RE: Review of Preliminary Recommendation and Comments

We missed your informational session and would like to meet with your representative at the earliest convenient and mutually agreeable time.

- 1) We have included a copy of our Deed of Trust for your review to make sure the information is correct – format is sometimes confusing to us.
- 2) We want to remind you that we own 12.65 acres which includes one home, a shop (no water) and a second shop (approved Commercial Bakery Kitchen with bathroom, laundry and sinks for production). We also have plantings which require water (garden, trees, lawn and ornamental beds). **We are worried by your single residence label in terms of water usage for this multi-acre property.**
- 3) Errors include:

Culinaire Express LLC (a wholesale bakery on the property)

- 4) **Where did the quantity come from?**
- 5) **There are other wells adjacent not being used with higher output – would we be prevented from drilling a more productive well?**
- 6) **Water allocation for just one home is not adequate since we also operate a bakery and have 12.65 acres. Gardens, trees, lawn and ornamental plantings need water. Granted most is forest and rocky so we only water areas near the house and surrounding flat areas when necessary.**
- 7) **We actually do not understand the IDWR, the outcome of the suit with the Indians and Government, ~~and~~ its impact on us. We assumed the land came with the ability to utilize our well and perhaps add a more productive well as part of our property rights. Are you limiting, metering, taxing us in any way?**

- 8) We do not understand in this volume of paperwork what you are telling us regarding water usage of our 12.65 acres. We do not think you know we have a home and a business on the property – both use water and were approved by Kootenai County and Kootenai Health.
- 9) Please advise soonest
