RE: EVIDENCE OF PRIORITY AND FIELD EXAM
Snake River Basin Claim No(s): 63-20369

Dear Mr. Krajnik,

I received notice of your new address recently from IDWR Employee, Steve Lester, whom you talked to on 8/10/2006. Attached is a letter I sent you 2/27/2006 regarding you SRBA claim referenced above. The mail was returned to us.

As the letter states, IDWR must have additional information regarding when the claimed water use developed. Also, a field exam is needed to verify the elements of the claimed water use.

Currently IDWR has a very short timeline in which to receive the priority information and conduct the exam. Please submit the priority information by September 8, 2006 and call me at (208) 334-2190 as soon as possible so that we can set up the field exam. If I do not get the requested information, I have no choice but to disallow this claim when making my recommendation to the SRBA Court.

Sincerely,

Vicky L. Music
Senior Water Resource Agent
Adjudication Bureau/ Western Region

Enclosures: Letter dated 2/27/2006 with enclosures

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

RE: EVIDENCE OF PRIORITY, FIELD EXAM -
Snake River Basin Adjudication Claim No(s): A63-20369

Dear BEN T KRAJNIK:

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated printout of the claim(s) for your reference. You indicated, when this claim was filed, that the water right(s) was based on a "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. This claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

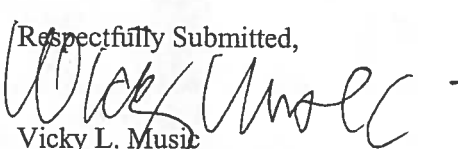

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of this priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

Lastly, it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. Please contact me at (208) 334-2190 by March 17, 2006 and provide a contact person and phone number so that one of our contractors, Ms. Sandy Hemenway, Ms. Merlaine Bishop or Mr. Burke Scholer can contact you within the next few weeks to schedule a field exam.

If I do not hear from you by March 17, 2006, this claim may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

Respectfully Submitted,

Vicky L. Music
Sr. Water Resource Agent
Adjudication Bureau

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

RE: EVIDENCE OF PRIORITY, FIELD EXAM -
Snake River Basin Adjudication Claim No(s): A63-20369

Dear CENTER POINTE PROPERTIES LLC:

In the past, BEN T KRAJNIK submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. You may be the owner of this water right claim. Enclosed is a computer generated printout of the claim(s) for your reference. BEN T KRAJNIK indicated, when this claim was filed, that the water right(s) was based on a "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed printout. This claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of this priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

Lastly, it is our goal to decree the historical water rights within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. Please contact me at (208) 334-2190 by March 17, 2006 and provide a contact person and phone number so that one of our contractors, Ms. Sandy Hemenway, Ms. Merlaine Bishop or Mr. Burke Scholer can contact you within the next few weeks to schedule a field exam.

If I do not hear from you by March 17, 2006, this claim may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

Respectfully Submitted,

Vicky L. Music
Sr. Water Resource Agent

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Water Works, Inc., to assist us with this task.

The purpose of this letter is to advise you that Water Works, Inc. might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Water Works, Inc. with access to your water diversion system so that their personnel can conduct this field examination. Water Works, Inc. will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. ~~Experience has shown that water users who~~ work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Water Works, Inc. to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
Western Regional Office

In Reference to Ben Krajnik
Dry Dicks Well on corner of
Amity Rd & Happy Valley Road in Nampa
Ida.

I talked to my father Jerry Krajnik
who owns property across Happy Valley
and he says the well was ~~built~~
drilled the same time as the well
on his place.

His father Fred Krajnik bought
his property in 1943 & my dad
Jerry Krajnik bought this property
in 1950. Both wells were there
then.

My dad is 81 & I don't know
of any other people around here
who know any more about this
property.

1/0.66 c.f.s.

I have 1/0 of this well with
Dry Dicks estate.

Ben T Krajnik

MEMORANDUM TO SUBCONTRACTOR

TO: DAN NELSON
FROM: VICKY L MUSIC, SR WATER RESOURCE AGENT, IDWR / WESTERN REGION
SUBJECT: 63-20369
DATE: 11/2/2006
CC: CLAIM FILE

I realize we are down to the wire so you will just have to let me know if you can do this exam. I just talked to him because we did not have a working phone # until this week when he submitted evidence of priority. He understands the importance of making himself available for this.

This is a beneficial use claim for 33 acres with a groundwater source. I am not sure what the site address is because he changed his address with us this summer. However, your contact is Ben Krajnik and he can be reached at 880-3539.

Please:

- 1 – verify the acres irrigated in 1987.
- 2 – GPS the point of diversion and located it on the 1987 aerial.
- 2 – conduct flow measurements or gather well information and calculate flow. Describe diversion and delivery system.
- 3- take pictures of pou, ditch and delivery system.
- 4 – label well, delivery system, etc. on an aerial.

Thanks.

VLM

MEMORANDUM

TO: ADJUDICATION FILES 63-20369

FROM: DANIEL A. NELSON

DATE: 11/10/06

SUBJECT: CLAIM FIELD EXAM NARRATIVE

On 11/7/2006 I visited the well site of the above claim. During the exam I discovered that most of the land associated with this claim had been sold, but the claimant informed me that he had withheld the water right from the sale of the property. Most of the ground was under construction, so it wasn't possible to determine the current irrigation system. The claimant did show me the well and the remaining ditches around the well that were used to irrigated the ground. The well is a pit well that diverted ground water into a nearby cement ditch. This ditch is also used to supply Nampa Meridian Irrigation District water. The Irrigation District's headgate was right next to the well, but the lateral has since been piped and buried.

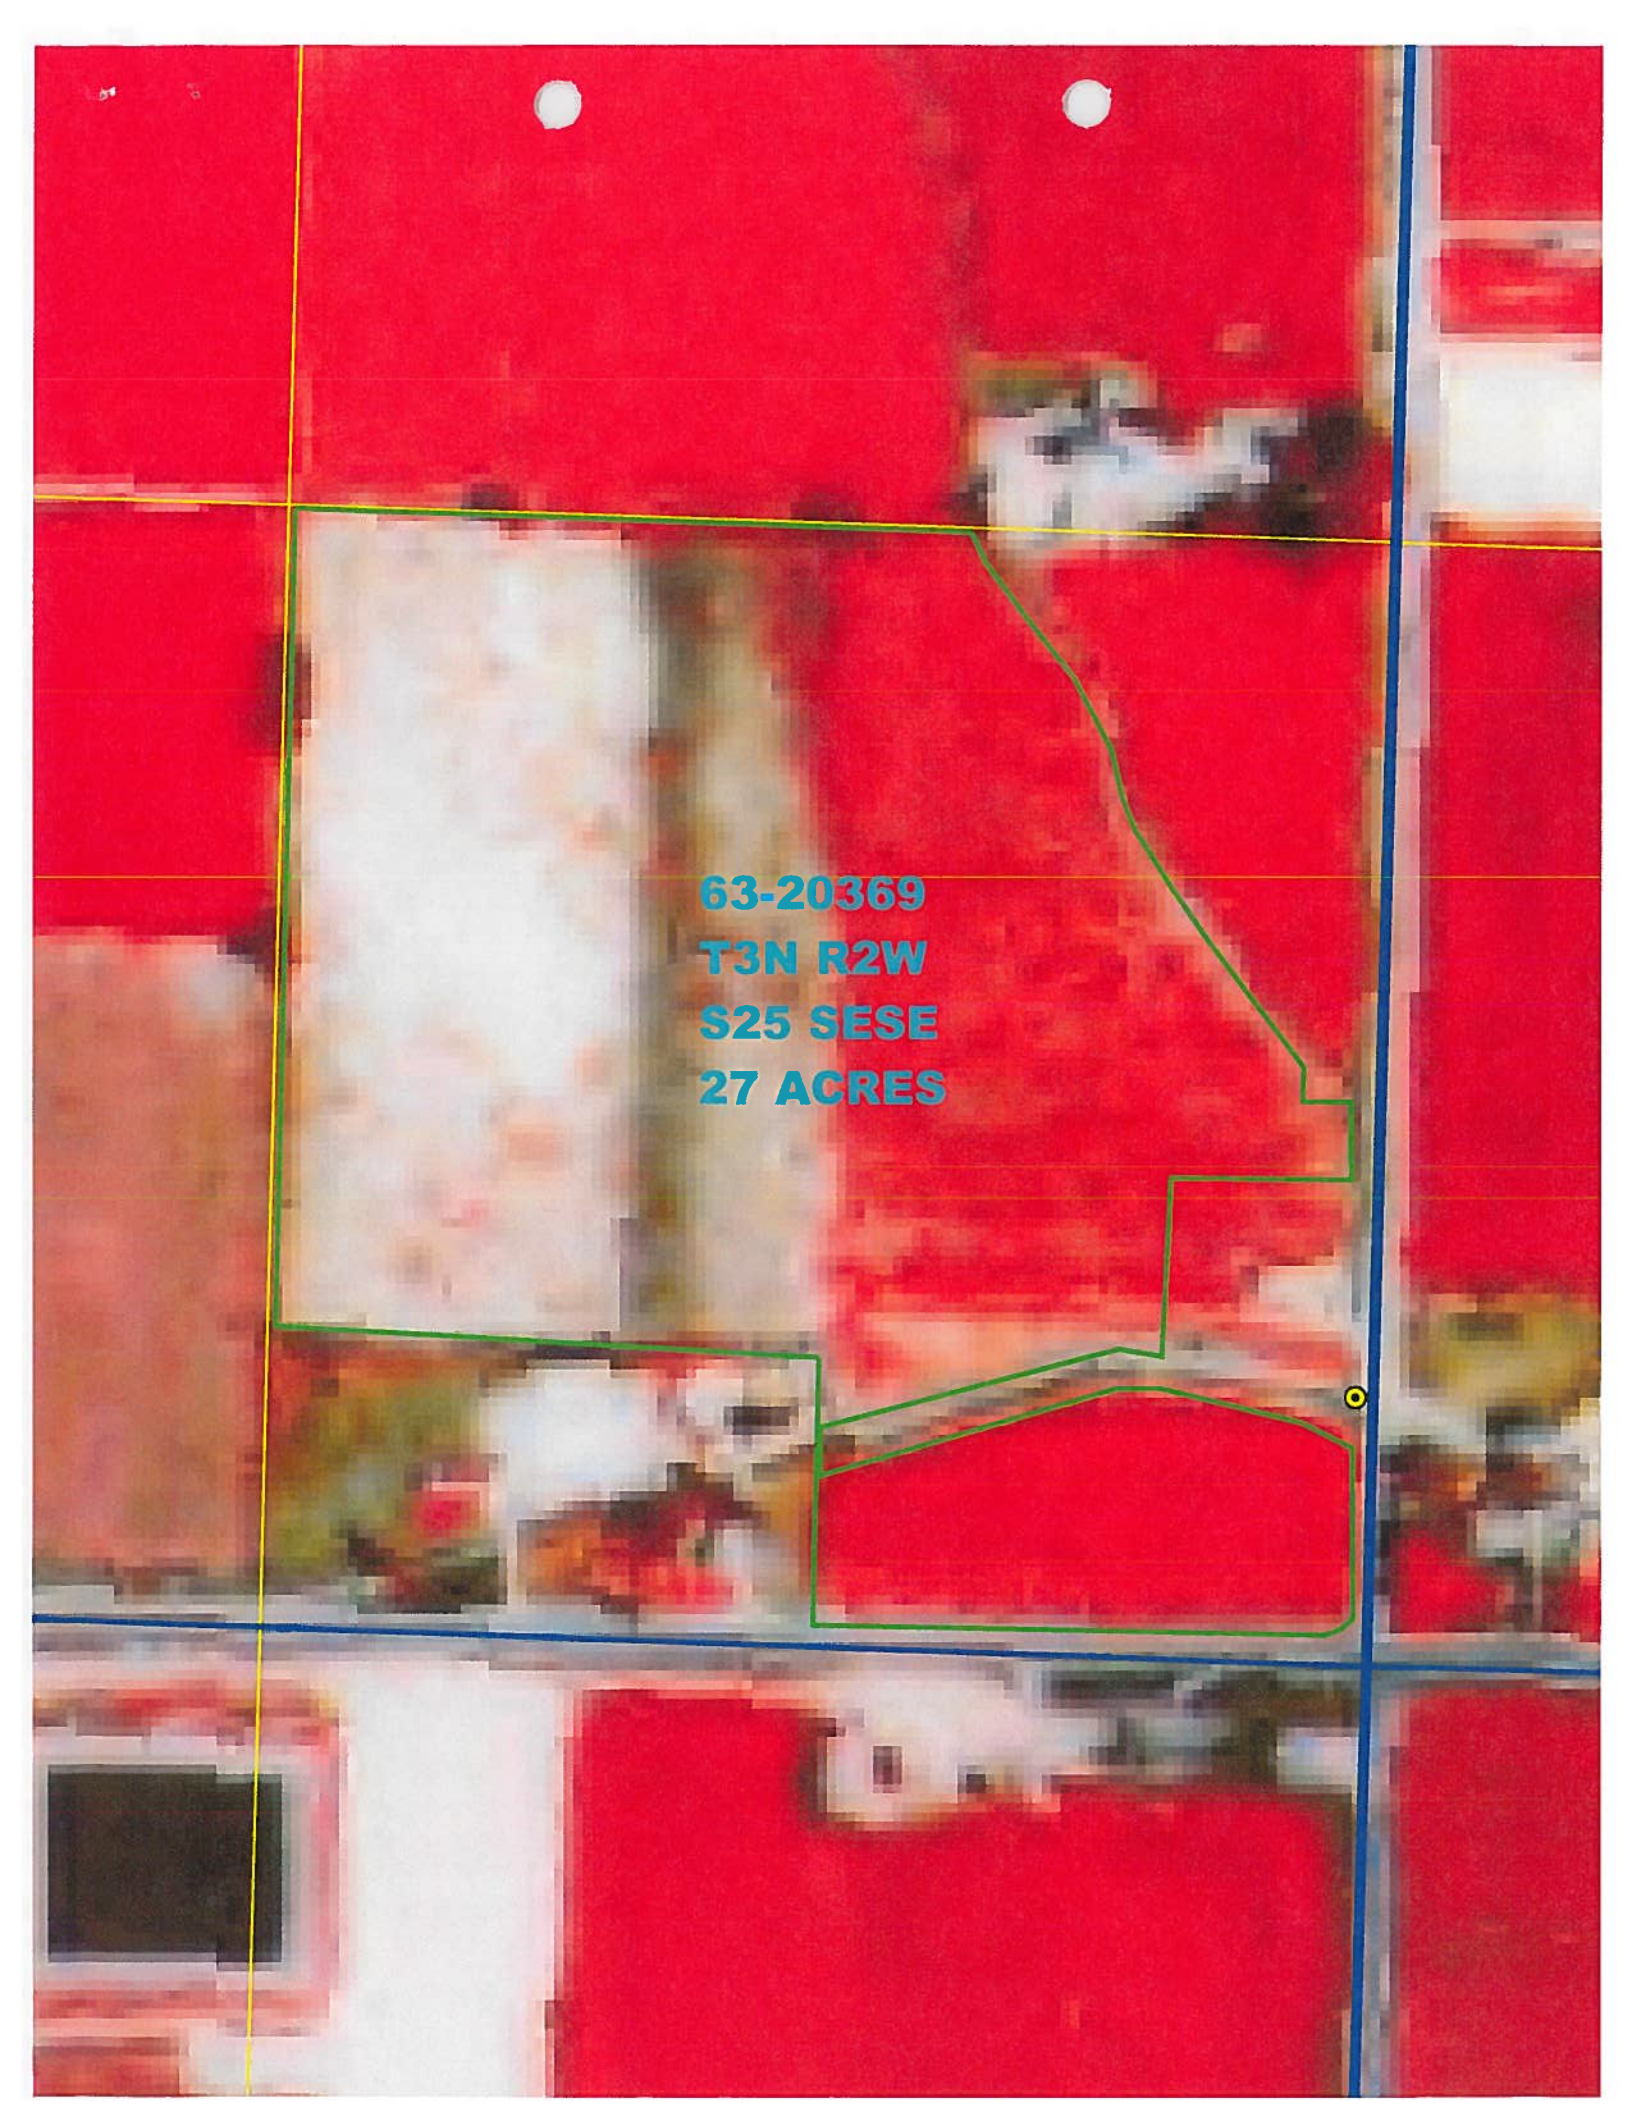

The 1987 and 2004 aerial photography clearly show the fields and ditches, so I was able to determine the land that was irrigated. There is a small piece of land that looks irrigated in the photos, that currently belongs to claimant's ex-wife that was irrigated at one time, but is no longer irrigated from the well.

I used a theoretical calculation to determine the capacity of the well, and discovered that the well is capable of supplying 1.10 cfs. However, only 27 acres were irrigated from the well, therefore, this claim should be reduced to an inch or 0.02 cfs per acre for a total of 0.54 cfs. This rate would allow the full diversion volume of 4.5 afa per acre for a total of 121.5 afa. I suggest that this claim be recommended as follows:

0.54 cfs and 121.5 afa for 27 acres of irrigation

The point of diversion and place of use are both in the SESE S25 T3N R2W

I would also add the condition that Nampa Meridian Irrigation District water is also used on this property.

An aerial photograph of a rural landscape, likely a farm or ranch. A large, irregularly shaped area is outlined in green. This area includes a large, light-colored, possibly overgrown field or pasture on the left, and a smaller, darker, more vegetated area on the right. A yellow dot is located on the right side of the green boundary, near the bottom. The background shows various other fields, some with different colors (red, brown, green), and some structures or roads are visible. Two punch holes are visible at the top of the page.

GROUNDWATER THEORETICAL ANALYSIS

FILE: 63-20369

DATE: 11-7-86

BY: Dan Nelson

THEORETICAL RATE OF FLOW: $Q = \frac{(8.8 \times (HP) \times (EFF.))}{TDH}$

Q = CFS

HP = Total Brake Horsepower of pumping plant (including booster)

Eff. = Pumping plant efficiency (assume 70% or 0.70)

TDH = Total dynamic head = [(LIFT) + (PSI X 2.31)]

LIFT = Depth to water in FEET from land surface to pumping water level

PSI = Pumping pressure measured in PSI near pump (if open discharge assume [0])

Q = $\frac{(8.8) \times (7.5 \text{ Hp}) \times (0.70)}{46.2} = 1.10 \text{ CFS}$

$[(16.5) + (11 \times 2.31)] = 41.91$

NOTES ON PUMP:

Motor Make, Serial or ID

Pump Make, Serial or ID, rating

REMARKS: I couldn't perform a lift measurement, but I did find a local well log showing a 20 FT static water level. The owner stated the water level was close to this amount. The well pump was located 13.5 FT deep in a well pit. I estimated the drawdown of 10 FT. So the lift would be 20 FT static + 10 FT drawdown - 13.5 FT pit depth = 16.5 F of lift. Pump lifted the water up 13.5 FT and then open discharge it would take 6psi to lift water 13.5 FT. $(13.5/2.31)$ There would also be approx. 5psi for the open discharge, so the pressure against the pump would be 11psi.

FILE NUMBER 63-4734

This is a photo of the well pit. All of the property irrigated by this well has been sold to other owners, but the claimant has said that he has withheld the water right in the sell of those lands. Therefore, most of the place of use is now under construction, and there was no place of use to photograph.

FIELD NOTES

ADDITIONAL INFORMATION NEEDED FOR IRRIGATION FIELD EXAMS

Field Examiners, please complete the following checklist. Mark "unknown" or N/A if information doesn't apply or information is unavailable.

IF CURRENT OWNER DOES NOT MATCH PROOF REPORT PLEASE GIVE NEW OWNER CHANGE OF OWNERSHIP FORM TO COMPLETE.

1.) Pump information:

Well or Diversion Identification No.*	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge Size
W1211	Marathon	7.5	6-338909-04	Beaver	934100

13ft 6" From pump.

2.) Lift (distance from pump to water) _____

3.) How was lift determined (well log, measurement, owner)? _____

4.) Pressure against pump (this is checked using the owner's psi gauge, your gauge, or an estimate by owner) _____

5.) Was a measurement made? _____ If no can a measurement be made at a latter time? _____

6.) What type of measurement device was used? _____

7.) Is there a pump curve available for pump? _____

8.) Please fill out the following:

Number of sprinklers _____

Sprinkler nozzle size _____

Number of Pivots (include gpm rating for each pivot) _____

9.) Please outline all acres irrigated on attached aerial photo. _____ DONE

10.) Please clearly mark all points of diversion on map and GPS. _____ DONE

11.) Please clearly mark all mainlines, ditches, and other conveyances.
_____ DONE

12.) Pictures taken of place of use and point of diversion. _____ DONE

13.) Please show where and how water from other sources are diverted into the irrigation system.
