ENCROACHMENT PERMIT NO. L-95-S-4054

Permission is hereby granted to LAWRENCE A. WRIGHT
of S 1903 Keller Road Spokane, WA 99216 to install & maintain 3' x 20'
approach, 6' x 20' walkway, & 32' x 20' floating single-slip dock w/ 3
piling; 1.5" water intake system w/ 2 hp submersible pump 100' waterward
OHWL located: Coeur d'Alene Lake, Webb's East Point Add., Lot 14, Section
28, Township 48 North, Range 4 West, Boise Meridian, Kootenai County.

1. All applicable provisions of the Rules for Regulation of Beds, Waters, and Airspace over Navigable Lakes and Streams in the State of Idaho are incorporated herein by reference and made a part hereof.
2. Construction will follow details and specifications shown on the approved drawings and data provided by the applicant. Should such information and data prove to be materially false, incomplete and/or inaccurate, this authorization may be modified, suspended, or revoked in accordance with the Administrative Procedures Act, Idaho Code title 67, chapter 52.
3. This permit does not convey the State's title to or jurisdiction or management of lands lying below the natural or ordinary high water mark.
4. Acceptance of this permit constitutes permission by the Permittee for representatives of the Department of Lands to come upon Permittee's lands at all reasonable times to inspect the encroachment authorized by this permit.
5. The Permittee assumes all liability for damages which may result from the exercise of this permit.
6. This permit does not relieve the Permittee from obtaining additional local or federal permits as required.
7. This permit is not valid until the identification number is displayed on the outermost area of the encroachment.
8. If the activity authorized herein is not completed on or before the 5th day of August, 1997 (three years from the date of issuance), this permit shall automatically expire unless it was previously revoked or otherwise extended.

August 5, 1994

Page two

9. White bead foam flotation shall be completely encased in a manner that will maintain the structural integrity of the foam. The encasement shall be resistant to the entry of rodents.
10. Permanent dock covers will not be permitted. For single-family encroachments a fabric canopy of a color which will blend with the surrounding uplands is acceptable. These colors shall be shades of browns or greens. However, commercial marinas may use a bright carnival blue color.
11. Removal of any pre-existing facilities is a condition of this permit.
12. This permit supersedes and voids any permit previously issued for this property unless otherwise noted.
13. Creosote or pentachlorophenol (Penta) treated piling and lumber shall not be used on, in, or over the water. Piling and lumber that are in continual contact with lakewaters shall not be treated with protection material. Treated materials not in contact with the water shall be completely dry before use in or near navigable water. Contact Idaho Department of Health and Welfare, Division of Environmental Quality, with questions regarding treated materials.
14. This permit in no way authorizes any portion of the concrete pad to be located waterward of the ordinary high water mark.
15. Location of this material must be placed as specified in the site plan.
16. All construction material must be stockpiled landward of the ordinary high water mark.
17. Operation of excavation equipment will be held to a minimum below the ordinary high water mark. Equipment may be operated only on dry land above the present level of the lake. Construction machinery may not be operated in the water.
18. The permittee shall maintain the structure or work authorized herein in a good and safe condition and in accordance with the plans and drawings attached hereto.
19. All construction will be done according to the specifications detailed in the attached design plan.
20. The disturbed portion of the lakebed shall be shaped to its original contour upon completion of the project.
21. Excavated material shall be sidecast to only one side of the trench.
22. Excavated material shall be replaced in the trench.
23. Excavated material not replaced shall be removed to an area above the ordinary high water mark and in a position such that it will not reenter the lake.

24. Waterline shall be anchored to the bed of the lake with a nontoxic type of weight.
25. The water intake shall be screened in a manner that would create approach velocities of not more than 0.10 feet per second and a maximum screen diameter of one-quarter inch.
26. All construction shall be completed in accordance with descriptions and methods provided unless otherwise specified. Any changes shall be approved in writing by the department prior to construction.
27. No water shall be diverted by the system until a valid water or appropriation permit is obtained from the Department of Water Resources.
28. As current EPA requirements dictate that disinfection and filtration systems be used for minimum treatment by surface water purveyors, the department recommends that small domestic surface water users do likewise.
29. An adequate supply of petroleum-absorbing products shall be on site in the event of a spill.
30. Upon transfer of this real property, you are required to inform this office of the subsequent name change.
