Comments:

1. mvanbussum 2/13/2006 Priority Date

Comment: This is a split of statutory claim 67-4098. An affidavit in the original file from Nate and Edith Morris stating they owned and irrigated this property in 1930 is in the backfile for 67-4098.

2. mvanbussum 2/16/2006 Basis

Comment: Evidence seems to point to this statutory claim being filed in the SRBA to replace license 67-7620. There is no SRBA claim on 67-7620. We have evidence of priority on this statutory claim dating to 1930. At the time the SRBA was in place, Huey held both the statutory claim and the license.

3. mvanbussum 2/16/2006 Source

Comment: We have evidence of priority in the backfile for 67-4098 that supports the Little Weiser River as the source. If we recommend this split of 67-4098 based on license 67-7620, we will recommend the same acreage as indicated in the field exam for 67-7620.

4. mvanbussum 2/16/2006 POU

Comment: Statutory claim claims same source as license. Field examiner for 67-7620 said the southern acres could not be irrigated from the Little Weiser River.

5. mvanbussum 6/14/2006 POU

Comment: Recommended 17 acres in NESW and NWSW. Based on imagery and field exam report from 67-7620, it appears this was the intention.

6. mvanbussum 6/14/2006 Quantity

Comment: Recommended quantity for stockwater as claimed.

RE: SRBA claims 67-4098B, 67-4098C, and 67-4098E

Dear Claimants:

The Idaho Department of Water Resources is currently in the process of reviewing Snake River Basin Adjudication (SRBA) claims filed in basin 67. In my review, I have noticed a few discrepancies in your claim files and would like to address them here.

First, there is a pre-existing Water Right License appurtenant to your properties. License 67-7620 was originally licensed to your combined properties for 36.5 acres and a diversion rate of 0.70 cfs. Upon further examination, it appears SRBA claim 67-4098 was claimed with the intention of duplicating 67-7620 and acquiring an earlier priority date. Each claim mentioned above is entitled to additional acreage and diversion rate under 67-7620.

In order for your claim to be eligible for the additional acreage and diversion rate, you will need to amend your claim. I have enclosed an amended claim for your split of the claim (B, C, D or E) showing the additional acreage and diversion rate. I have also enclosed a map layout showing the acreage covered by 67-7620, which would be included in the claim if you amend it. If you choose to amend your claim, please look over it closely, make any necessary changes, sign it, have it notarized and return it to me at this office.

Please submit response to the items above and the required evidence supporting the priority date by the above date. PLEASE NOTE: Without the requested information,

IDWR will recommend the SRBA Court decree the claims at the reduced acreage and diversion rate.

I realize that this is a lot of information all at once. Please feel free to contact me at (208) 287-4907 with any questions.

Respectfully submitted,

MEMORANDUM

TO: File

FROM: Monica Van Bussum

DATE: February 13, 2006

RE: Current understanding of claims split from 67-4098

This memo serves as a record of our current understanding regarding Adjudication claims on Statutory Claim 67-4098 and how license 67-7620 factors in.

First, it appears 67-4098 was claimed with the intent to be the same ground as 67-7620 based on the source (Little Weiser River). During the licensing exam of 67-7620, the examiner found the southern acres of this property could not be irrigated from the Little Weiser because they were on a hill. The field examiner did not state if those acres were irrigated from another source. Examiner said it was from a small runoff stream that only runs for two months.

Further inspection of available imagery suggests the southern acres, if they are irrigated, are irrigated from another source. A ditch is visible running along the lower portion of the hill and the northern acres under 67-7620 could be irrigated from that ditch. The southern acres would be difficult to irrigate from that ditch because they are uphill. Imagery also shows several draws along the hillslope above the southern fields that could be channeled to irrigate those acres. However, a ditch is not visible and we have no evidence of a ditch or of those southern acres being irrigated.

Field exams were conducted on several of the 67-4098 splits during summer 2005. It appears the field examiner listed acres irrigated under 67-7620 as opposed to the southern acres the 67-7620 field exam said could not be irrigated from the Little Weiser River. This may support 67-4098 being claimed for some of the same acres licensed under 67-7620.

In summation, we see a water right from the Little Weiser River (67-7620), but have no evidence for a water right from another source unless additional evidence is provided by the claimant.

At this time, we have the following options available:

Contact claimants for splits of 67-4098 and ask if they irrigate the acres claimed under 67-4098 from a source other than the Little Weiser River.

- If they insist they irrigate from the Little Weiser, then we might be able to amend the claims to be based on 67-7620 and recommend them that way. Since 67-4098 is claimed with a priority date of 1930 (affidavit is in the backfile for the statutory claim) and is for fewer acres than licensed in 67-7620, it could be 67-7620 was an enlargement on the original statutory right and 67-4098 is for part of the northern acres and all the acreage is irrigated with Little Weiser River water.
- If they irrigate from a different source, we may need to do another field exam and we will need evidence of priority.

E. NARRATIVE/REMARKS/COMMENTS

THIS SYSTEM USES A DIVERSION FROM THE LITTLE WISER RIVER. THE SYSTEM DIVERTS FROM THE RIVER : IRRIGATES THROUGH CUTS IN THE DITCH. ONLY A PORTION OF THE CUNDERS AVERAGE IS IRRIGATED BY THIS SYSTEM BECAUSE A LARGE OF THE FIELDS LIE ON A HILL ABOVE THE DITCH. DURING THE EXAM I HAD THE OWNER PET THE IRRIGATED FIELDS : THE DITCH SYSTEM. WE ALSO TOOK MEASUREMENTS FROM DITCHES THAT WERE NOT ALREADY DIVERTING.

NOTE: The head box was WASHED OUT AT THE TIME OF THE EXAM, SO THERE WERE NO LOCKING HEADGATE TO CONTROL INFLOW. PERHAPS A RETURN TRIP IS NECESSARY, TO RECEIVE PROPER MEASUREMENTS FROM A CONTINUED SYSTEM.

* THE OVERLAP ARE FROM DIFFERENT SOURCES. HUEY 67-04818 IS USED TO IRRIGATE DIFFERENT LANDS - "FIELDS ON THE HILL" : IS A RUNOFF STREAM THAT LASTS ONLY 20 MINUTES.

Re: Snake River Basin Adjudication (SRBA)
Water Right Recommendation #67-4098C

Dear Ms. Zacharin,

I have reviewed the inquiry you made last month about 67-7620 as a part of your land with the water right referenced above. You were responding to an IDWR letter dated July 16, 2008. The Department will cease processing a change in ownership relative to part of 67-7620, because you have communicated you have no right, title, or interest in any part of 67-7620, and you believe 67-4098C is the only water right from the Little Weiser River for your property.

Thank you for responding quickly to our letter. I appreciated the opportunity to talk to you about your water rights. The Court has held initial hearings on the contested water rights in the Weiser basin. I would anticipate you should receive a decree of water right 67-4098C in the next couple of months.

Please feel free to contact me again should you have further questions.

Sincerely,

Donald V. Shaff, MPA
Adjudication Bureau Chief

Michael and Linda,

In March of 2006 you submitted a Change of Ownership form. First of all, I would like to apologize that this was not taken care of sooner. It has recently come to my desk and I need more information before I can proceed.

This change of ownership will require a split of water right 67-7620 since you don't own all of the property covered by this water right. The fee to split a water right is \$100.00 and we cannot proceed without the fee.

I am also unsure of where this water right is being used. I have enclosed a map with aerial photography of the area and I would like to have you draw on the map where this water is being used on your property.

Please return the map and the fee within 30 days if possible. If you can't do it within that time frame, please call me and let me know when to expect the requested information and fee.

Sincerely,

Sandy Egbert

Remarks:Comments:

1. mvanbussum 2/13/2006 Priority Date

Comment: This is a split of statutory claim 67-4098. An affidavit in the original file from Nate and Edith Morris stating they owned and irrigated this property in 1930 is in the backfile for 67-4098.

2. mvanbussum 2/16/2006 Basis

Comment: Evidence seems to point to this statutory claim being filed in the SRBA to replace license 67-7620. There is no SRBA claim on 67-7620. We have evidence of priority on this statutory claim dating to 1930. At the time the SRBA was in place, Huey held both the statutory claim and the license.

3. mvanbussum 2/16/2006 Source

Comment: We have evidence of priority in the backfile for 67-4098 that supports the Little Weiser River as the source. If we recommend this split of 67-4098 based on license 67-7620, we will recommend the same acreage as indicated in the field exam for 67-7620.

4. mvanbussum 2/16/2006 POU

Comment: Statutory claim claims same source as license. Field examiner for 67-7620 said the southern acres could not be irrigated from the Little Weiser River.

5. mvanbussum 6/14/2006 POU

Comment: Recommended 17 acres in NESW and NWSW. Based on imagery and field exam report from 67-7620, it appears this was the intention.

6. mvanbussum 6/14/2006 Quantity

Comment: Recommended quantity for stockwater as claimed.

Re: Snake River Basin Adjudication (SRBA)
Water Right Recommendation #67-4098C

Dear Ms. Zacharin,

I have reviewed the inquiry you made last month about 67-7620 as a part of your land with the water right referenced above. You were responding to an IDWR letter dated July 16, 2008. The Department will cease processing a change in ownership relative to part of 67-7620, because you have communicated you have no right, title, or interest in any part of 67-7620, and you believe 67-4098C is the only water right from the Little Weiser River for your property.

Thank you for responding quickly to our letter. I appreciated the opportunity to talk to you about your water rights. The Court has held initial hearings on the contested water rights in the Weiser basin. I would anticipate you should receive a decree of water right 67-4098C in the next couple of months.

Please feel free to contact me again should you have further questions.

Sincerely,

Donald V. Shaft, MPA
Adjudication Bureau Chief

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

**INSTRUCTIONS FOR FILING
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. All claimants and owners of water rights are required to notify the Department of Water Resources (IDWR) of any change in mailing address or change in ownership of all or part of a water right. In addition, all purchasers of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

Effective July 1, 2000, the Idaho Legislature amended Section 42-248, Idaho Code to include a provision for fees to file a Notice of Change in Water Right Ownership. Please see details at Item 8, below, to determine if fees are required for your filing.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter the number(s) at Item 1. Corresponding water right and adjudication claim numbers should be listed next to each other on the form. You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be "split" to provide you your share of each right. Indicate if a split is required by checking in the space provided next to each water right.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, where the water rights are held by the organization, please do not use this form to record a change. You may need to contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner/claimant(s) of the water right(s) at Item 3.
4. The name, mailing address, and telephone numbers of the new owner/claimant(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or", or "and/or." If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign; however, only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.

6. You may have purchased only a portion of the water right(s) held by the seller. If this change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. For each water right requiring a split between owners, fill in the appropriate spaces in the box(es) at **Item 6**. Copy the page as many times as necessary to fully describe each water right after the change. Include documentation as necessary to describe nonstandard agreements or arrangements regarding division of the water right(s). **If the water right(s) will not be split, skip Item 6 and go to Item 7.**
7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. If an "and" connector is used at **Item 4**, all parties must sign this form. If an "and/or" or "or" connector is used, all parties may sign; however, only one of the named parties is required to sign. If someone other than the owner signs the notice, evidence of authority to sign for the owner must be attached. If the new owner is a corporation or other organization, the person signing the notice must be an officer of the corporation or otherwise have authority to sign for the organization and must include their title with the signature.
8. The Legislature has waived the fee to file a Notice of Change in Water Right Ownership for any water right pending in a general water right adjudication such as the Snake River Basin Adjudication. This waiver ends when a partial decree is issued for the water right that has been claimed. For water rights not pending in a general adjudication, the filing fee is \$25 per water right, except for those water rights which will be divided as a result of the change in ownership. The filing fee for division of a water right is \$100 per water right to be divided. When complete, you should retain a copy and return the original form to the IDWR office nearest you:

Re: Notice of Claim to a Water Right No. 67-4098C

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflect the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a final determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed information, please feel free to contact this office.

Sincerely,

Dear Harold & Rhonda,

We have received and processed the Change of Ownership form submitted on the Original Notice of Claim to a Water Right Number as referenced above. This change of ownership required a split of this original claim resulting in the renumbering of the original claim by adding alpha suffixes to represent each split. The new Notice of Claim to a Water Right Number for your portion is referenced above. The right holders of the remaining portion have also been notified of this split and renumbering of their original claim.

Enclosed is a copy of this new claim which now reflects your portion of the original water right. Please keep this copy for your files and refer to the new claim number when corresponding with our office. If you have any questions concerning this letter or the enclosed claim, please feel free to contact this office.

Sincerely,

Telephone conversation 11-17-94

Dear Malcolm and Nita,

This office has received two Notices of Change of Water Right Ownership for portions of the above adjudication claim that is still in your name. I have reviewed both notices for the new ownerships and prior to making any paper work changes I would like your input.

I have enclosed a map that is color coded showing the irrigated lands covered by the adjudication claim and recent license 67-07620. The highlighted areas show the irrigated lands that are owned by the new owners and yourself. The Johnson's irrigated lands are in green, the Way's in yellow and yours in pink.

Do these look ok to you? If you think it is different please mark any difference on this map. If it looks ok then just return it with no marks on it.

During our telephone discussion I mentioned that the statutory claim had a error for one of the 1/4-1/4's. I've enclosed a data entered copy showing the error, you can compare with the map I've made to see the problem. After I found this error I needed to have you see the problem. Then I could proceed to have you signing an amended claim to correct this.

Amended claim: I've enclosed an amended claim with the corrected 1/4-1/4's and your latest mailing address. Please sign the document in front of a Notary and return it within 30 days.

License 67-7620: The recently licensed right 67-7620 doesn't need to have an ownership change because of current policy for a licensed water right of this type. We may need to do some correcting on the license later, but first I will work to correct the claim. Can you tell me whether the new owners will use a different point of diversion for the license? If so they will possibly need to file a transfer application to add a separate point of diversion to the licensed right.

Feel free to contact me if you have any questions concerning this letter.

Sincerely,

Ron Howerton

- SHE CONFIRMED THAT THEY STILL OWNED A-PORTION OF THIS CLAIM AND THE JOHNSON'S & ^{Ways} ~~DAVIS~~ OWNED SEPARATE PORTIONS. I ALSO FOUND OUT THAT HER ADDRESS HAD CHANGED, I FOUND THIS OUT BY THE OWNERSHIP CHANGE FORMS. SHE CONFIRMED THIS TO BE TRUE BUT THEY HADN'T MOVED, THE P.O. CHANGED ADDRESS NOT A REAL MOVE, SAME PLACE.
- I EXPLAINED THAT THE ORIGINAL STATUTORY CLAIM WAS INCORRECT AND PRIOR TO SPLITTING THIS CLAIM I NEEDED THEM TO SIGN AND RETURN AN AMENDED CLAIM. ALSO TOLD HER TO LOOK AT A MAP I'VE MADE TO CONFIRM THE LOCATIONS OF THE NEW OWNERS AND THEIR LAND THAT REMAINS.
- I TALKED ABOUT THE LICENSE NOT NEEDING AN OWNERSHIP CHANGE BUT WE MIGHT NEED TO CORRECT SOME ITEMS ON IT LATER. SHE CONFIRMED THAT THE LAND COVERED BY THE LICENSE HAD NOT BEEN WITHHELD IN THE SALE.
