1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

One parcel (05100000002007) shows 2 homes. The homes at 249 N. Seeley & 337 N. Seeley have drilled a well they are sharing & are no longer on the system.

2. Describe the changes you wish to make in the proposed recommendation:

Only 1 home served by this well. One is a shop, not a home - no water supplied.

3. Give a brief explanation as to why you disagree with these portions:

Remove the shop (address - 282 N. Main)
The new well ~~is~~ serving 249 & 337 N. Seeley was drilled in 2017.

I AGREE with this proposed recommendation: no changes need to be made.

The condition limiting overlapping rights to 0.02 cfs/Acre nor more than 3.0 afa/acre is not included on the recommendation. Should this be included.

Should the 2 homes no longer on the system be removed?
