1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

We own (2) two separate lots, both of which have always had pumps. We purchased them at differing times. It would seem we should have 2 separate "right numbers" for 2 separate lots.

2. Describe the changes you wish to make in the proposed recommendation:

Since we have 2 lots, 2 pumps, it would seem that we should have two (2) separate water right numbers rather than the combined lots under 1 number.

3. Give a brief explanation as to why you disagree with these portions:

If we choose to sell off lot 22 in the future, it should have its own water right number, not 1/2 of a neighbor's right. It has had its own water pump for years. A new home owner would want their own right to !!??

I AGREE with this proposed recommendation: no changes need to be made.
