WESTERN REGION

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
63-19098	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts. (\$25) N/A
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions): **PLAT OF PROPERTY** or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The AERIAL PHOTO should be submitted in place of the PLAT OF PROPERTY or SURVEY MAP.

3. Name and Address of Former Owner/Claimant(s) Harbur-Le Eno Inc.
3051 Wise Way Boise, ID 83712
4. New Owner/Claimant(s) Harris Family Limited Partnership
 Name Connector (Check one): [] and, [] or, [] and/or
- New Mailing Address 4940 E Mill Station Rd, Suite 101-B
- City, State and ZIP Code Boise, ID 83716
- New Telephone Number (208) 344-1131
5. Date you acquired the property April 23, 2004

6. **If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7.** If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

WARRANTY DEED - 3

EXHIBIT "A"

A tract of land, partially located in Sections 19 and 30, Township 3 North, Range 3 East, Boise Meridian, Ada County, Idaho, more particularly described as follows:

COMMENCING at the section corner common to Sections 19, 20, 29 and 30, Township 3 North, Range 3 East, Boise Meridian, thence

South 89 degrees 55' West a distance of 290.5 feet to Station 1284 plus 71 on the Center line of the Union Pacific Railroad, Barber Spur; thence

North 64 degrees 28' West a distance of 858.00 feet to Station 1276 plus 13; thence

South 25 degrees 32' West a distance of 475.00 feet to the REAL POINT OF BEGINNING; thence

South 25 degrees 32' West a distance of 432.40 feet to a point; thence

North 40 degrees 48' West a distance of 214.06 feet to a point; thence

North 44 degrees 30' West a distance of 306.90 feet to a point; thence

North 25 degrees 32' East a distance of 241.45 feet to a point; thence

South 64 degrees 28' East a distance of 486.00 feet to the REAL POINT OF BEGINNING.

(Also known as assessor's tax parcel No. S0930120650)

~~Section~~ - a parcel of land being a portion of the W 1/2 of Section 29, T.3N., R.3E., B.M., Ada County, Idaho, more particularly described as follows:

COMMENCING at the North 1/4 corner of Section 29, T.3N., R.3E., B.M., Ada County, Idaho; thence South 00°29'29" West on the North-South mid-section line of said Section 29, 3002.99 feet to a point; thence leaving said mid-section line North 89°30'31" West, 660.00 feet to a point on the Westerly boundary of the Idaho Power Company property as described in the Warranty Deed recorded in Book 434 of Deeds at page 108, records of Ada County, Idaho; thence North 88°52'14" West, 786.16 feet to a point of non-tangency; thence Southwesterly 365.31 feet on the arc of a non-tangent curve to the left, said curve having a central angle of 36°58'49", a radius of 566.00 feet and a long chord of 356.00 feet which bears South 74°38'20" West to a point on the easterly right-of-way line of the existing Eckert Road as described in that deed recorded as Instrument number 34746, dated February 11, 1911, of Ada County Records; thence along said easterly right-of-way line North 49°20'00" East, 226.28 feet to a point of non-tangency, said point being on the northerly right-of-way line of the new alignment of Eckert Road and also being the REAL POINT OF BEGINNING; thence on the new alignment of Eckert Road, 137.58 feet on the arc of a non-tangent curve to the left, said curve having a central angle of 12°28'00", a radius of 634.00 feet, and a long chord of 137.31 feet which bears South 70°41'16" West to a point on the existing Westerly right-of-way line of Eckert Road; thence North 49°20'00" East, 1447.08 feet on the said Westerly right-of-way line of Eckert Road as described in said Instrument number 34746, to a point on the said westerly Idaho Power Company property line; thence South 00°29'29" West, 66.41 feet on said Idaho Power Company property line to a point on the easterly right-of-way line of Eckert Road as described in said Instrument number 34746; thence South 49°20'00" West, 1275.49 feet on said easterly right-of-way line to the real point of beginning. Containing 1.55 acres more or less.

(Also known as assessor's tax parcel no. 50929212625)

EXHIBIT A

LEGAL DESCRIPTION OF THE PREMISES

All that tract or parcel of land in Lot 2, Block 1, **CROWS LANDING SUBDIVISION**, according to the plat recorded in Book 63, at pages 6366-6367, in the records of Ada County, Idaho.

(Also known as assessor's tax parcel no. R1621740020)

That portion of the South one-half of the Northwest one-quarter of Section 34, Township 3 North, Range 3 East, Boise Meridian, Ada County, Idaho described as follows:

Beginning at the West one-quarter corner of said Section 34, T. 3 N., R. 3 E., B.M., marked by a brass cap; thence North 1°34' East along the West boundary of said Section 34, 1,316.9 feet to a steel pin marking the 1/16 corner; thence South 89°54' East along a 1/16 line 1,185.9 feet to a steel pin in an existing north-south fence line; thence South 0°17' West 1,339.09 feet to a steel pin in the said existing fence line; thence North 88°50' West along the east-west one-quarter line of said Section 34, 1,215.5 feet to the point of beginning.

Excluding from the above, the following described property:

That real property and improvements lying westerly from State Highway 21, generally known as the "CROW INN", and containing more or less one and two-thirds acres, as more particularly set out on a map prepared for Seller by Briggs & Associates, Consulting Engineers, Boise, Idaho, dated April 22, 1964, and designated as Dwg. No. M640428.

(Also known as assessor's tax parcel no. S0934231000)

PARCELA

A portion of the Southwest Quarter of the Southeast Quarter (SW $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 29, Township 3 North, Range 3 East, Boise Meridian, and more particularly described as follows:

Commencing at an aluminum cap monument marking the north one-quarter ($\frac{1}{4}$) corner of said Section 29, from which a brass cap monument marking the northwest corner of said Section 29 bears North 89°35'29" West a distance of 2,857.58 feet; thence South 0°28'58" West a distance of 4,502.09 feet along the north-south center of section line of said Section 29 to a 5/8" iron pin monument marking the intersection with the ordinary high water line of the north (right) bank of the Boise River; thence South 81°57'25" East, 29.05 feet, along the said ordinary high water line to a 5/8" iron pin monument; thence South 63°21'03" East, 201.07 feet along said northerly ordinary high water line to a point of intersection with the meander line of the north (right) bank of the Boise River as described in the original GLO Survey Notes of 1868; said intersection being the REAL POINT OF BEGINNING; thence continuing along the said ordinary high water line to 5/8" iron pin monuments the following courses and distances; South 63°21'03" East, 82.88 feet; thence South 68°34'48" East, 151.83 feet; thence North 89°07'10" East, 51.94 feet to the intersection with said north meander line; thence North 89°58'16" West (formerly described as North 70°15' West in GLO Survey Notes), 282.41 feet returning to the real point of beginning, containing 0.07 of an acre, more or less, and containing an area of 2,972 square feet, more or less.

PARCEL B

Portions of the Southeast Quarter of the Southwest Quarter (SE $\frac{1}{4}$ SW $\frac{1}{4}$), and the Northwest Quarter of the Southwest Quarter (NW $\frac{1}{4}$ SW $\frac{1}{4}$), and the Southwest Quarter of the Northwest Quarter (SW $\frac{1}{4}$ NW $\frac{1}{4}$) in Section 29, Township 3 North, Range 3 East, Boise Meridian, and more particularly described as follows:

Commencing at a brass cap monument marking the northwest corner of said Section 29, from which an aluminum cap monument marking the north one-quarter ($\frac{1}{4}$) corner of said Section 29 bears South 89°35'29" East a distance of 2,857.58 feet; thence South 0°16'44" West a distance of 2,447.24 feet along the west line of said Section 29 to the intersection with the meander line of the north (right) bank of the Boise River as described in the original GLO Survey Notes of 1868; thence South 54°43'16" East (formerly described as South 55°00' East

in said GLO Survey Notes), 23.27 feet along said north meander line; thence South 56°13'18" East (formerly described as South 56°30' East in said GLO Survey Notes), 198.49 feet along said north meander line to the intersection with the ordinary high water line of the north (right) bank of the Boise River, said intersection being the REAL POINT OF BEGINNING; thence continuing South 56°13'18" East, 113.71 feet along said north meander line; thence South 39°43'16" East, 660.00 feet (formerly described as South 40°00' East, 660.00 feet in said GLO Survey Notes), along said north meander line; thence South 62°28'16" East a distance of 1,320.00 feet (formerly described as South 62°45' East, 1320.00 feet in said GLO Survey Notes) along said north meander line; thence South 32°43'16" East (formerly described as South 33°00' East in said GLO Survey Notes), 198.95 feet along said north meander line to the intersection with the east line of the West ½ of Government Lot 3; thence leaving said north meander line, South 0°25'54" West, 658.32 feet along said east line to a 5/8" iron pin monument marking the intersection with the ordinary high water line of the north (right) bank of the Boise River; thence along the said ordinary high water line to 5/8" iron pin monuments the following courses and distances:

North 85°00'10" West, 290.85 feet; thence North 73°30'40" West, 167.48 feet; thence North 58°57'50" West, 178.86 feet; thence North 47°21'15" West, 190.82 feet; thence North 36°38'05" West, 400.82 feet; thence North 32°16'03" West, 171.01 feet; thence North 27°50'38" West, 88.54 feet; thence North 33°09'57" West, 207.74 feet; thence North 43°19'22" West, 88.24 feet; thence North 28°28'00" West, 80.35 feet; thence North 28°16'29" East, 26.61 feet; thence North 11°01'36" West, 126.73 feet; thence North 28°42'22" West, 143.78 feet; thence North 51°23'40" West, 298.34 feet; thence North 29°51'00" West, 319.07 feet; thence North 15°22'23" West, 109.33; thence North 13°31'39" East, 38.80 feet returning to the real point of beginning, containing 24.69 acres, more or less, and containing 1,075.599 square feet, more or less.

PARCEL C

A portion of the Northeast Quarter (NE¼) of Section 30, Township 3 North, Range 3 East, Boise Meridian, and more particularly described as follows:

Commencing at a brass cap monument marking the northwest corner of said Section 29, from which an aluminum cap monument marking the north east quarter (¼) corner of said Section 29 bears South 89°35'29" East a distance of 2,447.24 feet; thence South 0°16'44" West a distance of 2,447.24 feet along the west line of the NE¼ of said Section 29 to the intersection with the meander line of the north (right) bank of the Boise River as described in the original GLO Survey Notes of 1888; thence North 54°43'16" West (formerly described as North 55°00' West in said GLO Survey Notes), 762.73 feet along said north meander line; thence North 19°58'16" West (formerly described as North 20°15' West in said GLO Survey Notes), 533.47 feet along said north meander line to the intersection with the ordinary high water line of the north (right) bank of the Boise River, said intersection being the REAL POINT OF BEGINNING; thence continuing North 19°58'16" West a distance of 1,347.53 feet along said north meander line; thence North 79°28'16" West (formerly described as North 80°00'

West in said GLO Survey Notes), 528.27 feet along said north meander line to the intersection with the northeasterly line of that certain parcel of land described in State of Idaho Disclaimer of Interest No. 39, recorded as Instrument No. 8760982, Records of said Ada County, Idaho; thence South 44°28'50" East (formerly described as South 44°43'59" East in said disclaimer), 95.54 feet along said northeasterly line; thence South 36°54'50" East, 328.62 feet (formerly described as South 37°09'59" East, 328.62 feet in said disclaimer) along said northeasterly line; thence South 39°19'57" East, 283.13 feet (formerly described as South 39°35'09" East, 283.13 feet in said disclaimer) along said northeasterly line; thence South 53°08'27" East, 188.87 feet (formerly described as South 53°23'38" East, 188.87 feet in said disclaimer) along said northeasterly line; thence South 31°59'42" East, 265.87 feet (formerly described as South 32°14'51" East, 265.87 feet in said disclaimer) along said northeasterly line; thence South 25°24'04" East, 547.31 feet (formerly described as South 25°40'01" East, 547.31 feet in said disclaimer) along said northeasterly line to a 5/8" iron pin monument marking the intersection with the ordinary high water line of the north (right) bank of the Boise River; thence South 49°01'03" East, 9.15 feet along said ordinary high water line to a 5/8" iron pin monument; thence South 82°45'14" East, 33.82 feet along said ordinary high water line returning to the real point of beginning, containing 5.73 acres, more or less, and 249,784 square feet, more or less.

This parcel is subject to all easements and rights-of-way existing or of record, including State of Idaho Acquired Easement No. 442.

(Also known as assessor's tax parcel No. 80929335400)

Subject: RE: 63-19088, 19098 and 19099

The only information I have gathered so far is regarding the well for 63-19088. I read Intrepid's report on how they did not find the point of diversion listed on 63-19088. I can certainly provide information regarding that well. As to other supporting information regarding evidence of priority, I am still working on the Harris Family.

That is the best I have right now.

Re: Notice of Claim to a Water Right No. 63-19099, 63-19098

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflect the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a final determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed information, please feel free to contact this office.

Sincerely,

A handwritten signature in cursive script that reads 'Liberty Gagnon'.

**NOTICE OF ERROR
REPLY**

RECEIVED

NOV 15 2005

**WATER RESOURCES
WESTERN REGION**

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS:

Water right number: 63-19098

HARBUR-LE ENO INC.
3051 WISE WAY
BOISE, ID 83712
Telephone Number: (208)344-2573

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Place of Use, Ownership

2. Describe the changes you wish to make in the proposed recommendation:

Ownership: See attached Change in Ownership Notice to the Harris Family Limited Partnership.

Place of Use: The map associated with the attached Change in Ownership outlines the property boundary, which is the Place of Use and the location of the Point of Diversion on the Boise River. The Place of Use should include the NENE, NWNE, and the SENE of section 30 plus the SESE and SWSE of section 19.

3. Give a brief explanation as to why you disagree with these portions:

IDWR's GIS Place of Use Illustration, includes land that was not part of the original lumber mill for which these water rights are claimed. The map we are providing outlines the parcel boundaries in which the lumber mill was built and operated. The lumber mill and land has since been deeded to the Harris Family Limited Partnership.

 I AGREE with this proposed recommendation: no changes need to be made.

RE: Harris Ranch Claims

Dear Ms. Music:

In an e-mail dated April 22, 2005, you requested some supporting documentation for claims 63-19088, 63-19098, and 63-19099. Please accept the following enclosed documents as support for those claims.

63-19088: No supporting documentation

63-19098: Letter of Affidavit from Larry Eno and Commercial Worksheet

63-19099: Letter of Affidavit from Larry Eno and Commercial Worksheet.

Larry Eno is the 'Eno' of Harbur-LeEno Inc. He provided much of the information used on the Commercial Worksheet. Randy Harris was interviewed and supported the information and signed the worksheets.

For claim 63-19088, no supporting documentation could be produced.

For 63-19098, the priority date of 4/30/1965 could not be precisely identified. As Larry Eno describes in his affidavit, the main sawmill business didn't really start until 1967 to 1968. The location of the wells is described in the Commercial Worksheet. A field exam was not performed because the actual sawmill operation stopped and the company running the operation dissolved in 2001.

For claim 63-19099, the priority date of 1/15/1963 could not be precisely identified. Harbur-LeEno Inc. purchased the office building in 1967 from Mr. Wise. Larry Eno indicated that the domestic well for that office was installed several years prior to their purchase, so the 1963 date is reasonable, but only by inference. I could not find the driller's report for that well. The second well supplied domestic water for the sawmill plus water for cooling of some of the equipment. Larry Eno said that a ¾ hp pump was installed in the well, but did not know of the actual gallons used per day. No driller's report could be found for this well either.

I hope this information is helpful in your recommendation.

Regards,

Steven R. Hannula

AFFADAVIT OF LARRY ENO

July 11, 2005

I, Larry Eno, currently live at 3487 Mineral Place, Boise, ID 83716. I was born on September 24, 1929. I state and affirm the following regarding my history and recollection of the Harris Ranch along Warm Springs Avenue in Boise, Idaho.

I have worked for the Harris family for over 50 years, 1946 to the present day, in a variety of capacities, from running cattle, irrigating fields, working in the lumber company, to entering into business ownership with the family. In the past 7 years, I have worked as a supervisor for the ranch.

I was part owner in the company named Harbur-LeEno, Inc. that was formed on April 26, 1961 and dissolved in 2001. Harbur-LeEno, Inc. purchased a lumber mill operation from Producers Lumber in 1966 and moved the operations to the property at Harris Ranch in 1967 by building a new milling station. The office for the new lumber mill was at 3051 Wise Way. The lumber mill began operations in about 1968. Logs were staged on the property in preparation for cutting and drying. Water was needed to maintain the logs moist. Water was pumped from a pump station located on the bank of the Boise River. I helped build the pump house on top of a concrete diversion structure. Gem State Electric wired a 75 horsepower pump in about 1968. The water was pumped to 10 to 15 handlines, each with 10 to 15 sections. We needed between 40 and 50 psi pressure for the sprinklers to work correctly. Water right claim 63-19098 is for 2.67 cfs. The pumping system supplied a lot more water than 2.67 cfs, but the excess was allowed to flow back to the river.

A diesel powered pump of 150 to 200 horsepower was also installed for pumping water for fire protection.

Also, there are two wells that provided drinking water for the business. One well is located on the east side of the main office building on Wise Way (on west side of Wise Way). Mr. Wise had this well installed a few years before we bought his building in 1967. It supplies drinking water to the office to this day. A second well, located on the

east side of Wise Way provided drinking water to the sawmill and cooling water to the planer and blade in the sawmill. The well was installed in about 1969. A ¾ hp pump was installed.

DATED this 11th day of July, 2005.

COMMERCIAL USE VOLUME

* Please keep in mind that these questions pertain only to the use of the water listed on the enclosed **Adjudication Claim Report**.

Type of Establishment: (example -camp, church, country club, bar/lounge, boarding house, factory, motel, highway rest area, hospital, laundry, office, park, restaurant, school, service station, theater)

Sawmill, providing staging, conditioning, cutting and drying of lumber.

Type of Facilities: (example: kitchen facility/cafeteria, lavatory facilities, shower(s), bath(s), sink(s), trailers, flush toilets)

Pump station on the Boise River installed in 1968 to provide water to the sprinkler system that maintained correct moisture in the logs. The water also provided fire protection, make-up and feed water for the boilers used for the dry kiln, and dust abatement. The pumps are located on the north side of the Boise River at a small diversion channel in the SENE Section 30, T3N, R3E.

Number of Fixtures: (example: number of flush toilets, number of bathtubs, number of bathroom/kitchen sinks, number of showers, etc.)

10 to 15 handlines, each handline consisted of 10 to 15 lengths of 2-in pipe. Water truck fill station that filled a 5,000 gallon truck 10 to 15 times per day for dust abatement. Boiler system used to generate heat for the dry kiln.

How many employees (and/or public individuals) per day use each of the facilities your commercial use is based upon?

About 50 employees.

How many hours per day is the facility open for this specific use? **How many days per week** is the facility open for this use?

Some aspects of the mill were operated 24 hour per day, i.e. sprinkling of logs during the summer months.

How many days per week is the facility open for this use?

The facility was open 7 days a week

Is this facility open year round? XX Yes No

If not, please indicate the length of time the facility is open during the year.

Reduced water demand in the winter

* * Most businesses have a good idea of how many gallons of water per day they use. If this is true in your case, please indicate how many **total gallons of water** you use for the commercial purposes explained above:

A 75 hp motor was installed in the pump house to run the sprinklers at a pressure between 40 and 50 psi. There was a perhaps a 20-foot lift including head loss of the 8-inch pipe running to the yard. This set up is theoretically capable of delivering approximately 2,300 gpm (5 cfs). The water truck carried about 5,000 gallons and was filled 10 to 15 times a day ($5,000 \text{ gal} * 15 = 75,000 \text{ gpd}$). The truck was running an estimated 300 days per year at this rate for an annual maximum of 516 acre-feet for dust abatement. The staging of logs covered approximately 70 acres, and we sprinkled the logs at about the same rate as we do for crop irrigation, so I estimate we diverted 315 acre-feet per year ($70 * 4.5 = 315 \text{ AF}$). Excess water was allowed to return to the river. The total diversion volume is estimated to be $516 + 315 = 831 \text{ AF}$ per year.

Additional information you feel may be pertinent: The motor and pump for the sprinklers is still in the pump house.

Randy Harris

Subject: 63-19088, 19098 and 19099

Hi Steve -

Thanks for calling yesterday re the beneficial use claims referenced above. The evidence of priority pamphlet and commercial use worksheet are attached to this e-mail. To summarize the info needed for me to recommend these claims:

63-19088

- 1 - confirm location of well so that I can locate it accurately on a map
- 2 - evidence of priority for the claimed priority date of 3/3/1961
- 3 - any measurements data of the quantity of water historically pumped and used or enough information to calculate theoretical flow.

63-19098

- 1 - evidence of priority for the claimed priority date of 4/30/1965
- 2 - description of commercial use and completion of commercial use worksheet attached
- 3 - location of well, any measurements data of the quantity of water historically pumped and used or enough information to calculate theoretical flow.
- 4 - Due to this being a beneficial use claim and the quantity claimed, we [or you] will need to do a field exam to confirm the elements of the claim unless the information provided by the commercial worksheet indicates that the quantity needed is 2 cfs or less.

63-19099

- 1 - evidence of priority for the claimed priority date of 1/15/1963
- 2 - description of the domestic use and completion of commercial use worksheet attached for each of the 4 businesses.
- 3 - location of well, any measurements data of the quantity of water historically pumped and used or enough information to calculate theoretical flow.

Call if you need to. 334-2190. Thanks -

Vicky L. Music
Sr. Water Resource Agent

Total Acres: 590

Conditions of Approval:

1. R65 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the lands above.
2. The wells previously used under Rights 63-02973 and 63-03261 located in Section 28, Twp. 3N, Rge. 3E, shall be abandoned in a manner which complies with Department well abandonment rules.
 Right 63-00184 is limited to the irrigation of 112 acres within the place of use described above in a single irrigation season. Right 63-00365 is limited to the irrigation of 533 acres within the place of use described above in a single irrigation season. Right 63-02973 is limited to the irrigation of 24 acres within the place of use described above in a single irrigation season. Right 63-03261 is limited to the irrigation of 35 acres within the place of use described above in a single irrigation season. Right 63-07103 is limited to the irrigation of 80.5 acres within the place of use described above in a single irrigation season. The period of use for the irrigation described in this approval for Rights 63-03261 and 63-07103 may be extended to a beginning date of 3/1 and an ending date of 11/15 provided that beneficial use of the water can shown and other elements of the right are not exceeded. The use of water before 4/1 and after 11/1 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
 Use of water under Right 63-00184 will be regulated by the watermaster of State Water District No. 63, Boise River.
 Use of water under Right 63-00365 will be regulated by the watermaster of State Water District No. 63-T, Warm Springs Creek. Rights 63-02973, 63-03261 and 63-07103 when combined shall not exceed a total diversion rate of 2.32 cfs, a total annual maximum diversion volume of 627.8 af at the field headgate, and the irrigation of 139.5 acres.
 The total instantaneous diversion of water from all points of diversion under Transfer 5577 shall not exceed 11.80 cfs, nor total combined annual volume of 2655.0 af, and the irrigation of 590 acres.
3. T18 Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works for all authorized points of diversion. The means of measurement and controlling works must be suitable for control of the diversions and acceptable to the watermaster.
4. T09 Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
5. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
6. T07 The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.

NOTE FROM VICKY MUSIC: I FOUND THIS ON THE INTERNET WHEN TRYING TO FIND INFORMATION ABOUT PRODUCERS LUMBER AND THE HARRIS B/U CLAIMS. THIS IS AN EXCERPT FROM THE ARTICLE. THE ARTICLE ESTABLISHES THAT THE BENEFICIAL USE CLAIM 63-19098 IS REALLY THE 63-184 BOISE RIVER DECREED RIGHT, DECREED TO BARBER LUMBER CO. AND NOW OWNED BY THE HARRISES.

Electronic Green Journal

December 1998 Special Issue 9

Brownfield Cultivation: Converting a Brownfield Site into an Eco-village

Scott R. Moses
University of Idaho

Introduction

Along one of Idaho's beautiful highways and river systems lies an extinct sawmill owned by Producer's Lumber Company, casually known as the Barber Mill Town. Once a riparian marvel of nature, this area comprised of forty acres of wetland, desert, and riparian habitat has been completely bulldozed and destroyed throughout the successful operations of the sawmill days of 1910.

Today it is another historic footprint becoming threatened by new residential growth from a population explosion occurring in the young city of Boise, Idaho. With this expansion comes new growth, and with the use of conventional development comes the depletion of more land resources. By cultivating land that has already been disturbed by human populations, existing land resources can be conserved for the use of agriculture and natural systems.

Solution

1,500,000 acres of farmland, riparian zones, and industrial zones such as an abandoned sawmill are being converted each year in the United States. The renewal of the brownfield industrial site would provide residential housing for on-site working farms. The farms would include aquaculture, an orchard, and a tree nursery. The new development would be restricted to the boundaries of the brownfield allowing the native environments and existing conditions on the site to prevail.

While conventional development aims to deplete more land resources this solution aims to conserve our precious land resources for the production of food and open native habitat. The empty voids within and on the edge of our cities must first be filled in before we decide to move on and develop our greenfields.

History of Barberton

The site has experienced two phases of civilization. Shoshoni Native Americans were the first to settle and make this area a permanent campsite. The Shoshoni took advantage of the abundant natural resources of the Boise River and the Hot Springs while living their nomadic lives following rivers and streams hunting and gathering living off nature's interest. The Boise Shoshoni tribe of the "Snakes" utilized this site as a trading post and winter home due to its mild climate. The "Snakes" migrated through most of Central Idaho but spent most of their winters here on this site along the lower Boise River.

Westward destiny arrived in 1850, the second phase of development. Over the next fifty years battles and various conflicts over ownership of land and land values were disputed between the Native Americans and the pioneering settlers of the region.

In 1905 the Barber Lumber Company of Wisconsin purchased 25,000 acres of timber twenty to forty miles upstream from the site and built a mill and a dam. A railroad was built to ease the shipping of the lumber from the forest to the mill in 1909, and in 1910 the town of Barberton was complete. The town included a hotel, town hall, store, post office, and seventy-five identical houses. The post office shortened the name from Barberton to Barber, which became a bustling enterprise and one of Idaho's largest mill towns.

The depression of 1934 hit and Barber changed from a bustling enterprise into an empty memory. The mill was dismantled and sold to Boise Cascade in Emmett, Idaho (sixty miles north of Boise) leaving an empty shell of a few buildings and scrap metal. After the depression, the Harris ranch family bought the site to raise cattle and horses. In 1950 the Harris Ranch re-established a small mill assembly. The larger mills of the region proved to be too much competition for its survival, so in 1919 the Harris Ranch returned all of their efforts to grazing livestock with a few ideas about profiting from Boise's exploding suburbia.

Present

The Harris Ranch is planning to develop the old Barber Mill town site and the surrounding region (1,700 acres) into a town the size of Eagle, Idaho with 3,500 homes, a golf course, and a commercial center the size of Boise Town Square Mall (one million square feet). Two new bridges spanning the Boise River are being proposed for development to ease the congestion of future automobile traffic and most of the existing roads have been planned to be widened. Public interests suggest the opposite toward new development.

bad date. claim says Producers operated until 2001.

NOTE FROM VICKY MUSIC: I FOUND THIS ON THE INTERNET WHEN TRYING TO FIND INFORMATION ABOUT PRODUCERS LUMBER AND THE HARRIS B/U CLAIMS. THIS IS AN EXCERPT FROM THE ARTICLE. THE ARTICLE ESTABLISHES THAT THE BENEFICIAL USE CLAIM 63-19098 IS REALLY THE 63-184 BOISE RIVER DECREED RIGHT, DECREED TO BARBER LUMBER CO. AND NOW OWNED BY THE HARRISES.

Over 158 articles have been written in the Idaho Statesman, the Boise newspaper, claiming that the general public advocates a different type of development disputing the conventional method. In summary, the public is interested in a development that includes mixed-income housing, pedestrian-friendly streets and pathways, a centralized community center which is clear of main roadways, parks for nature and sport activities, historic preservation (Barber Mill), and most of all open space.

New development due to the expansion of east Boise's city edge is submerging the site. Unseasoned high-income developments are replacing the riparian ecosystems of the Boise River. The abandoned sawmill site is slated to become a golf course erasing all signs of significant history. Plans have already been made to demolish the mill structure. The Boise River Greenbelt, which currently runs parallel to State Highway 21, reflects the worn-out conditions of the site. The Greenbelt has been separated from the river whose name it bears by the existing abandoned sawmill. It is unarguably the most boring portion of the Greenbelt due to its adjacency to the highway and disconnection from the river. The Greenbelt is also taking the back seat of the new development and is planned to be rerouted after most of the development has been completed, lacking any kind of coordination with the Harris Ranch development.

Table 1. Log Destinations, SW Idaho 1979-1995

<u>Year</u>	<u>Cut, Used in Region¹</u>	<u>Imported to Region</u>	<u>Total Used</u>	<u>Exported From Region</u>
1979	256,438	2,112	258,550	32,427
1985	235,506	8,500	244,006	2,500
1990	252,606	14,792	267,398	24,800
1995	199,952	25,178	225,130	33,309

(Source: Keegan, et. al., 1996)

As would be expected, the sources of logs used by mills in Southwestern Idaho reflects the predominance of national forest lands within the area and the dominant role those lands played in timber supply throughout the period. Even as late as 1995, national forest lands produced 50 percent of the logs consumed by southwestern Idaho mills, although this volume was relatively high as compared with sale trends on national forests outside the region because of the large volume of fire salvage being logged at that time (table 2).

Table 2. Sources of Logs, SW Idaho 1979-1995

<u>Year</u>	<u>Total Logs Used</u>	<u>National Forests</u>	<u>State, Other Public</u>	<u>Private</u>
1979	262,532	62%	9%	29%
1985	254,962	60%	9%	31%
1990	267,540	71%	11%	14%
1995	226,488	50%	23%	28%

(Source: Keegan, et. al., 1996)

Beginning in 1995, there has been a dramatic reduction in mill capacity and demand from timber from the closure of all but one mill in south Idaho and approximately 10 mills in eastern Oregon, some of which operate only occasionally. The Idaho mills, dates of their announced closures and typical annual log consumption is summarized below:

Table 3. Mill Closures in SW Idaho, 1995-2001

<u>Mill</u>	<u>Location</u>	<u>Closure Date</u>	<u>Annual Log Consumption</u>
Boise Cascade	Council	1995	25-30 mmbf
Producer's Lumber	Boise	1997	5-10 mmbf
Croman Corp.	Boise	1998	30-35 mmbf
Boise Cascade	Horseshoe Bend	1998	55-60 mmbf
Boise Cascade	Emmett	2001	45-65 mmbf
Boise Cascade	Cascade	2001	25-30 mmbf
Total Log Consumption			185-230 mmbf

(Source: Personal communications, 2001)

¹ There are slight discrepancies between log usage data in different tables in this report. The differences are due to variances in the reported data by source or from differing reporting periods (calendar vs. fiscal year). However, these differences are neither substantial nor significant to the study.

DEPARTMENT OF WATER RESOURCES
ADJUDICATION FIELD REPORT**

Prior to Field Exam

- ☒ Copy of Claim, claim has been signed, sealed, and dated by notary?
- ☒ Check fees paid
- ☐ Well logs (if needed)
- ☐ Copy of topo or NAPP
- ☒ Check of Govt. Lots, if needed, Govt. Plat/Tax lot information
- ☒ Check POD & POU overlap, see below – include overlapping right for exam
- ☒ Evidence of Priority – if none, talk with claimant

CLAIMANT INFORMATION – verify contact information is completeClaim No(s) 63-19098

Owner: _____ Phone No. _____

Current Address: _____

- ☐ No change NAME IS THE SAME
- ☐ NEW OWNER _____
- ☐ No change Address
- ☐ NEW ADDRESS _____
- ☐ How long owned property? _____

Accompanied by: _____

PRIORITY DATE

- ☒ No change – Complete evidence submitted or not necessary
- ☒ Incomplete – Claimant should be asked when water was first used and submit proof of date.
- ☐ Priority date is acceptable/within mandatory filing dates?

Priority date, per claimant, is: 4-30-1965

(If priority date, based on your exam, seems questionable, explain below.)

this is a Boise River diversion.

Source: _____ Tributary to _____

- ☒ No Change – SAME SOURCE
- ☐ Source found is different than claimed: _____

POINT OF DIVERSION

- ☒ No change
- ☐ POD found is different than claimed: _____
- ☐ If different, when did POD change? _____

DIVERSION AND DELIVERY SYSTEM
