ANALYSIS OF CLAIM A67-02377

January 17, 1996

Adjudication Agent: Ron Howerton

SPLIT CLAIM TABLE FOR A67-02377

ASCS MAP ACRES	PROPORTIONAL FACTOR USED TO = RECOMMENDED ACRES	RECOMMENDED IRRIGATED ACRES & CFS TOTALS
DEROCCHIS = 15.3 SPLIT A67-02377B	$15.3 \times .879397 =$	<u>13.5</u> IRR ACRES $\times 0.02 = .269$ CFS
EDMISTON = 4.8 SPLIT A67-02377A	$4.8 \times .879397 =$	<u>4.2</u> IRR ACRES $\times 0.02 = .084$ CFS
DICKERSON = 19.7 SPLIT A67-02377C	$19.7 \times .879397 =$	<u>17.3</u> IRR ACRES $\times 0.02 = .347$ CFS
TOTAL MAP ACRES = 39.8 IRR ACRES	$35 \text{ ACRES} / 39.8 =$ FACTOR = .879397	IRR LICENSED TOTAL = <u>35 IRR ACRES</u> IRR LICENSED CFS = <u>0.70 CFS</u>

PART I.

TABLE EXPLANATION

1. Each claimant will receive a proportional amount of irrigated acres based upon the Acres shown on the ASCS map.
2. The ASCS map showed a total of 39.8 irrigated acres for a total for the SESW & SWSE tracts of land.
3. The licensed water right shows a total of 35 irrigated acres for the SESW & SWSE tracts of land.
4. Since the amount of irrigated land licensed is less than the amount found on the ASCS map, a factor must be used to reduce the proportional amounts fairly to each new owner. This was done by dividing the licensed 35 irrigated acres by the ASCS 39.8 irrigated acres, which equals 0.879397 factor.
5. The table above shows the ASCS amount X the factor that will equal the

recommended irrigated acres for each owner to add up to the original licensed and claimed 35 irrigated acres in the SESW & SWSE tracts of land.

6. CFS then may be calculated by the proportional amount of irrigated acres X 0.02 CFS. (0.02 CFS is a factor used in the original license per recommended irrigated acre)
7. The licensed acres (35) X (0.02 CFS) = 0.7 CFS, thus all above CFS totals were proportionally calculated to amount to the licensed total.

PART II.

WARRANTY DEEDS WERE SILENT

1. The warranty deeds were silent on how many irrigated acres were to have been transferred from the sale of these properties.
2. The obvious expansion of these lands from 35 irrigated acres to 39.8 irrigated acres as shown on the ASCS map.
3. It can not be determined from reviewing the field exam notes from the original license to the exact location of each irrigated acre then, to now where the exact irrigated acre of expansion is.
4. However, since the ASCS map is a known factor now. It does show the most up to date location of the irrigated acres.
5. It is logical to resolve an unclear picture of the past expansion with the ASCS map in splitting this right.
6. Thus, using the known factors of the licensed irrigated acres (35) versus the known amount of irrigated acres shown by the ASCS map (39.8) were used in splitting this right as shown in the SPLIT CLAIM TABLE and in PART I.

PART III.

SUMMARY

1. The claimants may want file an expansion claim to cover their own separate expanded irrigated acres based upon their proportional split difference from the amount shown on the ASCS map.
2. If the new owners do not want to use the licensed point of diversion an application for transfer is needed.
3. If a different point of diversion has been used prior to 1987, then it may be possible to recommend that diversion with an accomplished transfer, if proper documentation is shown.

INSTRUCTIONS

JAN 2 1992

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

WEISER ID 83672

Dear Doug and Kyla,

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This change of ownership required a split of the original claim resulting in renumbering this claim by adding alpha suffixes to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time. You will be notified of any future action taken on this claim.

Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

RE: NOTICE OF CLAIM NO [S]: A67-10786 and a portion of A63-02377

Dear Doug Dickerson:

We are currently preparing the Notices of Claim referenced above for the Director's Report in the Snake River Basin Adjudication. Our research indicates there may have been a change in the ownership for the above claim number(s) referenced above. IDWR records currently show the following name and address for the owner of the claims listed:

Fred L. Edmiston or
Rhonda D. Edmiston
606 Cove Road
Weiser ID 83672

If, however, you own the property and the water rights on the property, please complete the enclosed Change in Ownership to correct our records. A copy of this letter has been mailed without the Change of Ownership the apparent former owner shown in the middle of this letter.

Your response must be received in this office by the Response Date indicated above.
