Telephone Number: (971) 219-0682

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

This needs to be recommended as water is used for Domestic use, Landscape irrigation, and fire protection. This has been the case since original right in 1914.

2. Describe the changes you wish to make in the proposed recommendation: *Update water right to Domestic use, Fire Protection for Lot 2.*

3. Give a brief explanation as to why you disagree with these portions:

*1. See Attached Letter
2. County Records indicate Boat Dock in 2000 and New Cabin was in place in 2001.*

☐ I AGREE with this proposed recommendation: no changes need to be made.

DATE: 3/16/18 SIGNATURE: Mitch Maier
Please print your name: Mitch Maier

Regarding original water right #95-2055, aka #95-17356

To Whom it may concern:

The water under this right was originally developed by Gonzaga University for their Summer Villa back in 1914. The University over the years has sold the property, of which a portion was allocated to our parcel (Lot 2, Blk 2, Pioneer Park Addition).

The original point of diversion remains to be from the same "unnamed spring", tributary to Upper Twin Lakes. The water is diverted and delivered to our property by way of a water distribution system for the continued purpose of domestic use, landscape irrigation, and fire protection.

I have evidence in the form of historic photos and letters from Gonzaga and Idaho State referencing the "perpetuity of the water rights" that go with this land. I also have logs of property transfers starting with Gonzaga University leading up to our ownership.

We appreciate your assistance in the matter.

Sincerely,

Mitch and Heavin Maier
