Kevin,

The copies that I sent to you on April 2, 2009 of 63-21147 is all that we have. I went to the claim file and copied the original claim and map submitted with it to give you an idea on what they were trying to claim. The well(s)? are pointed out on the map that was filed with the claim. We did not do any research on it since no evidence of priority was submitted. Evidence of priority being an affidavit or City records showing that these well or wells were being used by the City in 1954 as claimed. That's all I've got. You will likely have to ask the City about it.

Jan,

Thanks for the info. I've found the info for all Wilder's water rights except for 63-21147, the one that was disallowed. When I click on "Related Documents" all I get is the partial decree. I'm trying to pin down what well is associated to this water right. Is there anyway you could send me the related documents with all the reports and what not for this water right?

Thanks

Kevin Baker

Subject: Copies of Original Adjudication Claims & Maps for 63-8164 & 63-21147

Kevin,

Attached are copies of the original claims and maps filed in the Snake River Basin Adjudication by the City of Wilder in 1990. The other water rights were not required to file a claim in the adjudication since they were filed after the beginning of the adjudication – 1987. On the map for 63-21147 they indicate a 1969 application for one of the points indicated on the map. I do not have a record of any 1969 application. Please note that 63-21147 appears to cover more than one well – remembering it was disallowed. Good Luck!

E. NARRATIVE/REMARKS/COMMENTS

A 12" well with a 7.5 HP pump supplies water to 15 acres of lawn within the city of Wilder. The well discharges into a 6" pipe which travels north under the road to an 8" mainline system. Pressure for the system is gained through gravity flow. The lawns are flood irrigated. SRBA claim A63-21147 was filed on a 2nd 12" well that's also used for the lawns and is tied into the same system. This well was covered in the SRBA since it was drilled in 1954. The well on this permit was not drilled until 1969.

Individual domestic wells are also used on some lawns. Separate deep wells are used for internal domestic use for the Wilder residents. No other water systems are used.

This permit should have been filed for municipal use rather than irrigation use.

Have conditions of permit approval been met? ☒ yes ☐ no

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 15 \times 4.5 = 67.5$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .30 \times 246 \times 1.9835 = 146.4$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 67.5$$

2. Volume Calculations for Other Uses:
