Hi Chris,

Just a reminder to let you know that we are awaiting the information relative to the above claim which was requested on April 24, 2018. If you recall, there was some confusion over the source of water being a well or a spring. All the information points to the source as a well yet the claim has been filed for a spring source. There were also several other questions which needed to be addressed, i.e. the pond and the exact location of the place of use.

Without this information, we will be unable to revisit the disallowed recommendation for this claim and you will not have a valid water right for this water use.

Should circumstances warrant the filing of a permit application, rather than the filing of this claim; I am enclosing an application for permit, with instructions.

Please be sure to contact me if you have any questions.
