Theoretical calculation

Subcontractor calculated theoretical flow but I do not have her calculation.

well log states SWL = 18"
no other well logs in the SW/4 sec 30

$$\frac{(8.8)(.7)(7.5 \text{ wpy})}{18' + (2.31)(25)} = \frac{46.2}{18 + 57.8} = \frac{46.2}{75.8} = .609 = .61$$

$$\frac{(8.8)(.7)(7.5)}{10' + 57.8} = \frac{46.2}{67.8} = .68 \text{ cfs}$$

$$\frac{(8.8)(.7)(7.5)}{10' + (2.31)(20)} = \frac{46.2}{10 + 46.2} = \frac{46.2}{56.2} = .82$$

Believe flow is somewhere between .61 & .82

Will recommend .8 cfs as claimed due to fact that this is a theoretical. .8 cfs/60 ac = .01 cfs/ac.

$$\begin{aligned} (.8)(1.9835)(260) &= 412.57 \text{ afa} \\ (40)(4.5) &= \underline{270 \text{ afa}} \end{aligned}$$

RE: AMENDED NOTICE OF CLAIM
Snake River Basin Claim No(s): 63-20371

Dear M. and Mrs. Krajnik,

Enclosed is the Amended Notice of Claim To A Water Right Acquired Under State Law that we discussed at the public meeting on October 18, 2006. You will note that under item no. 10, I increased the claimed acres from 40 to 60. I have also enclosed the aerial photo so you can see where I added the acres.

The quantity remains unchanged at 0.80 cfs because this is the maximum diversion rate theoretically possible for your pump and delivery system.

At the public meeting, you also asked that I check on water rights in your name in the SENE Section 25 and the SWSW Section 30, both in T3N R1W. I did not find any record of water rights in your name in these areas.

Please sign the amended claim, have it notarized and return it in the enclosed envelope as soon as is reasonably possible so that we can correct your recommendation before it is filed with the SRBA Court in a few weeks. You may call me at (208) 334-2190 if you have questions regarding this process.

Sincerely,

Vicky L. Music
Senior Water Resource Agent

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): A63-20371

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a printout of the claim(s) for your reference only. You indicated, when these claims were filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. This claim(s) has not been confirmed by a previous filing with the Idaho Department of Water Resources (IDWR) since there is no decree, license, or permit on file to verify the use of this water. For this reason, IDWR is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of this priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. Please submit the required evidence supporting the priority date(s) by March 1, 2006.

Please let me know if have questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Sincerely,

Vicky L. Music
Senior Water Resource Agent

Enclosures: Notice of claim report for A63-20371 and "Evidence of Priority" brochure

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication, Basin 63

Dear Claimant:

As you may be aware, the Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Boise River Basin (Basin 63). This investigation is a major effort, and IDWR has hired a contractor, Water Works, Inc., to assist us with this task.

The purpose of this letter is to advise you that Water Works, Inc. might be contacting you to conduct a field investigation of your water use. This investigation is meant to provide important information to the IDWR Senior Water Resource Agent who will be making a recommendation for your water rights. Accordingly, we request that you provide Water Works, Inc. with access to your water diversion system so that their personnel can conduct this field examination. Water Works, Inc. will be gathering information on the rate of flow, diversion location and place of use of your water rights, and will be reporting this information to IDWR.

If you have sold your property in the Boise River Basin, we request that you forward this letter to the purchaser, so that the purchaser can report the new name and address to our office. If you are unable to forward this letter, please send any information regarding a new owner to our Western Regional Office located at 2735 Airport Way, Boise, 83705, (208) 334-2190.

The process of adjudicating your water rights is straightforward for most people, resulting in the issuance of decreed water rights on your property. ~~Experience has shown that water users who~~ work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Water Works, Inc. to ensure that the results accurately reflect your water uses.

Sincerely,

Jan Shurte
Adjudication Section Supervisor
Western Regional Office

Claim Report
No. A 63-20371

Dear Sir,

In reference to our water right No. 63-203-71, my father in law Fred Krajnik purchased this property located at Nampa, Idaho 037 01W 30 on December 13, 1943. The well was on the property at that time. Jerry purchased this ~~par~~ property on January 19, 1950 from his father Fred Krajnik. My husband is eighty one years old, and there isn't any one in the uacinity of that age or older who would know about the water rights or wells when my father-in-law or my husband bought this land.

Legal Description 03N 01W 30 SE NW SW

Desc of Diversion W well and pump.

Site Tag # A0002011

GPS File Name 202

Motor Make Baldor model L1210T, s/n 1

Pump Make Sterling model 9390 s/n 176

Horsepower 7.5

Pressure gage 25 psi

pump bowl or static pump

Depth level 10 Ft.

dyn. pump level 0 Ft.

POD Remarks:

*default psi

Pressure gage at sprinkler 0 psi

Bucket Measurment (gps) 0

Calc Method: Theoretical

Flow (cfs) 0.80
