Subject: Notice of Error Reply for Water Right 95-13990

Dear Mr. Belisle,

This email is to let you know that we have reviewed the Notice of Error you submitted for the above claim advising us that the source of water for your domestic use should be Coeur d'Alene Lake rather than a well.

Your claim has been recommended with the lake, rather than a well, and I am enclosing a copy of our preliminary recommendation reflecting this change, for your records.

Absent any other changes, you will receive correspondence from us in approximately 6 months consisting of your decreed water right.

Feel free to contact me if you have any questions or concerns.
