Greg,

I received the signed amended claim you sent and updated the preliminary recommendation. Please look it over and if everything looks ok, no further action is required on your part at this time.

In a couple of months, you will receive another mailing when IDWR sends all the recommendations formally to the court in what is called the Director's Report. This opens your opportunity to file an objection to your, or anyone else's, water right recommendation and be heard by the court. My hope is that we have worked out any issues you had with your recommendation and there will be no need to file an objection.

Please let me know if you have further questions.

Thanks,
c

Greg,

Attached is an amended claim in the form of a word document. The only change I made to the claim elements is I updated the diversion rate from 0.02 cfs to 0.04 cfs.

In order for IDWR to be able to recommend a diversion rate of 0.04 cfs, it has to be claimed. Thus...the amended claim.

In addition, I made "space" for you to add an additional name to the claim. Feel free to manipulate the document as you see appropriate.

I added a spot for and e-mail address which is not required. I just wanted to let you

know that the state doesn't send spam or sell addresses to outside entities. We ask for it only because, often times, it is an easy way for us to communicate with you.

Please review the claim, make any changes you wish to make, then print and sign the claim. You can send the amended claim in the postage paid envelope that was included in the Notice of Error package (we need the original signed claim). On the notice of error form itself, you might just want to note on that form that the ownership and diversion rate needs updated and you are submitting an amended claim.

Let me know if you have questions.

Thanks,
