RE: TMW Properties LLC, Water Rights: 22-644, 22-646
Rodney Taylor, Associated Water Rights: 22-645 and 22-647

It has recently come to my attention that in 1995 (prior to our purchasing this property) our neighbor, Rodney Taylor, filed a draft of a legal document that relates to the adjudication of the above referenced water rights. .

Please be advised that this document was NEVER executed and should not be considered as part of the adjudication process for these particular rights. I am unclear as to why Mr. Taylor would file an unexecuted document as part of his adjudication paperwork. I have been informed that the then owners of our property, Sally and Keith Bever, refused to sign the document as they disputed the underlying statements made in the document with respect to the historical use of these water rights as inaccurate.

Please find enclosed a copy of a letter dated April 6, 2006, from Blair Grover, the attorney that drafted the document on behalf of Rodney Taylor. This letter will confirm that the document was never executed and therefore should not have any bearing on the adjudication process for these particular rights.

I have also found this document attached as "related documents" to water right 22-199B. This unexecuted document did not relate to this water right since this right is on another location on this property from various sources and was never disputed by Mr. Taylor.

Thank you for updating your records with respect to this issue.

Sincerely,

Tim Watters

Dear Mr. Watters:

I do not have a signed copy of the Stipulation which I prepared in 1995. My file indicates and it is my recollection I prepared the Stipulation, but Beavers refused to sign it. I did not initiate the litigation. It was an old case, and I had planned to modify the existing Judgment based on the Stipulation, but so far as I know, Beavers refused to sign it.

That meant we had to proceed with trial. As I recall, Mr. Taylor did not want to incur the expense or uncertainty of moving ahead with a trial. Since the Beavers would not sign, there wasn't anything further I could do.

Yours truly,

22-0644

2. There is hereby established, decreed and confirmed to plaintiffs the right to twenty miner's inches of the natural flow of the waters of Little Springs Creek, (also known as Little Springs and South Springs), with a priority of June 1, 1890, to irrigate twenty acres of irrigable land, in a field of triangular shape lying between Little Spring Creek and Deep Creek, and bounded on the South by the South boundary line of plaintiff's property, and with the property to be irrigated located upon the $S\frac{1}{2}SW\frac{1}{4}$, Section 5, $N\frac{1}{2}N\frac{1}{2}NW\frac{1}{4}$, Section 8, Township 3 North, Range 45, E.B.M. The water to be used shall be measured at the point of diversion of the plaintiffs, on the natural channel of said stream, on the land of the plaintiffs above-described. The right to said water is of equal priority with the right of Elva Taylor to the waters of said stream, described in Paragraph-3 hereof.

Plaintiffs may not and shall not enlarge the use, nor use the waters of said stream on other land.

22-0645

3. There is hereby established, decreed and confirmed to defendant, Elva Taylor, her heirs and assigns, the right to seventy-five miner's inches, continuous flow of the natural flow of the waters of Little Spring Creek, measured at her points of diversion upon her own land, wherein said stream arises and for the purpose of irrigating eighty acres of her property, and appurtenant to her property, located in Teton County, Idaho, and described as follows, to-wit: $S\frac{1}{2}NE\frac{1}{4}$, $S\frac{1}{2}N\frac{1}{2}NE\frac{1}{4}$, Section 7, $S\frac{1}{2}NW\frac{1}{4}$, $S\frac{1}{2}N\frac{1}{2}NW\frac{1}{4}$, Section 8, all in Township 3 North, Range 45, E.B.M.

COMES NOW the undersigned, and hereby claim and represent to the court:

1. The undersigned, Rodney Taylor and _____ Taylor, his wife, hereinafter Taylors, are successors in interest to the defendant Elva Taylor, and are now owners of the property described in paragraph 4 of the Findings of Fact, to wit:

S1/2N1/2NE1/4, S1/2NE1/4 of Sec. 7; and S1/2N1/2NW1/4, S1/2NW1/4 of Sec. 8,
all in Township 3 North, Range 45 E.B.M., in Teton County, Idaho

Rodney Taylor is the natural son of the defendant Elva Taylor and entered into an agreement to purchase the property from her in 1968. He has been farming it and in continuous possession of the same since that date.

2. Keith Beaver and Peggy Beaver, his wife, hereinafter Beaver, are successors in interest to a portion of the property owned by the plaintiffs Victor and Erma Kunz, to wit:

MICROFILMED

NOV 06 1995

There have been several transfers of said property since it was owned by plaintiffs. Beavers acquired their interest in the portion described herein in 1989.

3. Taylors as successor in interest to defendant Elva Taylor claim:

A. That neither plaintiffs nor any of their successors in interest have ever used any of the waters of Little Spring Creek; that Beavers' land is higher than the ditches and diversions and it is impossible now and always has been for the water of Little Spring Creek to gravity flow onto Beavers' land as described herein.

B. That neither plaintiffs nor their predecessors in interest have used any water from Deep Creek since 1968.

C. That every year continuously since 1968, Taylors have used not less than 20 inches of the flow of Little Spring Creek, and all of Deep Creek to irrigate their lands described in paragraph 1, throughout each irrigation season.

D. Beavers have therefore forfeited their rights to Little Spring Creek and Deep Creek and Taylors have, by diversion and application to beneficial use, acquired the right to the same.

4. Beavers as partial successors to plaintiff dispute the claims of Taylors and deny that any water rights subject to the Judgment and Decree herein have been forfeited, and further deny that Taylors have acquired the water rights subject to the Judgment and Decree by diversion and application to beneficial use.

Both parties, however, recognize the uncertainty and expense of litigation, and agree that it is each of their interests to resolve their claims and denials by this stipulation and request that the court modify the Judgment and Decree entered herein as follows:

5. Paragraph 1, commencing near the bottom of page 2, should be deleted and the following substituted therefore:

There is hereby established, decreed and confirmed to Taylors the right to 20 inches of the natural flow of the waters of Little Spring Creek, also known as Little Springs and South Springs, with a priority of June 1, 1890, to irrigate the property of Taylors throughout the irrigation season described as follows: S1/2N1/2NE1/4, S1/2NE1/4 of Sec. 7; and S1/2N1/2NW1/4, S1/2NW1/4 of Sec. 8, all in Township 3 North, Range 45 E.B.M., in Teton County, Idaho.

6. That paragraph 2 of said judgment of decree, appearing in the middle of page 3, remain in full force and effect.

7. That paragraph 3, located near the bottom of page 3 of said judgment and decree, be eliminated.

8. That paragraph 4, located near the bottom of page 3, and paragraph 5, located on page 4 of said judgment and decree, be eliminated, and that there be substituted therefore, the following:

Taylors and Beavers shall rotate the use of the natural flow of Deep Creek, with a priority date of June 1, 1890, as follows:

A. The parties agree to rotate the use of all the waters of Deep Creek alternating weekly with Taylors to have the last seven days (week) of May of each calendar year, Beavers the first seven days of June (week) of each calendar year, with the weekly rotation thereafter.

B. If either party elects not to use said water during all or any part of the rotation, the other party shall be entitled to do so provided, however, that neither party shall lose or gain any rights to or from the other as a result of not using the water and allowing the other to use it during the rotation. It is the intent of this paragraph that if one party is not using the water, said party shall not lose any rights to the other; that the party using said water during the others' rotation does not gain any rights by doing so.

C. Taylors agree the water shall be used on the following described property during the irrigation season: S1/2N1/2NE1/4, S1/2NE1/4 of Sec. 7; and S1/2N1/2NW1/4, S1/2NW1/4 of Sec. 8, all in Township 3 North, Range 45 E.B.M., in Teton County, Idaho.

D. Beavers agree they will use the water on the following described property during the irrigation season:

9. Paragraph 6, on page 4 of the judgment and decree shall remain in full force and effect.

10. The parties further agree:

A. This stipulation is intended to be binding upon the parties hereto, their successors and assigns.

B. Either party may record this stipulation in Teton County, Idaho.

C. The stipulation shall be presented to the court, and filed, and the parties hereby request the court to modify the judgment and decree dated June 17, 1966, as provided herein. If for any reason, the court is unwilling to modify as provided herein, the parties nevertheless agree on behalf of themselves and their successors to be bound by the provisions herein, and hereby direct the water master of Water District 1 to deliver the water as set forth herein.

D. If the court does modify the judgment and decree as set forth herein, either party may record the judgment and decree as modified.

E. Whether modified by the court or not, either party may use this stipulation (and/or the modified judgment and decree) in the pending Snake River Basin Adjudication, and both parties agree to be bound by the provisions herein in said Snake River Basin Adjudication.

Either may, therefore, amend their claim in the SRBA consistent with the provisions herein.
