1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Disagree with the findings of "no beneficial use found"

2. Describe the changes you wish to make in the proposed recommendation:

Approved for beneficial use, both for domestic and stock water use.

3. Give a brief explanation as to why you disagree with these portions:

This spring is the sole water source for two homes/families on this property. It has provided water for domestic and stock use on this farm for over 100 years and will continue to be for many years to come. If the application was correctly received, there should be no reason not to approve this water source for beneficial use as it has been for so many years.

☐ I AGREE with this proposed recommendation: no changes need to be made.
