Date: Friday, March 02, 2018 10:43:39 AM

Excellent. Thanks much, Carter.

Craig, please let me know if it would be helpful for you and me to meet in Boise. I would be happy to stop by to discuss the CSRBA recommendations at a time convenient to you.

I have had one further thought since I submitted the Notice of Claim Replies on Wednesday. In discussions with other IDWR staff in recent months, I thought I had heard that IDWR would be recommending adding volume limits for all rights. In other words, rights that would otherwise have no prior express volume limit would receive an express volume limit based on diverting at the authorized rate 24/7. Upon reflection, I think this is a good idea. It eliminates any doubt about what the absence of an express volume limit means. And it makes the spreadsheets add up easier.

Accordingly (although I failed to call this out in the Replies submitted earlier this week), I think IDWR should consider adding an express volume of 723.98 AFA for Nos. 95-9113 and 95-9216 (both of which have an authorized diversion rate of 1.0 cfs). May we discuss this informally? Or would you prefer that I submit revised Replies for those two claims?

My best to you, Craig.

-Chris

Hello Chris,

The adjudication review of the North Kootenai Water and Sewer District claims is being handled by Craig Saxton in Boise.

You and your client are certainly welcome to attend the meetings in Coeur d'Alene next week; however, Craig will not be taking any files with him, so meeting with staff at the State Office in Boise will be the most efficient as we work towards finalizing the recommendations.

Thank you for your response.

Carter
