Regarding the establishment of irrigation surface water use at 2643 S. Wolf Lodge Creek (Amended claim #10158), I personally attest to having owned the property at the time that surface water use for irrigation of 15 acres was started, as I initiated that use through a submersible pump in Wolf Lodge Creek as of June 1, 1970. I have continued to irrigate during the months indicated on the claim in the intervening years. I transferred ownership of the property to my two surviving sons and their spouses in September, 2016 and the irrigation use continues under their ownership.
