactly the same thing... add a POD. I think that 3138 was simply an error in writing the number and the top part did not show up in the hand writing so it looked like a 1 instead of a 7.

4. csaxton 4/19/2006 Source
Comment: The source decreed for this right was Pine Creek, but TR 3738 described the source under one of the points of diversion as West Pine creek which is consistent with the USGS quad. No actual change in source.

5. csaxton 4/19/2006 PPU
Comment: TR 3557 defines a PPU of 125 acres for rights: 67-185B, 67-186B, 67-188, 67-189, and 67-190. Flood water represented in claims 67-4057, 67-4063 (disallowed), and 67-4058 overlaps and irrigates all the decreed ground as well as additional ground that was not defined in the decree. The total place of use is 169.3 acres as supported by FSA photographs provided by Terry Scanlin. The PPU of 167.3 acres has been in practice since 1974 (C05). EOP for floodwater rights supplied by claimant.

Adjudication Recommendation Report 67-4057 V1

15N 03W	32				15.0	8.4			23.4

Total Acres: 169.3

Conditions of Approval:

1. E56 The rights listed below are limited to the irrigation of a combined total of 169.3 acres in a single irrigation season. Combined Right Nos.: 67-185B, 67-186B, 67-188, 67-189, 67-190, 67-4057, and 67-4058.
2. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

Comments:

1. csaxton 4/19/2006 Meeting w/claimant
Comment: Met with Norman Hansen on 8-26-05 to discuss his claims.

2. csaxton 4/19/2006 POD
Comment: Met with Norman Hansen on 8-26-05 to discuss his claims and he pinpointed the 4 points of diversion under this claim. There were two discrepancies. TR 3738 place a POD in 15N, 3W, S31, SESE, but actual location is in the SWNE. It is close to the line so recommend in SWNE. The other POD with issues was described as T14N, R3W, S4, NWSE in TR 3738 but Mr. Hansen located it in my office in the NWSW. I thought it might be a typo, but the map in the transfer application clearly shows the location of the new POD to be in the NWSE. TR 3738 was approved in 1990 so there is no chance of an accomplished change in POD. Claimant will need to file another transfer to move the POD.

3. csaxton 4/19/2006 TR numbering
Comment: In the backfile there appear to be two POD transfers 3738 and 3138 that do exactly the same thing... add a POD. I think that 3138 was simply an error in writing the number and the top part did not show up in the hand writing so it looked like a 1 instead of a 7.

4. csaxton 4/19/2006 Source
Comment: The source decreed for this right was Pine Creek, but TR 3738 described the source under one of the points of diversion as West Pine creek which is consistent with the USGS quad. No actual change in source.

5. csaxton 4/19/2006 PPU
Comment: TR 3557 defines a PPU of 125 acres for rights: 67-185B, 67-186B, 67-188, 67-189, and 67-190. Flood water represented in claims 67-4057, 67-4063 (disallowed), and 67-4058 overlaps and irrigates all the decreed ground as well as additional ground that was not defined in the decree. The total place of use is 169.3 acres as supported by FSA photographs provided by Terry Scanlin. The PPU of 167.3 acres has been in practice since 1974 (C05). EOP for floodwater rights supplied by claimant.

_____ being first duly sworn,

deposes and says: Attached you will find a copy of a Cross Complaint filed by Nelson Buhl dated 11 Nov 1887. (See page #5) He claimed 320 inches. I don't think this is truth, but the truth is somewhere between the 320 and 120.

I would like to establish a date of 1926 (See Written Affidavit)

From personal knowledge I know more than the decreed water was used from 1939 on.

Margaret Westfall being first duly sworn, deposes and says:

I am 91 years of age. My sister married Bud Buhl. They farmed both of the Nels Buhl places. My sister had a daughter, Floy, who was about my age.

I remember that when we would go to visit the Buhl family the ditch at the house (which is at the east end of the western ranch and the west end of the eastern ranch and where it goes under the road) was full of water. I am sure I can remember this at the age of 12 if not before.

irrigatio[redacted]and said amount of water is nece[redacted]ry for the proper and successful irrigation and cultivation thereof, and there is no other source of water supply available for the irrigation of said land except waters of said Pine Creek.

VIII.

That thereafter, to-wit, on the 27th day of August 1883, this cross-complainant, for the purpose of acquiring a record title to said water right and water for the irrigation of said lands and for domestic use thereon, made a notice of water right under and by virtu of the laws of the then Territory of Idaho, and posted a notice on sa day at a point on the right bank of Pine Creek about one mile from the said lands, claiming under and by virtue of said notice, 500 inch , miners measurement, measured under a four inch pressure, of the waters of said Pine Creek, to be, and carried through a ditch leading from said point to and upon the lands herein above described, and own by this cross-complainant, and on said day caused a copy of said notice so posted as aforesaid, to be recorded in the office of the County Recorder of Washington County, Idaho, in Book ___ of Water Ri at page ____, a copy of which said notice is hereto attached marked "Cross-complainant's Exhibit A" and made a part hereof; that the construction of said ditch and use of water thereunder, was prosecuted with due diligence and the ditch so constructed was of sufficient capacity to carry throughout its entire length 320 inches of water miners measurement, measured under a four inch pressure.

IX.

That thereafter and on the 5th day of June 1884 this defendant, J. H. Philips, S. M. Percifield and J. I. Darnell constructed a ditch having a carrying capacity of 1000 inches of water, measured under a four inch pressure, throughout its entire length and on or about the 11th day of November 1887, posted a notice claiming under and by virtu of said notice, 1000 inches, miners measurement, measured under a four inch pressure, of the waters of said Pine Creek to be carried through the said ditch, constructed on the 5th day of June 1884, and leading

from Pine Creek to and upon the lands described in said notice, and the lands belonging to this cross-complainant herein, and upon the lands owned by the said co-locators, and on said day, caused a copy of said notice so posted, as aforesaid, to be recorded in the records of Water Rights in the office of the County Recorder of Washington County, Idaho, a copy of which said notice is hereto attached marked "Cross-complainant's Exhibit B" and made a part hereof.

That said ditches commenced in the month of May 1883 and in June 1884 by this cross-complainant and others, were so constructed, and of sufficient depth and width as to enable them to carry throughout their entire length, and they did so carry throughout their entire, during the irrigating season of 1884, substantially 1000 miners inches of water measured under a four inch pressure, to and upon the lands of said persons as aforesaid. That this cross-complainant and his predecessors in interest have since the month of May 1883, and long prior thereto, at all times during the irrigating season of each year, and continuously during said seasons, used 320 inches of water measured under a four inch pressure in and upon his said lands, that from said year to the present time this cross-complainant and his predecessors in interest, have actually cultivated and irrigated said lands to the amount of 320 acres thereof; and said land in said amount is under actual cultivation and irrigation, and said amount of water is necessary for the proper and successful irrigation and cultivation of said lands and that there is no other source of water supply available for the irrigation of said lands and for domestic use thereon, except the waters of said Pine Creek.

X.

That this cross-complainant is a prior appropriator of the waters of said Pine Creek, a tributary of Weiser River, and is entitled to a priority of use of the waters of said Pine Creek over the plaintiffs and each and every of the other defendants herein in the amount and to the extent of 320 inches thereof, miners measurement measured under a four inch pressure. That the plaintiffs and other defendants claim some right to the use of the waters of said river and its tributaries

and to [redacted] waters and the flow of said Riv[redacted]nd its tributaries, but if any right, they, or either of them, have, such right is inferior in time and subordinate to the rights of this cross-complainant.

WHEREFORE, this answering defendant and cross-complainant, pray

1. That the court determine the rights and priorities of all the parties to this action in and to the waters and the flow of the wate of the Weiser River and its tributaries, and to the use thereof;

2. That the court adjudge and decree that the appropriations, righ and titles of this answering defendant and cross-complainant, date from the _____ day of _____, 1875;

3. That the defendants have judgment for their costs and disbursements incurred herein;

4. And for such other and further relief in the premises as to equity and good conscience belong.

RE: PRIORITY FOR ADJUDICATION CLAIMS 67-04057, 67-04058, and 67-04063

Mr. Hansen:

Thank you for replying to my request for evidence of priority. I apologize for my typo, and want to reassure you that the water right claim I addressed was in fact 67-4057. Also, leading zeros are inconsequential, so 67-04057 refers to the same claim as 67-4057.

Your five decreed water rights (67-185B, 67-186B, 67-188, 67-189, and 67-190) will be addressed in the coming months, and these appear to have been decreed by Muir vs. Allison. Because of the decree, the claimed priority dates appear reasonable and no action is needed on those claims at this time.

However, your three beneficial use claims (67-4057, 67-4058, and 67-4063), which were not decreed by the court in Muir vs. Allison, *appear* to be for additional water on the same land. Filing these claims is acceptable, however they claim a priority date before the Muir vs. Allison decree (May 9, 1918).

Because your beneficial use claims appear to cover the same acreage as decreed claims, and the decree did not recognize this water use, the claimed priority dates would have to be after the Muir vs. Allison decree was signed (May 9, 1918). In order to establish priority dates for your beneficial use claims, evidence of priority must be submitted to the department for when this water was first put to beneficial use.

The bottom line is that your three beneficial use claims are not covered by Muir vs. Allison, and in order for them to be recommended and decreed in the SRBA, they must be accompanied by evidence of priority. I apologize for not clarifying this in my previous letter. For your convenience, I have enclosed additional copies of the brochure "Evidence of Priority" and affidavit forms in case you misplaced the ones I sent previously. If you have any questions, please feel free to contact me at (208) 287-4885 or Dan.Narsavage@idwr.idaho.gov.

This priority date was established by the original adjudication of the water in the Weiser River Basin. Muir vs Allison.

If this is not adequate proof please let me know.

Dear Claimants:

Enclosed is a copy of your *Amended* Notice of Claim(s) to a Water Right. Please note, portions of these claims have been modified or amended and may differ from the original filing. The enclosed claims are copies for your records.

These modifications are not a determination of your actual water right at this time. These amendments and addition of acreages will be verified during the review process for Basin 67, Weiser River Drainage, tentatively planned to begin in 2005. The actual recommendation to the Snake River Basin Adjudication Court may differ from these amended claims based on this review.

You will be notified prior to the beginning of any verification of these claims. If you have any questions regarding this letter, please feel free to contact our office.

Subject: Amended SRBA Claims– Norman Hansen

Dear Jan:

On behalf of Norman Hansen, I am pleased to submit the following amended SRBA claims for irrigation from Pine Creek and West Pine Creek in Basin 67.

1. Amended Claim 67-185B
2. Amended Claim 67-186B
3. Amended Claim 67-188
4. Amended Claim 67-189
5. Amended Claim 67-190
6. Amended Claim 67-4057
7. Amended Claim 67-4058
8. Amended Claim 67-4063

The eight amended claims seek a permissible place of use totaling 169.3 acres.

- Five of the eight claims are decreed rights currently authorized for irrigation of 124 acres within a 125-acre place of use, based on water right transfer 3557. The transfer was submitted on October 14, 1988 and approved on April 19, 1990. However, Mr. Hansen has apparently been irrigating a 169.3-acre place of use using the five water rights since 1974. Therefore, these five claims have been amended to show 124 acres of irrigation within a 169.3-acre permissible place of use.

- The 169.3-acre permissible place of use is also irrigated under three statutory claims (67-4057, 67-4058, and 67-4063). These statutory claims have been amended to also show the 169.3-acre permissible place of use.

Four diversion points are proposed. Transfer 3557 included the three upstream diversion points in Sections 31, 32, and 5. Transfer 3738 (rights 67-185B, 67-186B, 67-4057, 67-4063) included these three diversion points, plus a fourth diversion point in Section 4.

600 East River Park Lane, Suite 105
Boise, Idaho 83706

Telephone (208) 383-4140
Facsimile (208) 383-4156

Two Farm Service Agency aerial photographs showing the places of use are enclosed. The delineated fields on the Section 4 photograph total 123.5 acres. The place of use on the Sections 32 and 5 photograph totals 45.8 acres. Therefore, the irrigated area totals 169.3 acres.

Please contact me with any questions.

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflects the change in address.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you again for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed claim(s), please feel free to contact this office.

SUBJECT Change in Address AJ & WR Records

Norman Hansen visited office today. Asked for all AJ + WR Records in his name to be updated with new street address adopted by County.

Did AJ+WR search for him & found attached Records. D'BASE became unavailable just after did search so could not look into Records very much. But saw A67-4057 w/ HC-Box address & WR 67-4057 w/ Bldl address. Cambridge

So now all can be cleaned up with current address for Norman-Sandra-Flug I. Hansen (all same household).

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Transfer of Water Rights No. 67-0185/0186/4057/4063

And said application is hereby APPROVED, subject to the following limitations and conditions:

1. A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works. 2. No more water may be diverted at the new point of diversion than would have been available at the original points of diversion. 3. Approval of this transfer in no way confirms the rights claimed under 67-4057 & 67-4063. 4. Use of water under these rights is subject to control by the watermaster of State Water District No. 67, Weiser River.

Claim No. 67-4057

STATE OF IDAHO

DEPARTMENT OF WATER ADMINISTRATION

Section 42-225a, Idaho Code

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that NORMAN &/or SANDRA HANSEN (name of claimant)

of Hagerman, Idaho 83332 (mailing address), claims a right to the diversion and beneficial use of ground water or surface water tributary to Weiser River;

The extent and nature of said claim is as follows:

(1) Describe source of water: (name of stream, lake, spring, etc., or ground water) Pine Creek

(2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Amount 1.40 (cfs, gpm or a/f) Use Irrigation (dom., irri., stock, etc.) Period of Use: From March 15 To Nov. 15 (both dates inclusive)

Amount _____ Use _____ Period of Use: From _____ To _____

Amount _____ Use _____ Period of Use: From _____ To _____

(3) Total quantity of water claimed: 1.40 cubic feet per second, or _____ acre feet per annum, and/or _____ gallons per minute.

(4) Priority claimed: (the date water was first applied to beneficial use) 5/1/1880

A claim is not acceptable on a ground-water source with a priority later than March 25, 1963 or on a surface-water source with a priority later than May 20, 1971. An exception to this rule is that a claim may be filed on domestic use from a ground-water source.

(5) A) Point of diversion: (give location of point where water is diverted from its source)

NW ¼ NE ¼, Sec. 5 Twp. 14 N. Rge. 3 W. B. M. County of Washington

Additional points of diversion: _____

B) Describe means of diversion of water: (pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. Headgate with earth ditches

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.
