RE: Amended SRBA Recommendations for 67-467A, B, C and 67-468A, B, C

Dear Claimants:

This letter is to inform you that the recommendations for the split portions of 67-467 and 67-468 have been amended based on new evidence. Through the Notice of Error (NOE) process, 1919 tax assessment records were submitted as additional evidence of which ground was the historically irrigated under rights 67-467 and 67-468.

The recommendations for this right have been adjusted three times. The first time the decreed rights were distributed based on what was interpreted to be the original irrigated ground.

There was claimant disagreement with this distribution based on this procedure so lacking better evidence, I recommended the split proportions based on water master records, knowing that there was evidence to indicate that the water master records were wrong for rights 67-467 and 67-468 as they show delivery of more water than was originally decreed.

After the preliminary mailing was sent out, Mr. Dunham provided 1919 tax assessment documents that showed how much irrigated ground existed in each of the decreed 40 acre tracts. The actual acreage shown in the 1919 tax roll was 140 acres and a total decreed acreage between the two rights was 131.2 acres.

By taking the number of acres in each 40 and dividing it by the total 140 acres, we came up with a percentage of irrigated ground per QQ for the decreed POU. That percentage was then used to calculate how much each split portion had from each decreed right.

The 1919 tax assessment roll appears to be the most reliable date I have currently. If you disagree with the recommendations for your water rights, you will have a chance to file an objection and be heard by the SRBA court.

Respectfully submitted,

Craig L. Saxton

Remarks:Comments:

1. csaxton 12/27/2005 Recommendation

Comment: Recommend as flood water to bring use up to 1 full inch per acre when used in combination with decreed water.

2. csaxton 11/26/2006 POU

Comment: Evidence was provide supporting additional irrigated acreage than was originally recommended.

3. csaxton 12/14/2006 NOE

Comment: Recommendation amended per NOE process. After the preliminary mailing was sent out, Mr. Dunham provided 1919 tax assessment documents that showed how much irrigated ground there was in each of the the decreed 40 acre tracts. The actual acreage shown in the 1919 tax roll was 140 acres and a total of 131.2 acres was decreed under the two above mentioned rights.

By taking the number of acres in each 40 and dividing it by the total 140 acres, we came up with a percentage of irrigated ground per QQ for the decreed POU. That percentage was then used to calculate how much each claimant had from each decreed right.

Thus, this being the flood water right was adjusted with respect to the decreed rights this overlaps being adjusted.

RE: Snake River Basin Adjudication (SRBA) claim 67-467A, 67-468A, and 67-4090.

Dear Mr. and Ms. Carr,

I have been reviewing your SRBA claims and the information you provided as evidence of priority for claim 67-4090. There are several issues that need to be addressed.

67-4090:

The deed trail you supplied does not evidence a historical water right in the SWSE of Section 15 as claimed by 67-4090 (this is the southern 40 acres that we spoke about not having decreed water). For your convenience, I am enclosing copies of the deeds you sent with notes on them. Of the deeds that mention the SWSE of Section 15, none of them mention specific water use on the property. I do not have evidence of when water was put to use on that piece of property.

When we met in my office on 11-3-2003, I told you that I felt that I could support a priority date of 12-31-1934 as that is the priority date of a license held by the Little Weiser Irrigation District. However, with closer review, that license excludes the SWSE of section 15 as a licensed place of use.

You have told me that you paid Little Weiser Irrigation District for something. My notes indicate that at the time you did not know if the payment was for deliver for a private water right, or for delivery of water held by the Little Weiser Irrigation District that is being used on your property. Based on my findings from reviewing the historical records and the documentation you submitted, it appears that the water being delivered to the SWSE of section 15 is water held by the Little Weiser Irrigation District as I can see no evidence of establishment of a private water right on that parcel.

From: Craig L. Saxton

RE: Preliminary recommendation for SRBA claims 67-467A, 67-468A, and 67-4090

I met with Farrell and Joan Carr on 1-6-06 to discuss the preliminary recommendations I made on the above listed claims. There were three main points of contention.

- 1) No evidence of priority was submitted for irrigation of ground located in the SWSE of section 15. Mr. and Ms. Carr brought in copies of 1915 tax notices that reference 25 acres of agricultural ground in the SWSE. Due to Muir vs. Allison, the best priority I can recommend is 5-10-1918. Mr. Carr drew in the irrigated POU and I agree with his findings. I will recommend flood water on the SWSE.
- 2) POD recommended under 67-467A and 67-4090 put the POD to the Steward Ditch. According to the claimant, there is another POD downstream from the Steward Ditch POD and is located in the NWSE of S.15. The claimant drew in the location of the POD on a map. I do not know when this POD was put in place and am not totally sure if it is from the main source or from a ditch. The map provided by the claimant in 1989 does not show the additional "POD". The POD in the NWSE will not be recommended, but **by this memo, there could be another active POD that might require a transfer.**
- 3) Add POD in Section 36 for 67-467A and add the Section 15 POD to 67-468A per the addition of the decreed acres recommended SW of the Little Weiser River. Through historical irrigation practices, I believe both PODs are used to divert both 67-467A and 67-468A and the acreage that each one is used on within the 17.2 ac recommended, is not distinguishable.

Basically, the proportionate share of water that is recommended for 67-367A and 67-368A, cannot be put on either the north side or the south side of the creek. Simply, the numbers don't match. Example: there are 8.3 irrigated acres on the south side of the Little Weiser. But the claimants proportionate share is 12 acres of water. There are 8.9 irrigated acres on the north side of the Little Weiser, but the claimants proportionate share is 5.2 acres. **In order for this water to irrigate what it has been irrigating, both rights are used on both pieces of property. That requires both POD's to be on each right.**

- 4) I originally thought the decreed POU for 67-467 and 67-468 was limited to ground located NE of the Little Weiser River. However, 67-467 and 67-468 were delivered from two different ditches per the decree. Mr. Carr stated that one of those ditches put water on his property SW of the Little Weiser River. I do not have any information to show otherwise. In addition, Water Master records show that delivery for Mr. Carr for portions of 67-467 and 67-468 come from two different diversion points, yet the same source.

Based on this new information, I increased the acreage recommended under the decreed rights 67-467 and 67-468

RE: Snake River Basin Adjudication (SRBA) claim 67-467A, 67-468A, and 67-4090.

Dear Mr. and Ms. Carr,

I have been reviewing your SRBA claims and the information you provided as evidence of priority for claim 67-4090. There are several issues that need to be addressed.

67-4090:

The deed trail you supplied does not evidence a historical water right in the SWSE of Section 15 as claimed by 67-4090 (this is the southern 40 acres that we spoke about not having decreed water). For your convenience, I am enclosing copies of the deeds you sent with notes on them. Of the deeds that mention the SWSE of Section 15, none of them mention specific water use on the property. I do not have evidence of when water was put to use on that piece of property.

When we met in my office on 11-3-2003, I told you that I felt that I could support a priority date of 12-31-1934 as that is the priority date of a license held by the Little Weiser Irrigation District. However, with closer review, that license excludes the SWSE of section 15 as a licensed place of use.

You have told me that you paid Little Weiser Irrigation District for something. My notes indicate that at the time you did not know if the payment was for deliver for a private water right, or for delivery of water held by the Little Weiser Irrigation District that is being used on your property. Based on my findings from reviewing the historical records and the documentation you submitted, it appears that the water being delivered to the SWSE of section 15 is water held by the Little Weiser Irrigation District as I can see no evidence of establishment of a private water right on that parcel.

At this time, it appears that irrigation water will be recommended on your property in the name of Little Weiser Irrigation District.

67-467A and 67-468A:

In our meeting we spoke about the Muir Vs. Allison Decreed water that is applicable to the northern 40 acres (NWSE section 15). Both of these original rights, 67-467 and 67-468 have been claimed in portions. The original acreage decreed under both of these rights is 131.2 acres. Using the information available, the original irrigated land established (map enclosed). It appears that you own 8.2 acres of the original ground that was irrigated under rights 67-467 and 67-468.

At this time I plan to recommend 8.2 acres at one full inch per acre under SRBA claims 67-467A, 67-468A, and 67-4090. Water rights for the additional irrigated land will be recommended under the name of Little Weiser Irrigation District.

I know this is a lot of information at once and much different than what you claimed and what we spoke about previously. Please feel free to contact me if you have any questions.

Respectfully submitted,

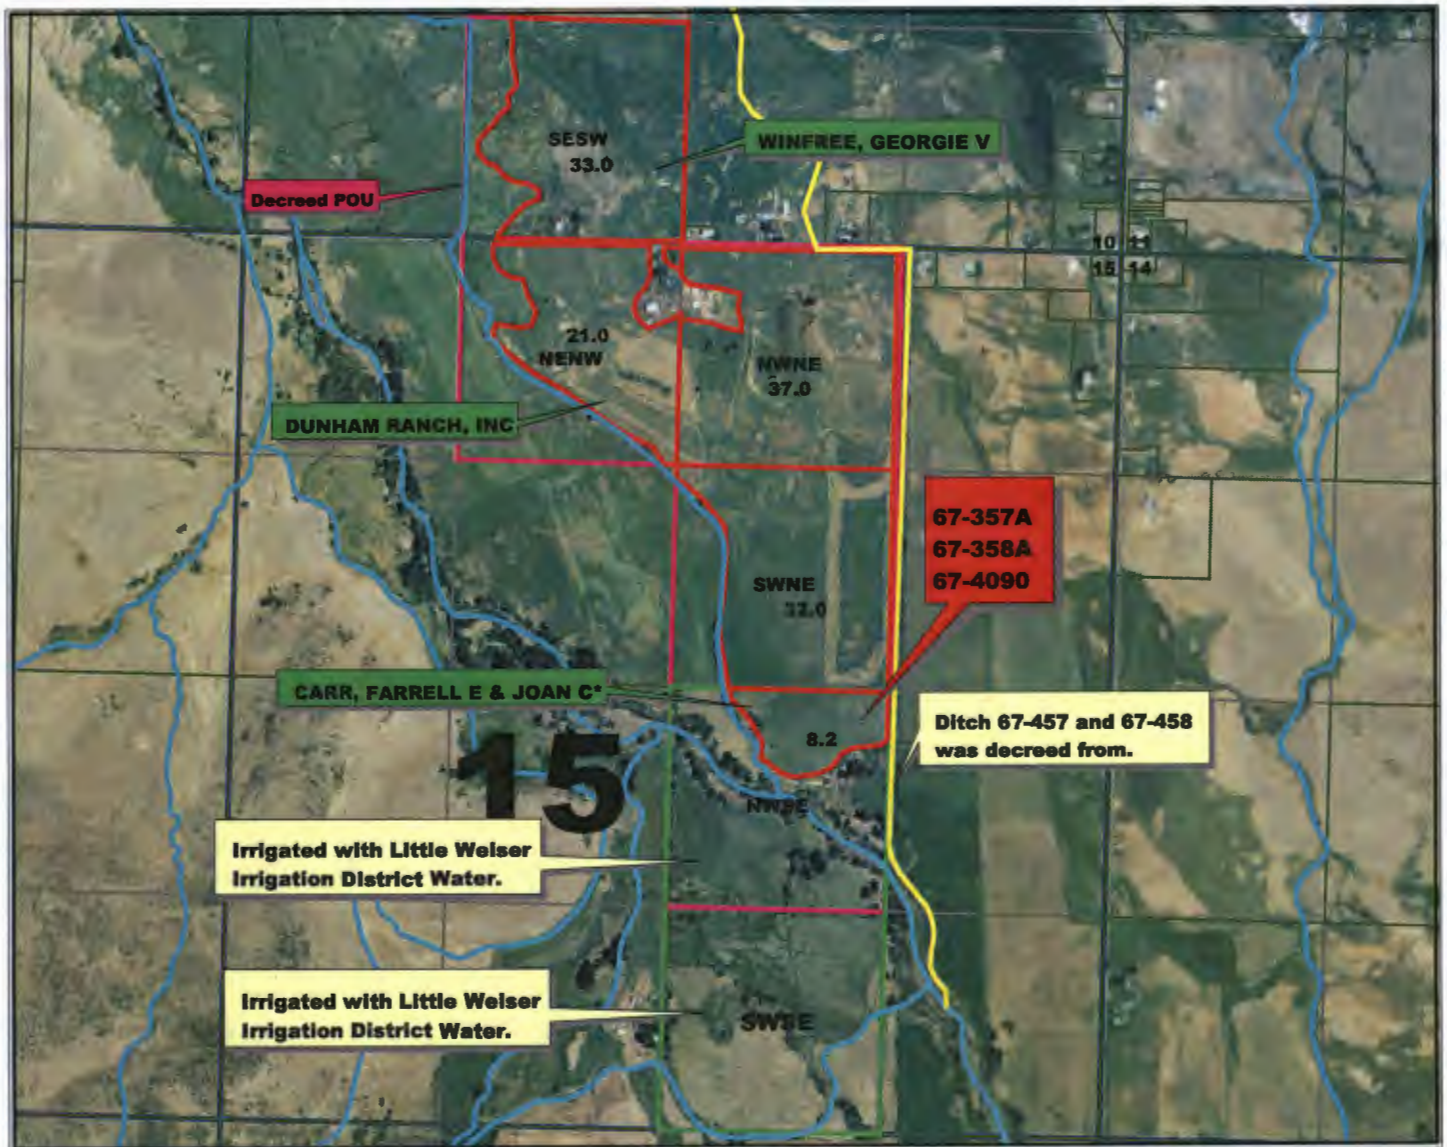

Craig L. Saxton

The United States of America

TO ALL TO WHOM THESE PRESENTS SHALL COME, GREETING:

Certificate No. 485

WHEREAS, William Harp of Washington County, Idaho Territory has deposited in the GENERAL LAND OFFICE of the United States a Certificate of the Register of the LAND OFFICE at Boise, Idaho, whereby it appears that full payment has been made by the said William Harp according to the provisions of the Act of Congress of the 24th of April, 1820, entitled "An Act making further provision for the sale of the Public Lands," and the Acts supplemental thereto, for the

West half of the North west quarter and the South east quarter of the North west quarter of Section fifteen in Township fourteen North of Range one West of Boise Meridian in Idaho Territory, containing one hundred and twenty acres,

*not Applicable
to Claimants
Property*

according to the Official Plat of the Survey of the said lands, returned to the GENERAL LAND OFFICE by the Surveyor General, which said Tract has been purchased by the said William Harp

NOW KNOW YE, That the UNITED STATES OF AMERICA, in consideration of the premises, and in conformity with the several Acts of Congress in such case made and provided, HAVE GIVEN AND GRANTED, and by these presents DO GIVE AND GRANT, unto the said William Harp and to his heirs, the said Tract above described;

TO HAVE AND TO HOLD the same, together with all the rights, privileges, immunities, and appurtenances, of whatsoever nature, thereunto belonging, unto the said William Harp and to his heirs and assigns forever; subject to any vested and accrued water rights for mining, agricultural, manufacturing, or other purposes, and rights to ditches and reservoirs used in connection with such water rights as may be recognized and acknowledged by the local customs, laws and decisions of courts, and also subject to the right of the proprietor of a vein or lode to extract and remove his ore therefrom, should the same be found to penetrate or intersect the premises hereby granted, as provided by law; and there is reserved from the lands hereby granted, a right of way thereon for ditches or canals constructed by the authority of the United States.

In testimony whereof I, Chester A Arthur President of the United States of America, have caused these letters to be made Patent, and the Seal of the General Land Office to be hereunto affixed.

CONVERSATIONAL MEMORANDUM

Date: November 30, 2005

To: File 67-4090

From: Craig L. Saxton

Subject: Walk in meeting

Farrell Carr dropped in today to discuss water right 67-4090.

He supplied me with a document that lists Little Weiser Water Rights with two columns: one of deliver at 5/8 inches per acre and one at 3/8 inches per acre. There is no date on the sheet and I don't know where it came from.

My initial assumption was that this was evidence that the flood water, or 3/8 inches on top of the decreed water was being delivered. But after reviewing it closer, it appears to be related to the May 9, 1918 decision on Muir vs. Allison that said that the duty of water was 5/8 inches per acre and then when water became scarce, it is to be curtailed to 3/8 inches per acre. This decision was over ruled:

a. *Muir et al. v. Allison et al.* (Washington County, June 20, 1921) **67 A**

- District Court Decision on Remand from Idaho Supreme Court
- Decision on remand sets duty of water at **five-eighths of an inch per acre** and establishes rule of priority whereby junior users are curtailed when senior users are not receiving five-eighths of an inch per acre.

So it does not appear that the document supplied shows evidence of delivery of the 3/8 inches. Even if it did, we would be limited to one day after the decree for a priority date. But what I think Mr. Carr was trying to support, was irrigation of the lands not covered by claim 67-467A and 67-467B. At this time, we don't have anything supporting that.

Referring back to the November 3, 2003 memo, I stated that I thought the priority date of 12-31-1934 listed in 67-2385 could be supported as the irrigation district license establishes that water was used on the property at that time. However, looking closer at the files, on the SRBA claim 67-2385 is claimed on the POU in question. The license does not list the POU in question so I don't know if I can support that priority date at this time.

I need to look into it further.

CONVERSATIONAL MEMORANDUM

Date: November 3, 2005

To: File 67-4090

From: Craig L. Saxton

Subject: Walk-in meeting with Farrell and Joan Carr

Farrell and Joan Carr came in with a letter requesting evidence of priority and change in address. We got the change of address form signed.

The evidence of priority is for statutory claim 67-4090. They do have two decreed rights on there property, but they don't overlap directly with the stat claim. The Claimants had a deed trail but nothing directly speaks of flood water. We found that Little Weiser Irrigation District claims a license that overlaps the claimed POU for 67-4090. I told the Carrs that we could support a priority date of the license indicating that the ditches were in place at the time. He said that would be sufficient.

There is still some question in my mind whether the water right should be recommended in Little Weiser irrigation districts name. But my notes indicate that live flow rights are held by the individual. The claimant did say that he paid Little Weiser Irrigation district, but could not distinguish whether the payment was for ditch maintenance or for the actual use of the water.

We also discussed how the decreed rights are over-claimed and that they will most likely be adjusted.

Little Weiser Water Rights.

AMENDED

CLAIM TO A WATER RIGHT AMENDED

AMENDED

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that EDWARD C. GHEEN

(Name of Claimant)

P.O. Box 27, Indian Valley, ID 83632

Telephone No. 334-9292

(Mailing Address)

(Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) 3/1/1880

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Little Weiser River

tributary to Weiser River

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
