SUBJECT: Ownership Change on Notice of Claim 95-31, Hayden Lake Honeysuckle Hills
Notice of Claim to a Water Right Form, McCauley Tracts

Dear Mr. Holmberg:

Per our recent phone conversation, enclosed is an ownership change form for Notice of Claim to a Water Right 95-31 and a blank Notice of Claim form to claim the water usage on the McCauley Tracts property.

I did a search for previous water rights which may be appurtenant to the McCauley Tracts property and found a decreed water right which may be for the water usage on that parcel. It's water right number 95-280 and is from Hayden Lake for domestic usage with the place of use listed as Lots 12 and 13, Block 1, McCauley Tracts. I've enclosed a proof report of both water rights, for your review.

If you determine that 95-280 is, in fact, appurtenant to your property, then complete the claim form using the proof report as your guide. Please be advised that the claim should reflect the way that the water is being used so if there are any changes to be made, they should be represented on that claim form. In regard to the claim filing fee; if there are no changes to the water usage as decreed, there will be no fee for the claim as there is no fee on claims which have been decreed in a previous adjudication. If your water usage does reflect a change, there will be a \$25.00 filing fee.

Please return the change of ownership form and completed Notice of Claim as soon as possible because after these rights have been finalized, there will be a \$25.00 fee for the ownership change and you may need to complete some additional forms before the new claim on McCauley Tracts can be submitted.

Feel free to contact me if you have any questions.

Sincerely,

Linda A. Werner
Water Resource Agent, Sr.
