Subj: RE: r record for 36-07239

Kelly: These are the answers to the questions you had regarding right no 36-07239

1. You should not include a diversion volume limit on the irrigation use as this is a surface water right. To be consistent with other recommendations, please do not place the volume limit on the use.
2. For the same reason, don't include diversion volumes for any other use, nor a combined diversion volume limit.
3. Please do not delete the other non-licensed uses - they were recommended pursuant to accomplished transfers.
4. The facility volume goes in on all fish propagation recommendations.
5. Take the M01 condition code out.

Let me know if you need anything further.

Charlie

I worked on the record but was not comfortable with the end product.
QUESTIONS:

1. I included 320 af as a div vol limit for the irr use. Should I have done that?
2. I did not calculate any diversion volumes for rec aset or prop uses. Should I? Should there be a combined div vol limit for the three uses?
3. The original licensed only showed irr and fish prop in the p/u should all other uses be deleted? I left the P/U as is.
4. I added the facility volume back to the remarks. Should I have?
5. I left the condition code M01 in, should it come out?

I really did work on the record.

2. SUBJECT OF INQUIRY:

MR. HARDING NEEDED clarification about the 3 ~~re~~ claims listed below. The City of Twin Falls is planning a change in point of diversion of their 2 claims (36-02646 + 36-02603A) and he wanted to know what 36-07239's claim was for and who claimed it.

3. RESPONSE TO INQUIRY:

I showed Mr Harding the McCollum claim and gave him a proof report of that claim. I also explained how the limitations on the other 2 claims were applied. (volume limitations in particular.)

Department of Water Resources
Adjudication Bureau

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re the General Adjudication
of Rights to the Use of Water
from the Snake River Basin
Water System

Case No. 36-07239
(You must insert the
water right number you
are objecting to)

The State of Idaho, ex rel.
R. Keith Higginson in his
official capacity as Director
of the Idaho Department of
Water Resources,

OBJECTION

Petitioner,

36-07239 -0001/
93-04-0309

vs.

The United States; the State
of Idaho; and all Claimants to
the use of water from the Snake
River Basin Water System,

Respondents.

INSTRUCTIONS

This form must be used to file an objection to any water right recommended in the Director's Report. You may object to one water right per objection form. The water right number you are objecting to must be indicated above in the blank space following "Case No." To object to more than one water right, you must file a separate objection form for each. Forms may be obtained from the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form, as long as it is identical to the court's form. You must file your objection by the deadline shown in the notice that IDWR mailed to you. The objection must be received by the court on or before the deadline specified. Instructions for mailing this objection are found at Page 6, and must be strictly followed.

Any party physically filing 25 (twenty-five) or more objections must make an appointment with the Clerk of the Adjudication Court and arrange for an appointment to file multiple objections.

(Over)

OBJECTION - 1

By filing an objection form, you are certifying that the objection is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and that it is not filed for any improper purpose, such as to harass, cause unnecessary delay or needless increase in the cost of litigation.

I. GENERAL INFORMATION

Please fill in the following information:

1. Person objecting:

Name: J. D. McCollum

Address: P. O. Box 112

Twin Falls, ID 83303-0112

Briefly describe your interest in this water right:

J. D. McCollum is the claimant for the
above-referenced water right

2. Owner of the water right:

Name: J. D. McCollum, dba Canyon Springs

Address: P. O. Box 112

Twin Falls, ID 83303-0112

3. If this objection is filed by an attorney:

Attorney Name: Thomas M. Robertson

Attorney Address: P. O. Box 525

Twin Falls, ID 83303-0525

Attorney Phone No.: (208) 734-1224

If filed by an attorney, notice of pending court proceedings will be sent to the attorney only.

REASONS SUPPORTING EACH BOX CHECKED

Re: Box No. 3. a., "Total quantity of water used in cubic feet per second.":

The subject water right, right number 36-07239, is licensed for 1.6 cfs for irrigation purposes. It has been recommended for only 1.36 cfs for irrigation purposes for the apparent reason that the Recommendation recognizes only a total of 68 acres under place of use for irrigation. The number of acres under irrigation from the right is 80 acres.

Re: Box No. 9. a., "Place of Use, number of irrigated acres.":

The Recommendation recognizes only 68 acres under place of use for irrigation. There are 80 acres under irrigation under the right as described on the license for the right, in addition to the acreage reported on the expansion claim for right number 36-07239, which the Director assigned right number 36-15455 and which the Director's Report has recommended as right number 36-07239. In support of the expansion claim see Affidavit of Del Ericson attached hereto.

Re: Box No. 10, "Consumptive Use.":

The volume of consumptive use should be 320 acre feet per year consistent with the 1.6 cfs for which the right is licensed and the acreage which has been irrigated under the right.

CHANGES TO DIRECTOR'S REPORT

The Director's Report should be changed to (1) include the full 1.6 cfs for irrigation purposes for which the right is licensed; (2) include the full 80 acres for place of irrigation use for which the right is licensed; (3) include 320 acre feet per year consumptive use for which the right is licensed; and (4) include the expansion claim under right number 36-15455 which the Director's Report recommended as right number 36-07239.

1 charge of the maintenance of the golf course including the
2 irrigation of the greens and fairways.

3 3. The golf course is irrigated with water diverted from
4 Alpheus Creek in Jerome County, Idaho.

5 4. In 1985 and 1986 I was the golf professional at the
6 Canyon Springs Golf Course.

7 5. As of 1985 the golf course was a nine hole course.

8 6. In the fall of 1986 plans were made for the expansion
9 of the golf course from a nine hole to an 18 hole course.

10 7. Construction for the additional nine holes began in
11 July of 1987 including the installation of sprinklers to irrigate
12 the additional nine holes.

13 8. By the end of August of 1987 all of the new nine holes
14 for the golf course, including greens and fairways, were being
15 irrigated with Alpheus Creek water.

16 9. Attached to this Affidavit as Exhibit "A" is a copy
17 of an aerial photograph of the Canyon Springs Golf Course. The
18 darker areas on the photograph depict the irrigated greens and
19 fairways of the golf course. All those areas were developed and
20 under irrigation by the end of August in 1987.

21 10. The normal acreage for greens and fairways of an 18
22 hole golf course is approximately 140 acres. The greens fairways
23 comprising the 18 holes of the Canyon Springs Golf Course which were
24 under irrigation at the end of August in 1987 comprise approximately
25 130 acres.

2) 0.24 cfs reduction in claimed Diversion rate.
3) Change of period of use from 3/1 to 11/1 to ~~4/1 to 11/1~~
4) How the Fish Facility Volume was calculated. 4/01 to 11/01

- II. Reasons provided claimant for original recommendation: 1) FIELD examination and
comparisons of aerial photos of the area taken in 1976
and 1987 were used to determine the areas actually being
irrigated to be recommended. a) The diversion rate was reduced
because the acres of place of use was reduced 12 acres (12 ac x .02 cfs/ac)
2) There have apparently been some reduction in size of the
actual place of use
3) This the standard period of use and is determined
by the usual frost free growing period.

4) The Fish Facility Volume is the total volume of the raceways + ponds in Acre Feet.

- III. Additional information provided by claimant: An earlier period of use was
needed because golf course use begins as early as March 1
and early irrigation "prevents deterioration of the course."
Recommendation does not agree with the license

- IV. Changes to be made in final recommendation (if any): Period of use changed

Continuation of Item 5 on Notice of Error
Re: Water Right Number 36-07239 (J. D. McCollum)

There is being filed concurrently herewith a Notice of Claim for an expansion of the number of acres irrigated under the within claim number A36-07239 with a claimed priority date of June 1, 1984. In that year there was completed the expansion of the 9 hole golf course to an 18 hole course, approximately doubling the total acreage under irrigation under water right number 36-07239 to approximately 160 acres.

Attached hereto is an aerial photocopy taken within the last 6 months of the golf course facility.

It is critical for the operation of a golf course that irrigation begin as early as March 1st for the reason that traffic on the course in early spring requires early irrigation to prevent deterioration of the course.

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 3, 3.a, 9, 9.b and 10, and all allegations of the objection regarding this items, IDWR responds as follows.

The claimant filed claim no. 36-07239 to a water right based on a license issued by IDWR, which was licensed and claimed for various purposes, including 80 acres of irrigation for a golf course. The claimant also filed claim no. 36-15455, as an expansion of the licensed right pursuant to Idaho Code section

42-1416(2), for irrigation of an additional 80 acres of golf course. IDWR recommended 0.02 cfs per acre for 68 acres for the irrigation portion of the license and recommended the expansion claim for disallowal, based on information available to IDWR that indicated that water had been used only for 68 acres of golf-course irrigation prior to commencement of this adjudication.

As part of the investigation of the objection, IDWR has obtained further information which indicates that the portion of the license that was not recommended was put to beneficial use for irrigation of an orchard prior to expansion of the golf course, and that the expansion of the golf course was completed prior to commencement of this adjudication. Therefore, the description of this right and right no. 36-15455 in the director's report should be changed.

Information currently available to IDWR supports a finding that the license should be recommended for 0.02 cfs per acre for 80 acres for the irrigation portion of the license, and the expansion claim should be recommended for approximately another 12 acres of irrigation. However, IDWR lacks sufficient information to describe the number of irrigated acres per forty acre tract, which is necessary to provide a complete corrected recommendation. IDWR will further investigate this objection, and when the necessary information is obtained, will provide a corrected recommendation.

CHANGES TO THE DIRECTOR'S REPORT

The director proposes no changes to the description of this claim in the Director's Report.

AGENT: Kelly K Christensen

CUSTOMER:
VIC CONRAD 389-7359
SUBJECT: STATUS OF 36-15455
phone (X) walk-in ()

DATE: September 10, 1998 2:18 PM

Vic wanted to know what the current status for this enlargement right is. I called Nick Spencer and he indicated that there is a problem with the City of Twin Falls rights 36-02603A and 36-02646 relating to system capacity. Nick indicated that there are discussions going on with the City and Allen Merritt. The resolution of those issues will probably directly affect the Golf Course recommendations. I relayed this info to Vic.

In reviewing the records it was discovered that the state office has the original file for 36-07239. Nick said that he would send it to Southern.

RE: Water Rights 36-02603A, 36-02646 & 36-07239

Dear Mr. Brown:

Pursuant to our phone conversation this day I have made copies of documents and printed proof reports for electronic files which describe the water rights listed above.

The documents highlighted in blue are the documents which currently describe the water rights as they exist today. The proof reports highlighted in red are the electronic records for these rights as they are presently drafted in the SRBA. These "X" records are modifications of the original Director's Report Recommendations filed with the SRBA court and are subject to further court review. As we discussed these rights are sort of "gray" until the court finalizes a decree of these rights.

Based on the records I would conclude that when the above water rights are combined the total rate of diversion is clearly limited to no more than 52.47 cfs which appears to be the historical maximum diversion rate of water diverted from Jerome county and used in Twin Falls county.

If you have further questions please feel free to contact our office.

Sincerely,

A handwritten signature in black ink, appearing to read 'Allen D. Merritt'.

Dear Mr. Robertson:

This letter is in response to your request regarding water right no. 36-07239 in the name of J.D. McCollum. This water right is represented in the department's files by a license issued on August 12, 1975. A claim was filed for this water right in the Snake River Basin Adjudication and the Director has made a recommendation for this water right in his report to the court.

The Director's recommendation for this right to the court has not been decreed nor has an order for interim administration been sought or granted involving this water right. Under these circumstances, the record of water right the department uses for water distribution is the license since this record has not been superseded by either administrative or judicial action.

Yours truly,

David B. Shaw
Adjudication Bureau Chief
