Dear Claimant:

As you may recall a settlement conference was recently held in Idaho Falls in hopes that the disputes regarding the water right claims from Paradise Springs could be resolved. At the settlement conference the parties in attendance and the Idaho Department of Water Resources reached a tentative agreement. However, final settlement is contingent upon additional action by the parties. The purpose of this letter is to let you know what further action needs to be taken in order to bring closure to the Paradise Springs subcases in the Snake River Basin Adjudication ("SRBA").

The table below lists the amounts agreed upon during the settlement conference followed by the tasks that need to be completed before the settlement can be finalized. Please find your subcase(s) below and take the appropriate action. IDWR would be happy to help you through the process if you need assistance, as appropriate. Because of the global nature of the settlement of Paradise Springs, SF5 settlement documents will be prepared once the late claims and amended claims are ready for resolution. In other words, all the subcases are tied together and are anticipated to progress through the SRBA resolution process as a group.

22-12714B. Needs to amend claimed flow rate to 0.11 cfs.

SCANNED

JAN 24 2011

22-13211. No need to amend claim. Only needs to sign SF5. It is my understanding that the objectors to this subcase seek a subordination remark limiting a delivery call on this right to 7.6 acres and .17 cfs. Additionally, needs to set aside 22-11537, the 1969 beneficial use right, and sign an SF5 for .07 cfs and 3.3 acres.

22-13212. Needs to move to set aside and amend claim for 0.52 cfs. Eventual recommendation for -13212 will contain a subordination remark limiting a delivery call on this right to 4.5 acres and 0.16 cfs. Will receive SF5 on 22-11639 for 9.6 acres and 0.19 cfs as the beneficial use claim.

22-13511. No need to amend claim. Only needs to sign SF5.

22-13586. Needs to amend claimed flow rate to 0.47 cfs. This right is governed, in part, by the stipulation filed December 2009. Consistent with that stipulation, the eventual recommendation for -13586 will contain the following subordination remark: This water right shall not be permitted to make a delivery call against water right nos. 22-13135, 22-13961, 22-13962, 22-13963, 22-13964, 22-2280E, 22-2296B, 22-2296D, and 22-13681, and their progeny. Needs to file a new beneficial use claim for 8.5 acres and 0.17 cfs.

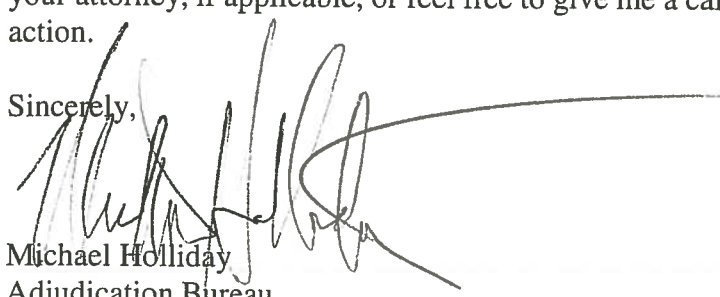

22-13853. Needs to amend claimed flow rate to 0.33 cfs and file a new beneficial use claim for 6.5 acres and 0.13 cfs.

22-13854. This right is governed, in part, by the stipulation filed December 2009. Needs to file a new beneficial use claim for 14 acres and 0.38 cfs.

22-13509. Consistent with the Amended Director's Report filed in July 2010, the eventual recommendation for -13509 will contain the following subordination remark: This water right shall not be permitted to make a delivery call against water right nos. 22-13135, 22-13961, 22-13962, 22-13963, 22-13964, 22-2280E, 22-2296B, 22-2296D, and 22-13681, and their progeny. Needs to file a new beneficial use claim for 9.5 acres and 0.19 cfs.

The next status conference on these subcases is set for February 2, 2011, at 9:30 a.m., during which Special Master Bilyeu agreed to hear motions to amend claims. Motions for late claims need to be heard by Judge Wildman. If you have questions about any of this, please contact your attorney, if applicable, or feel free to give me a call. Thanks in advance for your prompt action.

Sincerely,

Dear Larell:

As we discussed on the phone today, IDWR recently mailed you a copy of the Director's Report for late claim 22-587A. The Director's Report shows the Department's recommendation for your claim in the Snake River Basin Adjudication (SRBA). I think that the Director's Reports for your claim and the other claims based on the Withrick right are in error. I believe you are entitled to significantly more water on your claim than I was able to recommend.

However, apart from objections being filed with the court, we cannot correct these errors. Please consider filing an objection to the following recommendations if they appear to you to be in error: 22-587A, 22-12714B, 22-13511, and 22-13854. From my perspective, the primary benefit for you would be additional water for your property. Your current recommendation would only supply enough water to irrigate about two and a half acres.

I have enclosed objection forms and instructions.

Please feel free to contact me at 208-525-7161 if you have any questions or concerns regarding this matter.

Sincerely,
