Conditions of Approval:

1. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

The use of water before April 15 and after October 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.
3. X01 Domestic use is for 1 home.

Remarks:

Comments:

1. mcase 4/14/2004 Period of Use

Comment: The licensed period of use was shorter than the claimed period of use. I recommended the licensed period of use.

2. mcase 4/14/2004 Quantity

Comment: The annual diversion for the licensed right is 45 AF. I was not able to determine the annual diversion rate for the split right.

3. mcase 6/1/2004 Period of Use

Comment: Licensed Period of Use shorter than standard Season of Use. Shoulder remark needed.

4. jdean 11/7/2006 POD

Comment: The POD was recommended at the nominal QQQ location. No better location could be determined using the claim file or licensing file.

5. jdean 11/7/2006 Quantity

Comment: The diversion rate for this claim was based on the license. For the irrigation portion the recommended rate is half of the licensed rate (the recommended acres are half the licensed acres). The total rate is the same as the irrigation portion (similarly to license). The diversion volume was calculated according to the licensed rate for irrigation (4.5 afy/acre * 5 acres = 22.5 afy). On the license it specifies 0.57 afy for domestic so this is what was recommended. The total was recommended as the same volume as the irrigation portion (similarly to license).
