1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Point of Diversion

2. Describe the changes you wish to make in the proposed recommendation:

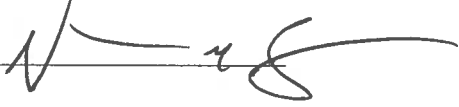

Should list 2 points of diversion in the same location under the provisions 42-1425 – Accomplished Transfers.

3. Give a brief explanation as to why you disagree with these portions:

After the initial adjudication claim was filed it was discovered that two pumping systems supplied water for this right and also 95-9048, 95-16536 & 95-16539. The two pump system was completed in 2003. A letter from United Crown Pump & Drilling verifies the installation date.

____ I AGREE with this proposed recommendation: no changes need to be made.

Re: Water Right – Date of 2 Points of Diversion

Bob:

Pursuant to our conversation this morning, I can confirm that during the year of 2003 our company constructed a Lake Water Irrigation System that consisted of 2 Submersible pumps delivering water to 2 Points of Diversion. One was the lower acreage owned by the Hagadone Family Trust – 3095 W. Horned Owl Road and the upper property owned by Brad Hagadone – 2731 W. Horned Owl Road.

It is important to note that the 2 systems were interconnected at a central pump house location.

The construction date for this work shows in our records as August of 2003.
