Subject: RE: CdA Nursery

Evan,

People at the nursery using water over the course of a year averages:

January through October 40 people daily

- Except one week in May when there are an additional 50 to 60 5th graders from local elementary schools at the nursery each day bringing the occupancy up to 100 daily for those 5 days in May.

November 65 people daily

December 50 people daily

If you have additional information needs please let me know.

Thank you,

Steve

Steve,

Thank you for getting back to me with this information; it certainly helps a lot. Before I can use this information to calculate the approximate water volume utilized for the non-residential domestic usages at the nursery, I need to know

how many people typically staff the site. Primarily, what is the maximum number of people utilizing the facilities on a daily basis?

Regards,

Evan

Evan,

It was good to talk with you yesterday. The information I have received for the non-residential domestic uses at 11 locations throughout the Forest Service Coeur d'Alene Nursery is that it includes:

- 2 Kitchen sinks
- 8 Single unit restrooms
- 1 Shower
- 4 Multi unit restrooms (2 with 2 stalls, 2 with 3 stalls)
- 1 Laundry
- 1 Water fountain
- 7 Lab/wash preparation sinks

If there is any additional information you need or if you have any questions about this matter please contact me.
