RE: Camas Properties Inc. Water Rights

Dear Bill:

I have prepared the following summary and recommendations after reviewing the water right records for the lands associated with Camas Properties Inc. As you read, please note that there are some areas where establishing a clear picture of your water rights will probably require you to collect some additional information. Also, in some cases you will need to make choices based on your plans.

Ownerships

You told me that Hidden Paradise Ranch Owners Association is defunct. If so, all HPPOA claims filed in the SRBA need ownership change notifications. The claims are:

1. A37-13367
2. A37-13365
3. A37-13364
4. A37-13366
5. A37-02227

You also indicated to me that 1-3 above are appurtenant to land now owned by VM Diamond Ranch LLC. Numbers 4 and 5 should apparently be changed to Camas Properties Inc.

Also, based on the May 3, 1994, Warranty Deed conveying property in Section 23 from VM Diamond Ranch LLC to SMR Development, it appears that SMR Development should file ownership change notifications for portions of the SRBA claims on rights appurtenant to that land. The claims are:

1. A37-00368
2. A37-00409
3. A37-02076

MICROFILMED
NOV 29 1996

I have enclosed some ownership change forms for you to complete and return to IDWR.

In addition, permit 37-08609 in the name of HPPOA should be assigned to Camas Properties Inc. I have enclosed an assignment form for you.

Irrigation of the Golf Course

It is not clear to me how much surface water is actually being used to irrigate the golf course. In order to ascertain whether your actual use is covered by existing water rights, you will need to find out how much surface water is actually being used.

According to our records, right 37-02227 has been claimed in the SRBA as appurtenant to the golf course, but it is good for only 16 acres of irrigation. When he reviewed groundwater permit 37-08609, IDWR examiner Jim Stanton found 45.4 acres of irrigation on the golf course. He said that right 37-08609 has been used to irrigate the golf course when the surface water becomes unavailable every summer. It appears then, that surface water is being used to irrigate more of the golf course than right 37-02227 allows.

Department records show that the decreed place of use for irrigation right 37-00409 includes the West $\frac{1}{2}$ of the NE $\frac{1}{4}$ and the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 23. The golf course is now located on some of these lands. However, SRBA claim A37-00409 does not include the West $\frac{1}{2}$ of the NE $\frac{1}{4}$ and the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 23. You need to investigate the history of the ownership and use of right 37-00409 to determine if it would be appropriate for you to claim in the SRBA that a portion of 37-00409 is appurtenant to the golf course lands.

If it becomes apparent that your current use of surface water on golf course lands exceeds your water rights, you may be able to cover your use by transferring the rights appurtenant to those lands in Section 23 recently repurchased from VM Diamond Ranch LLC.

Reservoirs

There are a number of small reservoirs associated with the golf course and resort. I am not sure whether all the reservoirs are filled from the East Fork of Threemile Creek or if some are associated with other sources. Application for permit 37-08846 was filed to establish a right to store **additional** water from the East Fork of Threemile Creek by enlarging existing storage facilities. However, permit 37-07459, which was the initial filing for storage on the property, lapsed in 1981. The existing storage needs to be covered by a water right, either by interpreting application 37-08846 as covering all East Fork storage, by seeking the reinstatement of lapsed permit 37-07459, or by filing a new application for permit. It looks like you applied for sufficient volume on 37-08846 to cover all of your ponds. Moreover, you would gain no priority advantage by seeking to have 37-07459 reinstated. Therefore, I recommend using permit 37-08846 to cover the storage in all your East Fork reservoirs. If you have reservoirs filled from sources other than the East Fork, you should probably file a new application for permit.

NOV 29 1996

Additional golf course development

You indicated to me that you are considering expanding the golf course onto those lands in Section 23 recently repurchased from VM Diamond Ranch LLC. The water rights on those lands are apparently not being used now. If those rights are not transferred to the existing golf course, they will face forfeiture after five years of non-use. If you intend to maintain the rights for use on the future golf course expansion, you should file an application for extension of time to avoid forfeiture a few months before the five-year non-use period has ended. In this way, you may be able to avoid forfeiture for over nine years. Maintaining the existing rights is critical because of the current moratorium on approvals of new consumptive use rights.

Please complete the ownership change notifications as soon as possible. As for the other issues, I will be expecting you to call when you have had time to collect the additional information you need to decide how to proceed. Meanwhile, I will hold application 37-08846. If you have any questions, please contact me at 208-327-7946.

Respectfully,

Shelley Walter Keen
