RE: Letter of August 25, 2005

First — a typographical error needs to be corrected — The spelling of the names of the family is HELTON — not HEATON as addressed in the letter — This is properly spelled on the enclosure of adjudication Claim Report ~~to #~~ A 63-18724

2nd — My daughter Anita A. Keeney has transferred her interest to her daughter Cheri Keeney Pagan and son-in-law Robert Pagan as of October 2004 — This is my granddaughter and her husband.

My personal knowledge of the Arterian well goes back to childhood — The well was there and running when I was brought to live with my grandparents and great grandfather — in his house in November of 1925 when I was just 13 months old. It has been there in the dooryard all of my lifetime — I will be 81 years old on October 5th of this year.

The property has been in my family down through the years.

Earliest documentation is in an Abstract I have in my possession — pertaining to ditch water rights issued by Middleton Mill Ditch Company: Stating "In the year 1871 John Jones Smith constructed the upper portion of the Middleton Mill Ditch to a point near the West line of his homestead insuring the water to run through a slough to or near Middleton, In Part consideration for doing this work and the right of free use of water for his place for irrigating purposes, and he also shows a copy of an agreement, claimed to be executed by J.C. Isaacs, (one of the original proprietors of the Middleton Mill Ditch) said agreement dated Boise City, March 13th, 1871 — etc.

As a child — the overflow of the Arterian well was discharged into the ditch that ran through the dooryard.

Many of the documents were lost during 2 house fires — so I do not have those records. In the mid-1980's an old man

who was of my father's age came visiting and made the comment that on his 7th birthday in 1914 his father brought him up from the neighboring farm to watch the Artesian well being drilled. Prior to that - a hand dug well with pitcher pumps had served the family's potable water.

My grandmother, Agnes Hope Smith Heffner was born on this property August 17, 1875.

Sincerely

Eva O. Nelson

5335 West State St.

Eagle - Idaho 83616

P.S. I have a receipt for \$54.⁰⁰ dated 9/8/89

paid when I took my papers to the Water Resources
Office - Civil Case Number 39576

Receipt No: W005695

Adjudication fee

Also: in summer
of 2002 a female
representative came -
asked questions and
took photos of the well.

E.O.

Eva O. Nelson

Let it be known that One-Half share of stock has been issued to Eva O. Helton on this 8th day of September, 1989.

Certificate Number 2897 in the MIDDLETON MILL DITCH COMPANY.

Furthermore, there shall be no assessment charges on this stock as long as it remains in the name of Eva O. Helton or her direct descendants. But once it is sold outside of the direct descendants, it shall become assessable.

This is to honor the agreement that was drawn up on March 13, 1871.

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-18724

Dear ANITA KEENEY, RANDALL HEATON, EVA HEATON AND JOHN HEATON,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out or re-file it. You indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. This claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of your priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by **September 9, 2005**. Please contact me as soon as possible regarding the proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

Sincerely,

A handwritten signature in black ink, appearing to read "Vicky L. Music". The signature is fluid and cursive, with the first name "Vicky" and last name "Music" clearly distinguishable.

Vicky L. Music
Senior Water Resource Agent
Adjudication Bureau

Enclosure: "Evidence of Priority" pamphlet
Notice of Claim A63-18724

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that Intrepid might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
Western Regional Office

Open Channel Flow

☐ Complete one box from both Area and Calculation sections

Cross Sectional Area

☐ Circular Channel

- ☐ Less than half full
☐ Half full
☐ More than half full
☐ Full

Diameter

Depth

☐ Rectangular Channel

Width

Depth

Flow Calculation

☐ Continuity

Velocity

☐ Orifice

(Use only for head over a pipe flowing full with free discharge)

Depth of Water above orifice centerline

☐ Weir

(Use only for water flowing freely over weir)

Height of water above nappe

Width of weir

☐ Manning (If used, include photo of representative channel section)

Channel Slope

Channel Description	
Concrete lined	.016
Smooth earth	.025
Earth	.033
Rough bed, weeds on sides	.04
Smooth natural stream	.033
Rough natural stream	.1
